Modern European History:

Modern European History Hutton Webster, 1920 *The Oxford Handbook of Early Modern European History, 1350-1750* Hamish M. Scott, 2015 This Handbook re-examines the concept of early modern history in a European and global context. The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching, research and scholarly publishing. More recently, however, the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned. The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume II is devoted to Cultures and Power, opening with chapters on philosophy, science, art and architecture, music and the Enlightenment. Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments, notably the expansion of state power.

Modern European History Charles Downer Hazen, 1919 Modern European History Made Simple K. Perry, 1983 **A History of Modern Europe** Albert S. Lindemann, 2012-12-10 A History of Modern Europe surveys European history from the defeat of Napoleon to the twenty-first century, presenting major historical themes in an authoritative and compelling narrative. Concise, readable, single volume covering Europe from the early nineteenth century through the early twenty-first century. Vigorous interpretation of events reflects a fresh, concise perspective on European history. Clear and thought-provoking treatment of major historical themes. Lively narrative reflects complexity of modern European history but remains accessible to those unfamiliar with the field.

Early Modern Europe, 1450-1789 Merry E. Wiesner-Hanks, 2022-08-25 Thoroughly updated edition of a best-selling, acclaimed book placing early modern European history in a global and environmental context. *A History of Modern Europe* Merriman, John, Ph.D., 2019-02-15 Students and instructors alike praise A History of Modern Europe for its authoritative coverage from the Renaissance to the present day. Written in Merriman's signature narrative style, the book is brightened with humor and biographical sketches. The Fourth Edition reflects the latest scholarship while placing special emphasis on the theme of war and society. A new full-color design features a completely redrawn map program and new pedagogical and teaching tools.

Themes in Modern European History 1780-1830 Pamela Pilbeam, 2017-06-30 Themes in Modern European History 1780-1830 is an authoritative and lively exploration of a period dominated by events which have shaped modern Europe. In a series of articles, six leading academics present some controversial conclusions: the east-west contrast in Europe today has

more to do with responses to the French Revolution of 1789 than the Russian Revolution of 1917 the conservative Europe of 1814 was the product of the Romantic imagination not a Restoration of the old regime Spanning political social economic and demographic facets of revolutions this is an indispensable textbook for all students of the nineteenth century and for all those interested in understanding the nature of Europe today A History of Modern Europe John M. Merriman, 1996
