Modernity and Re-enchantment Philip Taylor, 2007 Contains essays which portray the vibrancy of Vietnamese spirituality and shed light on the renaissance of religion in this communist country This book provides insights from post revolutionary Vietnam into the diverse passages to re enchantment in the modern world

Religion, Place and Modernity, 2016-05-09 Using the potential of place as an approach and of places as ethnographic contexts the authors in this volume investigate the multiple entanglements of religion and modernity in contemporary settings The guiding questions of such an approach are How are modernity and religion spatially articulated in and through places How do these articulations help us to understand the ways in which religion becomes socially and culturally significant in modern contexts And how do they reveal the ways in which modernity unfolds within religion Thus places are not only understood as neutral locations or extensions but as spatial modes to mediate properties contents and processes of religion and modernity Based on ethnographic and historical research in Southeast and East Asia and featuring reflections on the concepts of religion and modernity respectively the authors offer a deeper understanding of the articulation of a religious modernity in these regions and beyond Contributors are Nikolas BROU CHAN Yuk Wah Michael DICKHARDT Volker GOTTOWIK Patrice LADWIG Andrea LAUSER Jovan MAUD YEOH Seng Guan Clemens SIX Paul SORRENTINO Alexander SOUCY Sing SUWANNAKIJ

Buddhist Modernities Hanna Havnevik, Ute Hüsken, Mark Teeuwen, Vladimir Tikhonov, Koen Wellens, 2017-02-17 The transformations Buddhism has been undergoing in the modern age have inspired much research over the last decade The main focus of attention has been the phenomenon known as Buddhist modernism which is defined as a conscious attempt to adjust Buddhist teachings and practices in conformity with the modern norms of rationality science or gender equality This book advances research on Buddhist modernism by attempting to clarify the highly diverse ways in which Buddhist faith thought and practice have developed in the modern age both in Buddhist heartlands in Asia and in the West It presents a collection of case studies that taken together demonstrate how Buddhist traditions interact with modern phenomena such as colonialism and militarism the market economy global interconnectedness the institutionalization of gender equality and recent historical events such as de industrialization and the socio cultural crisis in post Soviet Buddhist areas This volume shows how the re invention of

traditions constitutes an important pathway in the development of Buddhist modernities and emphasizes the pluralistic diversity of these forms in different settings **Engaging the Spirit World** Kirsten W. Endres, Andrea Lauser, 2012-03-01

In many parts of the contemporary world spirit beliefs and practices have taken on a pivotal role in addressing the discontinuities and uncertainties of modern life The myriad ways in which devotees engage the spirit world show the tremendous creative potential of these practices and their innate adaptability to changing times and circumstances Through in depth anthropological case studies from Indonesia Malaysia Thailand Myanmar Laos and Vietnam the contributors to this book investigate the role and impact of different social political and economic dynamics in the reconfiguration of local spirit worlds in modern Southeast Asia Their findings contribute to the re enchantment debate by revealing that the spirited modernities that have emerged in the process not only embody a distinct feature of the contemporary moment but also invite a critical rethinking of the concept of modernity itself *Eastspirit: Transnational Spirituality and Religious Circulation in East and West* Jørn Borup, Marianne Qvortrup Fibiger, 2017-08-28

Mindfulness yoga Tantra Zen martial arts karma feng shui Ayurveda Eastern ideas and practices associated with Asian religions and spirituality have been accommodated to a global setting as both a spiritual religious and a broader cultural phenomenon Eastern spirituality is present in organized religions the spiritual New Age market arts literature media therapy and health care but also in public institutions such as schools and prisons Eastspirit Transnational Spirituality and Religious Circulation in East and West describes and analyses such concepts practices and traditions in their new Western and global contexts as well as in their transformed expressions and reappropriations in religious traditions and individualized spiritualities back in the East within the framework of mutual interaction and circulation regionally and globally **Spaces of Spirituality** Nadia Bartolini, Sara MacKian, Steve Pile, 2018-02-15

Spirituality is too often subsumed under the heading of religion and treated as much the same kind of thing Yet spirituality extends far beyond the spaces of religion The spiritual makes geography strange challenging the relationship between the known and the unknown between the real and the ideal and prompting exciting possibilities for charting the ineffable spaces of the divine which lie somehow beyond geography In setting itself that task this book pushes the boundaries of geographies of religion to bring into direct focus questions of spirituality By seeing religion through the lens of practice rather than as a set of beliefs geographies of religion can be interpreted much more widely bringing a whole range of other spiritual practices and spaces to light The book is split into three sections each contextualised with an editors introduction to explore the spaces of spiritual practice the spiritual production of space and spiritual transformations This book intends to open to up new questions and approaches through the theme of spirituality pushing the boundaries on current topics and introducing innovative new ideas including esoteric or radical spiritual practices This landmark book not only captures a significant moment in geographies of spirituality but acts as a catalyst for future work Routledge Handbook of Civil and Uncivil Society in Southeast Asia Eva Hansson, Meredith L. Weiss, 2023-02-28 The Routledge Handbook of Civil and Uncivil

Society in Southeast Asia explores the nature and implications of civil society across the region engaging systematically with both theoretical approaches and empirical nuance for a systematic comparative and informative approach The handbook actively analyses the varying definitions of civil society critiquing the inconsistent scrutiny of this sphere over time It brings forth the need to reconsider civil society development in today s Southeast Asia including activist organisations and platforms composition claims resources and potential to effect sociopolitical change Structured in five parts the volume includes chapters written by an international set of experts analysing topics relating to civil society Spaces and platforms Place within politics Resources and tactics Identity formation and claims Advocacy The handbook highlights the importance of civil society as a domain for political engagement outside the state and parties across Southeast Asia as well as the prevalence and weight of uncivil dimensions It offers a well informed and comprehensive analysis of the topic and is an indispensable reference work for students and researchers in the fields of Asian Studies Asian Politics Southeast Asian Politics and Comparative Politics The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license Funded by The Research Foundation for State University of New York USA and The Stockholm Center for Global Asia Sweden

Historicizing Secular-Religious Demarcations Monika Wohlrab-Sahr, Daniel Witte, Christoph Kleine, 2024-07-01 This volume aims to revitalize the exchange between sociological differentiation theory and the sociology of religion which previously held center stage among the sociological classics It brings together contributions from different disciplines as well as various forms of regional and historical expertise which are indispensable in forming a globally oriented sociological perspective today Secularization is understood as a process of boundary demarcation that is as the enactment of semantic practical and institutional distinctions between religion and other spheres of activity and knowledge These distinctions may emerge from within the religious field itself or may be absorbed into the field having originally emerged elsewhere They may even be directly imposed upon religion by external forces The volume is therefore based on the premise that societal differentiation and secularity as a specific expression of it is a widespread structural feature that nonetheless takes on various forms depending on its historical and cultural context In order to make this diversity visible the volume adopts a global comparative perspective and examines historical distinctions and differentiations in the West and beyond By examining different forms and modes of secularity in statu nascendi the volume contributes to developing a better understanding of the diversity of secularities even of those found in the present day in terms of their historicity and their specific path dependencies With this shift in perspective this special volume initiates a global and historical turn in the theory of differentiation as well as in the study of secularity

The Recreational Frontier Michael Kleinod, 2017 This study treats ecotourism in National Protected Areas of Lao PDR as a recreational frontier which instrumentalizes the recreation of human natures in capitalism s centers for that of nonhuman natures at capitalism s closing frontiers This world ecological practice of ecorational instrumentality i e

of nature domination in the name of Nature presents a remedy for capitalism's crisis that is itself crisis ridden enacting a central tension of ecocapitalism that between conservation and development This epistemic institutional tension is traced through the preconditions modes and effects of ecotourism in Laos by gradually zooming from the most general scale of societal nature relations into the most detailed intricacies of ecotouristic practice The combination of Bourdieu Marx and Critical Theory enables a systematic analysis of the recreational frontier as enactment of various contradictions deriving from the false and real Nature Society dualism

Decolonizing Ecotheology S. Lily Mendoza, George Zachariah, 2022-02-18

Decolonizing Ecotheology Indigenous and Subaltern Challenges is a pioneering attempt to contest the politics of conquest commodification and homogenization in mainstream ecotheology informed by the voices of Indigenous and subaltern communities from around the world The book marshals a robust polyphony of reportage wonder analysis and acumen seeking to open the door to a different prospect for a planet under grave duress and a different self assessment for our own species in the mix At the heart of that prospect is an embrace of soils and waters as commons and a privileging of subaltern experience and marginalized witness as the bellwethers of greatest import Of course decolonization finds its ultimate test in the actual return of land and waters to precontact Indigenous who yet have feet on the ground or paddles in the waves and who conjure dignity and vision in the manifold of their relations in spite of ceaseless onslaught and dismissal Their courage is the haunt these pages hallow like an Abel never entirely erased from the history May the moaning stop and the re creation begin

Asian Migrants in Europe Sylvia Hahn, Stanley Nadel, 2014 This volume explores the renewal of Asian migration to Europe that began in the late 18th century while still in the frame of the colonial regime It counters the construction of an unchanging East versus a dynamic West developed in the 19th century of static rooted populations versus adventurous young men seeking opportunities afar the producers of this cliché overlooked migrating women These essays provide analyses of some of the migrants from the different societies of Asia in Europe They focus on migrants from East and South Asia and explore their different experiences in Europe from the 18th century to the present

Global Debates, Local Dilemmas Tran Minh Hang, 2018-12-20 The practice of sex selective abortion is on the rise globally stirring debates about gender inequality medical ethics and reproductive autonomy This book is the first ethnography to document practices of sex selection in Viet Nam It shows how and why abortions are used to select the sex of children and how Vietnamese individuals and health professionals are implicated in this illicit and controversial practice Telling the stories of women who have undergone sex selective abortions it traces their passage through sex determination and abortion decision making phases and investigates their experiences during and after their sex selective abortions It describes the turmoil experienced by individuals who undergo such abortions and explores their interactions with the spectrum of social actors and health institutions that facilitate practices of sex selection As the first ethnographic study on sex selective abortions in Viet Nam this book delves into socially sensitive terrain and sheds light on personally fraught individual experiences of reproductive agency

It documents societal responses to sex selective abortions in Viet Nam and identifies gaps in the state's capacity to regulate reproductive desire in a marketised economy. A resource for researchers it contributes to ongoing debates on sex selection and provides a framework for developing relevant social policies, interventions and support services. This pioneering study offers a nuanced and sensitive account of sex selective abortion as human experience. Through thought provoking case studies the book provides rare ethnographic documentation of the complex quandaries that arise as selective reproductive technologies are routinised across the globe. Mediums and Magical Things Laurel Kendall, 2021-05-25 Statues, paintings and masks like the bodies of shamans and spirit mediums give material form and presence to otherwise invisible entities and sometimes these objects are understood to be enlivened agentive on their own terms. This book explores how magical images are expected to work with the shamans and spirit mediums who tend and use them in contemporary South Korea, Vietnam, Myanmar, Bali and elsewhere in Asia. It considers how such things are fabricated, marketed, cared for, disposed of and sometimes transformed into art market commodities and museum artifacts. Southeast Asia and the English School of International Relations L.

Quayle, 2013-01-17 This book examines the interface between the theoretical framework known as the English School and the international and transnational politics of Southeast Asia. The region theory dialogue it proposes signals productive ways forward for the theory. *Transcending the Culture-Nature Divide in Cultural Heritage* Sally Brockwell, Sue O'Connor, Denis Byrne, 2013-12-13

While considerable research and on ground project work focuses on the interface between Indigenous local people and nature conservation in the Asia Pacific region, the interface between these people and cultural heritage conservation has not received the same attention. This collection brings together papers on the current mechanisms in place in the region to conserve cultural heritage values. It will provide an overview of the extent to which local communities have been engaged in assessing the significance of this heritage and conserving it. It will address the extent to which management regimes have variously allowed, facilitated or obstructed continuing cultural engagement with heritage places and landscapes and discuss the problems agencies experience with protection and management of cultural heritage places. Popular Religion in Southeast Asia Robert L. Winzeler, 2015-12-17

In this overview of popular religion in Southeast Asia Robert L Winzeler offers an interpretative look at the nature of today's indigenous religious traditions as well as Hinduism, Buddhism, Islam and Christianity and conversion. He focuses not on religion as it exists in books, doctrine, theology and among elites and dominant institutions but rather in the lives, beliefs and practices of ordinary people. *Popular Religion in Southeast Asia* employs a broad view of religion as involving not just the usual Western notions of faith but also supernatural belief in general magic, sorcery and practical concerns such as healing, personal protection and success in business. Case studies and concrete examples flesh out the discussion demonstrating how popular religion relates to historical and contemporary social, cultural, political and economic developments in the region. Catholic Vietnam Charles Keith, 2012-10-18 Keith explores the

complex position of the Catholic Church in modern Vietnamese history Much like the revolutionary ideologies and struggles in the name of the Vietnamese nation the revolution in Vietnamese Catholic life polarized the place of the new Church in post colonial Vietnamese politics and society *Cambodia's Second Kingdom* Astrid Noren-Nilsson,2018-08-06 Cambodia s Second Kingdom is an exploration of the role of nationalist imaginings discourses and narratives in Cambodia since the 1993 reintroduction of a multiparty democratic system Competing nationalistic imaginings are shown to be a more prominent part of party political contestation in the Kingdom of Cambodia than typically believed For political parties nationalistic imaginings became the basis for strategies to attract popular support electoral victories and moral legitimacy Astrid Nor n Nilsson uses uncommon sources such as interviews with key contemporary political actors to analyze Cambodia s postconflict reconstruction politics This book exposes how nationalist imaginings typically understood to be associated with political opposition have been central to the reworking of political identities and legitimacy bids across the political spectrum Nor n Nilsson examines the entanglement of notions of democracy and national identity and traces out a tension between domestic elite imaginings and the liberal democratic framework in which they operate *Development in Spirit* Seb Rumsby,2023-06-06 As state economic policies promote integration under a single logic of modernist development many impoverished groups remain on the margins Development in Spirit explores the practices employed by communities on the fringes of such nation building projects Using an everyday political economy lens Seb Rumsby demonstrates how seemingly powerless actors actively engage with larger forces shaping their experience of development in ways that are underexamined but have far reaching consequences Following state led market reforms in the 1980s Vietnam experienced stunning economic transformation But for the Hmong communities of the country s north and central highlands the benefits proved elusive Instead the Hmong people have pursued their own alternative paths to development Rumsby shows how mass conversion to Christianity led to a case of unplanned development that put the Hmong on a trajectory of simultaneous integration into the market economy and resistance to state authority Many of the strategies community members employ are tied to the Christianization of everyday life Religious actors play complex and often contradictory roles in facilitating networks of exchange challenging or enforcing gender norms promoting communalism and enforcing discipline and shaping local ideas about progress They are influenced by national and transnational religious networks especially US produced radio broadcasts by Hmong American Christians and local converts This compelling account provides fresh theoretical and empirical insights into the interplay of religion neoliberal development and marketization across the world
