Lies, Damned Lies, and Drug War Statistics, Second Edition Matthew B. Robinson, Renee G. Scherlen, 2014-01-01 Revised and updated edition that analyses how the Office of National Drug Control Policy employs statistics to misleadingly claim the War on Drugs is a success First published in 2007 Lies Damned Lies and Drug War Statistics critically analyzed claims made by the Office of National Drug Control Policy ONDCP the White House agency of accountability in the nation s drug war since 1989 as found in the six editions of the annual National Drug Control Strategy between 2000 and 2005 In this revised and updated second edition of their critically acclaimed work Matthew B Robinson and Renee G Scherlen examine seven more recent editions 2006 2012 to once again determine if ONDCP accurately and honestly presents information or intentionally distorts evidence to justify continuing the drug war They uncover the many ways in which ONDCP manipulates statistics and visually presents that information to the public Their analysis demonstrates a drug war that consistently fails to reduce drug use drug fatalities or illnesses associated with drug use fails to provide treatment for drug dependent users and drives up the prices of drugs They conclude with policy recommendations for reforming ONDCP s use of statistics as well as how the nation fights the war on drugs Praise for the First Edition Lies Damned Lies and Drug War Statistics is surprisingly easy to read and Robinson and Scherlen have done a huge favor not only to critics of current drug policy by compiling this damning critique of ONDCP claims but also to anyone interested in how data is compiled presented and misused by bureaucrats attempting to guard their domains It should be required reading for members of Congress Drug War Chronicle Book Review The authors have performed a valuable service to our democracy with their meticulous analysis of the White House ONDCP public statements and reports They have pulled the sheet off what appears to be an official policy of deception using clever and sometimes

clumsy attempts at statistical manipulation This document at last gives us a map of the truth Mike Gray author of Drug Crazy How We Got into This Mess and How We Can Get Out Robinson and Scherlen make a valuable contribution to documenting how ONDCP fails to live up to basic standards of accountability and consistency Ethan Nadelmann Executive Director Drug Policy Alliance *Statistics Made Simple Do It Yourself On Pc 2Nd Ed.* Sarma,2010-01-30 Written in a reader friendly style this thoroughly revised text teaches the students how to handle data and get the desired output through commonly available software like Microsoft Office 2007 and Excel using a step by step approach Real life data have been analyzed and illustrated through graphs tables and screenshots An entire chapter is devoted to Crystal Reports CRP software which is currently used for rendering custom designed reports from databases This book will also benefit all those professionals who are not aware of the use of computer for data handling and statistical analysis Becoming Literate in Mathematics and Science ,2001
