the UK set to become a Singapore lite tax haven What is the difference between a UK centric and a UK centred point of view on Brexit Will Brexit augment disintegrative tendencies in the European and world economy These are some of the questions explored in this timely set of essays penned by some of the best known names in political economy and international political economy The chapters in this book originally published as a special issue in Globalizations Handbook of the **International Political Economy of the Corporation** Andreas Nölke, Christian May, 2018-09-28 Over the past few decades corporations have been neglected in studies of international political economy IPE Seeking to demystify them what they are how they behave and their goals and constraints this Handbook introduces the corporation as a unit of analysis for students of IPE Providing critical discussion of their global and domestic power and highlighting the ways in which corporations interact with each other and with their socio political environment this Handbook presents a thorough and up to date overview of the main debates around the role of corporations in the global political economy Handbook of the International Political Economy of Trade David Deese, 2014-08-29 This accessible comprehensive and pertinent Handbook will be of interest to academics researchers and students working in the fields of international politics in particular political economy and foreign policy and the economics of trade Practitio European VAT and the Sharing Economy Giorgio Beretta, 2019-10-24 A breadth of new digital platforms has dramatically expanded the range of possibilities for exchanging anything required by business or personal needs from accommodation to rides In the virtual marketplaces shaped and ruled by these novel matchmakers rather than by a single centralized entity value is created through the granular interaction of many dispersed individuals By allowing instantaneous and smooth interaction among millions of individuals platforms have indeed pushed the digital frontier farther and farther so as to include within it even services once not capable of direct delivery from a remote location such as accommodation and passenger transport Legal disruption is also underway with foundational dichotomous categories such as those between suppliers and customers business and private spheres employees and self employed no longer viable as organizational legal structures. This is the essential background of the first book to relate what is synthetically captured under the umbrella definition of sharing economy to key features at the core of European Value Added Tax EU VAT and to look at the feasibility of a reformed EU VAT system capable of addressing the main challenges posed by these new models of production distribution and consumption of goods and services Specifically the study analyses five legal propositions underpinning the current EU VAT system as the following taxable persons taxable transactions composite supplies place of supply rules and liability regimes for collection and remittance of VAT Exploration of these five legal propositions is meant to assess the practical feasibility of shoehorning the main sharing economy business models notably those available in the accommodation and passenger transport sectors into the framework of existing EU VAT provisions The author further draws on the normative standards of equality neutrality simplicity flexibility and proportionality to test the reflexes of the current EU VAT system in the sharing economy domain

Opportunities for reform of the current EU VAT system are in turn evaluated with each chapter including cogent proposals in the form of incremental and targeted amendments to the current EU VAT provisions As the first comprehensive analysis of the treatment of the sharing economy for VAT purposes the book provides not only a theoretical framework for future studies in the tax field but also indispensable practical guidance for VAT specialists confronting daily with the many challenges ushered in by the sharing economy Moreover the various solutions and recommendations advanced in the book offer valuable insights to international and national policymakers dealing with similar issues under other VAT systems Economic Issues and Policies Joseph P. Euroscepticism as a Transnational and Pan-European Phenomenon John FitzGibbon, Benjamin Leruth, Nick Startin, 2016-08-19 As the EU enters an increasingly uncertain phase after the 2016 Brexit referendum Euroscepticism continues to become an increasingly embedded phenomenon within party systems non party groups and within the media Yet academic literature has paid little attention to the emergence of and increased development of transnational and pan European networks of EU opposition As the gap between Europe's mainstream political elites and an increasingly sceptical public has widened pan European spheres of opposition towards the EU have developed and evolved The volume sets out to explain how such an innately contradictory phenomenon as transnational Euroscepticism has emerged It draws on a variety of perspectives and case studies in a number of spheres the European Parliament political parties the media civil society and public opinion Examining to what extent the pan European dimension of Euroscepticism is becoming increasingly influential it argues that opposition to European integration has for too long been viewed somewhat narrowly through the paradigm of national party politics This text will be of key interest to scholars students and professionals in EU politics European studies political parties and more broadly to comparative politics and international relations The Political Economy of EU Ties with Iraq and Iran Amir M. men immigrants and denizens and between the winners in a new more competitive world and those who feel left behind are becoming steadily more important European countries have entered a period of political instability and this is reflected in policy directions Austerity predominates nearly everywhere but patterns of social investment protectionism neo Keynesian intervention and fightback vary between countries The volume identify areas of convergence and difference in European welfare state futures in this up to date study essential reading to grasp the pace and directions of change Transatlantic Colossus Daniel Cardoso, Philani Mthembu, Marc Venhaus, Miguelángel Verde Garrido, 2014-01-17 Now available online The Transatlantic Colossus Global Contributions to Broaden the Debate on the EU US Free Trade Agreement 2014 a publication from the Berlin Forum on Global Politics BFoGP in collaboration with the Internet Society Collaboratory and FutureChallenges org of the Bertelsmann Stiftung The free trade agreement TAFTA TTIP currently being negotiated between the United States and the European Union has the potential to significantly impact the lives of people on both sides of the Atlantic and across the world Because it is crucial to broaden the debate on this topic of global importance the Berlin Forum on Global Politics decided to send out an international call for papers in order to collect a strong plurality of views on TAFTA TTIP as part of the Collaboratory's Initiative on Globalization and the Internet The result is an open knowledge publication freely accessible under its Creative Commons BY license which includes 22 articles written by a multitude of well informed global stakeholders members of civil society academia think tanks consumer and activist groups and business organizations Achieving Dynamism in an Anaemic Europe Luigi Paganetto, 2015-04-09 This book explores the reasons behind Europe s poor performance in terms of overall growth and its progressively diminishing role in the global context Recognizing that the big challenge is to restore confidence and hope in Europe potential solutions are discussed The volume comprises a selection of contributions to the XXVI Villa Mondragone International Economic Seminar Rome 2014 the most recent of a series of seminars that have provided outstanding scholars with an opportunity to discuss key topics in economic research In recent years the persistence of high unemployment and low growth has increased the Euroscepticism that has targeted the euro and the Brussels bureaucracy Readers will find this book a fascinating source of information on current thinking regarding topics such as European industrial policy European governance unemployment the euro and competitiveness trade and financial integration the Transatlantic Trade and Investment Partnership anticorruption policies and energy and climate policies In particular it examines the structural reforms and commitment to development that will be required for Europe to become a region characterized by social justice dynamism and opportunities for all Banking.
