human dilemma of displacement The book presents the research of practical theologians a missiologist and a religious  
practitioner whose work pertains first and foremost to the South African context The different fields of expertise of the  
contributors within the broader field of practical theology worked towards a unique compilation of themes each relevant to  
the issue at stake The majority of chapters are theoretically orientated except where authors refer to empirical work  
conducted during previous research The main contribution of this collaborative work is to be sought in the practical  
theological and ecclesiological perspectives it provides It engages the critical questions of what kind of church we need and  
what kind of care we should provide in the face of the growing predicament of human displacement The theological and
