Ink Stains, Volume 3 Kristi Petersen Schoonover ,K. W. Taylor ,Clint Orr ,Andrea Hansell ,Ann Liska ,Diane Arrelle ,Terry Sanville ,Derek Muk ,Olga Munroe ,2017-01-22 The past has a horrible habit of haunting us all Sometimes it surfaces in regret and a lifetime of what ifs Sometimes it is horrors made real in other worldly beings hell bent on revenge for wrong doings Join authors Diane Arrelle Marc E Fitch Andrea Hansell Ann Liska Derek Muk Olga Munroe Clint Orr Terry Sanville Kristi Petersen Schoonover and K W Taylor as they explore the darkest deeds that keep us up at night the past that cannot be undone and the heavy chains these ghosts trap us in This collection of literary tales gives life to ghosts both real and imaginary and all the sins of the past that haunt us in the present From grieving betrayed lovers to guilt born demons those that haunt the characters in these stories crafted by our authors bring pain heartache stunning revelations and a stark reminder that the past will never die *Men Without Qualities* Marc E. Fitch,2015-11-10 During the BP oil leak of 2010 while the experts were frantically working on a solution to stop the flow thousands of people were offered solutions One suggestion came from a plumber named Joe Caldart but since he wasn t a scientist with a PhD his plan was dismissed outright Only when a professor of engineering at Berkeley and former Shell executive recognized the validity of his idea and passed it on to BP did they listen Six weeks later a strikingly similar design was lowered onto the Macondo well and the eighty seven day crisis ended In this age of technology experts studies and the media more young people than ever are attending college and more degrees are being conferred every year but with all the degrees conferred and the numbers in academia soaring it is prudent to examine not only what is being taught and how but also its effect on society and the culture We are constantly bombarded with studies and so called expert opinions that are contradictory controversial and ineffective Explanations of current events are accepted at face value by the common man of today because they are informed by experts in the field In *Shmexperts How Ideology and Power Politics are Disguised as Science* Marc E Fitch examines the modern myth of experts in today s twenty four hour media cycle and explains why viewers readers and average Joe s should do their own research too In understanding the underlying philosophy and motivation of these experts and the media that promote them we will gain greater insight and critical thinking skills by which to determine whether or not an expert as cited in the media is a true expert or an agenda driven shmexpert In this brilliantly insightful book Fitch warns of the frightening prospect of a society led into intellectual complacency by relying on mass media manipulation and the bureaucratization of knowledge *Shmexperts* explores the philosophy inherent in the media s reliance on and use of experts and its negative influence on society as a whole In this truly enlightening book average Americans will learn to trust themselves over the so called experts that have infiltrated the media **Science and Ideology** ,1996
