Nightly Wisdom Nightly Wisdom:

Nightly Wisdom Josh Bartok, Gustavo Szpilman Cutz, 2007-11-28 Human beings the world over have always found the nighttime and its attendant activities of sleeping dreaming and waking up mysterious mystical and rich with meaning and metaphor The name Buddha means the one who has awakened and enlightenment itself is often portrayed literarily as the luminous full moon lighting our way through the blinding black of night Nightly Wisdom goes deep into the wealth of Buddhist inspirations on these powerful topics offering encouragement and clear teaching on lucid dreaming and Tibetan dream yoga the art of extending one's meditation practice into the boundaryless world of dreamtime gentle guidance on relaxing into restful sleep and awakening from the suffering dream of separateness as well as poetry and prose whose sources span time and space from ancient Japan and the Buddha himself to some of the brightest lights of Buddhism today A book unlike any other Nightly Wisdom is designed to be placed on the bedside table and read last thing in the evening so that one's sleep may be infused with a virtue that can be renewed in the morning and carried on throughout the day Nightly Wisdom represents perhaps the first effort to bring all of these Buddhist inspirations together in one welcoming volume and is an ideal guide for anyone who has ever dreamed of waking up to the entirety of life or wondered how best to suffuse this wisdom into that third of our lives we all spend in bed

The Nightly Act of Dreaming Ryan Curtis Friesen, 2019-05-28 The search for a shared practice of storytelling around which a popular study of cognitive narratology might form need look no further than our nightly experience of dreams Dreams and memories are inseparable complicating and building upon one another reminding us that knowledge of ourselves based on our memories relies upon fictionalized narratives we create for ourselves Psychologists refer to confabulation the creation of false or distorted memories about oneself and the world we inhabit albeit without any conscious intention to deceive This process and narrative inherent in the dreamlife of all people is at odds with the daily menu of cultural myths and politicized fictions fed to the Western world through print and social media and for which there is constant divisiveness and disagreement Cognitive Narratology and the Shared Identity of Myth uses insights gained from the scientific study of dreaming to explain how the shared experience of dreamlife can work in service to the common good Primary texts and literary works chosen for their influence on contemporary thinking provide a rationale and historical background From Artemidorus a professional diviner and Aristotle to the Church fathers Tertullian St Augustine Gregory of Nyssa Sinesius of Cyrene to The Wanderer Old English poem and Chaucer's Book of the Duchess to Coleridge's writings and R L Stevenson's A Chapter on Dreams and to twentieth century dream theory and dream use in film The purpose is to enable readers through subjective self analysis to recognize what they share with their fellow dreamers shared identity in formation of a shared act of dreaming creation is a universal across centuries and throughout Western culture albeit currently misrepresented and rarely acted upon

Wisdom is Women's Gift to the World In the many cultural stories that speak about the changing of the ages it is always Feminine Spirit which brings about the transition to new life for Feminine Spirit knows the rhythms of life death and rebirth and is the opener of the way In times of cultural transformation it is also our right brain feminine consciousness that is our best guide for it opens us to the creative imagination the realm of possibility The return of the Goddess awakens the transformative energy that births the changing of the ages In the western story of worldwide spiritual transformation there is a powerful image of Cosmic Woman an image of the archetypal Feminine Spirit who transforms and gives birth to this new age And her archetypal image gives us instructions for opening to and incarnating wisdom This image of the awakening Feminine Spirit is an image of the Conscious Woman a woman clothed with the sun standing on the moon crowned with stars who is in labor giving birth to a savior In earlier times and different traditions this archetypal image was understood as Lady Wisdom Today I feel this Goddess image of conscious woman can be incarnated by women everywhere This woman clothed with the sun is Lady Wisdom who calls all women to become her daughters I love Cathy's insights into fairy tales mythology dreams astrological energies and archetypes She makes sense of how our lives are impacted by these complex yet very beautiful elements making them accessible and keeping them profound Her wisdom can only enhance anyone lucky enough to have crossed her path Alix Toland Artist Creator of Color Scope An Astrological Mandala
