Particles and Fields 2 Anton Z. Capri, 2013-11-11 Particle physics seems to be entering a new period of consolidation In 1977 when the first summer institute on particles and fields was held at the Banff Center the standard model of the electro weak interaction was a promising model more or less confirmed today it seems quite well confirmed QCD was considered as probably the correct theory of strong interactions today most theorists take it for granted What seems to be lacking are computational tools and strenuous experimental testing the major ideas seem to exist Thus this is a particularly auspicious time for a review of the status of theoretical and experimental particle physics and field theory The lectures collected in this volume were presented from August 16 to August 27 1981 at the Banff Center in Banff Canada The unifying theme was gauge fields and the topics covered dealt with electro weak interactions QCD sub quarks and unified theories The format of the Institute was as follows thirteen lecture series of two to four hours each given by S Brodsky D Bryman M Chen S Coleman M Creutz H Harari J Iliopoulos C H Llewellyn Smith P Lepage D Perkins and L Susskind In addition there were nine seminars one hour each given by G Bodwin G Bunce M

Imacoqwa's Arrow Jadran Mimica, 2025-05-30 A pathbreaking study of Yagwoia cosmological concepts In Imacoqwa's Arrow Jadran Mimica draws on decades of field research to bring us a rich ethnographic account of myth and meaning in the lifeworlds of the Yagwoia of Papua New Guinea He focuses especially on the relations of the sun and the moon in Yagwoia understandings of the universe and their own place within it This is classic terrain in Melanesian ethnography but Mimica does much more than add to the archive of

anthropological accounts of the significance of the sun and the moon for peoples of this part of the world With extraordinary rigor and reflexivity he grounds his understanding of Yagwoia concepts in psychoanalytic and phenomenological methods that afford a radically new and revealing translation of these seminal themes in Melanesian mythology and its poetics This is a major contribution to the hermeneutics of ethnographic translation and theorization
