Ongeloof en revolutie Guillaume Groen van Prinsterer, 2008 **The German Awakening** Andrew Kloes, 2019
Inhaltsverzeichnis The history of the concept of religious awakening in German Protestantism Religious enlightenment and awakening historical consciousness and Protestant identity The awakening and preaching The awakening and theology The awakening and new religious societies for Evangelism The awakening and new religious societies for social reform **The Making of the Democratic Party in Europe, 1860-1890** Anne Heyer, 2022-02-15 This book analyses the emergence of modern parties in nineteenth century Europe and explores their connection with the slowly developing institution of democracy The close relationship between party and democracy was established by the founders of the first modern parties who presented themselves as representatives of the people Focusing on the ideas and practices of party founders this book moves away from the traditional view that party formation was the result of industrialisation It instead shows that the response of party founders was to frame and establish the modern party as an alternative to existing models of political representation and one that was characterised by popular participation In order to mobilize their followers party founders gave new meaning to existing structures and developed new practices of political organization The result was the creation of organizations that continue to shape the history of modern democracy Exploring the foundation of three political parties the German Social Democratic Workers Party SDAP the Dutch Anti Revolutionary Party ARP and the British National Liberal Federation the author analyses the phenomenon of innovative party formation in nineteenth century Europe before the democratic mass membership party had become a widely accepted concept Taking a transnational and comparative approach this book illustrates the decisive role of party founders in the formation of modern democracy making it an essential read for anyone researching the history of democracy and political parties *Archeologies of Confession* Carina L. Johnson, David M. Luebke, Marjorie Elizabeth Plummer, Jesse Spohnholz, 2017-05-01 Modern religious identities are rooted in collective memories that are constantly made and remade across generations How do these mutations of memory distort our picture of historical change and the ways that historical actors perceive it Can one give voice to those whom history has forgotten The essays collected here examine the formation of religious identities during the Reformation in Germany through case studies of remembering and forgetting instances in which patterns and practices of religious plurality were excised from historical memory By tracing their ramifications through the centuries *Archeologies of Confession* carefully reconstructs the often surprising histories of plurality that have otherwise been lost or obscured *Catalogue of Printed Books*, 1894 *British Museum Catalogue of Printed Books*, 1895 **Great Christian Jurists in the Low Countries** Wim Decock, Janwillem Oosterhuis, 2021-10-07 What impact has Christianity had on law and policies in the Lowlands from the eleventh century through the end of the twentieth century Taking the gradual secularization of European legal culture as a framework this volume explores the lives and times of twenty legal scholars and professionals to study the historical impact of the Christian

faith on legal and political life in the Low Countries The process whereby Christian belief systems gradually lost their impact on the regulation of secular affairs passed through several stages not in the least the Protestant Reformation which led to the separation of the Low Countries in a Protestant North and a Catholic South in the first place The contributions take up general issues such as the relationship between justice and mercy Christianity and politics as well as more technical topics of state church law criminal law and social policy **Ongeloof en revolutie** ,1904 Groen van Prinsterers historische benadering van de politiek W. G. F. van Vliet,2008 *Narratives of Low Countries History and Culture* Jane Fenoulhet,Lesley Gilbert,Ulrich Tiedau,2016-11-07 This edited collection explores the ways in which our understanding of the past in Dutch history and culture can be rethought to consider not only how it forms part of the present but how it can relate also to the future Divided into three parts The Uses of Myth and History The Past as Illumination of Cultural Context and Historiography in Focus this book seeks to demonstrate the importance of the past by investigating the transmission of culture and its transformations It reflects on the history of historiography and looks critically at the products of the historiographic process such as Dutch and Afrikaans literary history The chapters cover a range of disciplines and approaches some authors offer a broad view of a particular period such as Jonathan Israel s contribution on myth and history in the ideological politics of the Dutch Golden Age while others zoom in on specific genres texts or historical moments such as Benjamin Schmidt s study of the doolhof a word that today means labyrinth but once described a 17th century educational amusement park This volume enlightening and home to multiple paths of enquiry leading in different directions is an excellent example of what a past present doolhof might look like **Verslag van de aanwinsten der Koninklijke Bibliotheek gedurende het jaar ...** Koninklijke Bibliotheek ('s-Gravenhage ;-1940).,1882 Verslag over den toestand der Koninklijke Bibliotheek ,1881 Vols for 1891 1921 include separately paged supplements Bijlage A Schenkers varies Bijlage B Aanwinsten varies **An Economic and Social History of the Netherlands, 1800-1920** Michael Wintle,2000-09-21 An Economic and Social History of the Netherlands 1800 1920 provides a comprehensive account of Dutch history from the late eighteenth to the early twentieth century examining population and health the economy and socio political history The Dutch experience in this period is fascinating and instructive the country saw extremely rapid population growth awesome death rates staggering fertility some of the fastest economic growth in the world a uniquely large and efficient service sector a vast and profitable overseas empire characteristic pillarization and relative tolerance Michael Wintle also examines the lives of ordinary people what they ate how much they earned what they thought about public affairs and how they wooed and wed This book will be of central importance to Dutch specialists as well as European historians more generally **The Reception of Edmund Burke in Europe** Martin Fitzpatrick,Peter Jones,2017-01-12 Over the last fifty years the life and work of Edmund Burke 1729 1797 has received sustained scholarly attention and debate The publication of the complete correspondence in ten volumes and the nine volume edition of Burke s Writings and Speeches

have provided material for the scholarly reassessment of his life and works Attention has focused in particular on locating his ideas in the history of eighteenth century theory and practice and the contexts of late eighteenth century conservative thought This book broadens the focus to examine the many sided interest in Burke s ideas primarily in Europe and most notably in politics and aesthetics It draws on the work of leading international scholars to present new perspectives on the significance of Burke s ideas in European politics and culture **In the Phrygian Mode** Robert Sweetman, 2007 This volume has emerged from a small scholarly conference on the relationship between Christianity and Greco Roman civilization above all that civilization s characteristic patterns of philosophical thought The field of investigation is the neo Calvinist current within Dutch protestantism and the elaboration in the 1920s and 1930s of Calvinistic philosophy as one of its most distinctive effects this parish tale has more to recommend it than might appear at first blush For there is a good argument to be made why such a thoroughly local study can benefit a much broader segment of contemporary Protestantism
