Online Advanced Issues International European Tax:

Advanced Issues in International and European Tax Law Christiana HJI Panayi, 2015-12-03 This book examines recent developments and high profile debates that have arisen in the field of international tax law and European tax law Topics such as international tax avoidance corporate social responsibility good governance in tax matters harmful tax competition state aid tax treaty abuse and the financial transaction tax are considered The OECD G20 project on Base Erosion and Profit Shifting BEPS features prominently in the book The interaction with the European Union's Action Plan to strengthen the fight against tax fraud and tax evasion is also considered Particular attention is paid to specific BEPS deliverables exploring them through the prism of European Union law Can the two approaches be aligned or are there inherent conflicts between them The book also explores whether when it comes to aggressive tax planning there are internal conflicts between the established case law of the Court of Justice and the emerging policy of the European institutions By so doing it offers a review of issues which are of constitutional importance to the European Union Finally the book reflects on the future of international and European tax law in the post BEPS world

Tax, Inequality, and Human Rights Philip Alston, Nikki Reisch, 2019-04-11 In Tax Inequality and Human Rights experts in human rights law and in tax law debate the linkages between the two fields and highlight how each can help to tackle rapidly growing inequality in the economic social and political realms Against a backdrop of systemic corporate tax avoidance widespread use of tax havens persistent pressures to embrace austerity policies and growing gaps between the rich and poor this book encourages readers to understand fiscal policy as human rights policy and thus as having profound consequences for the well being of citizens around the world Prominent scholars and practitioners examine how the foundational principles of tax law and human rights law intersect and diverge discuss the cross border nature and human rights impacts of abusive practices like tax avoidance and evasion question the reluctance of states to bring transparency and accountability to tax policies and practices highlight the responsibility of private sector actors for shaping and misshaping tax laws and critically evaluate domestic tax rules through the lens of equality and nondiscrimination The contributing authors also explore how international human rights obligations should influence the framework for both domestic and international tax reforms They address what human rights law requires of state tax policies and how tax laws and loopholes affect the enjoyment of human rights by people outside a state's borders Because tax and human rights both turn on the relationship between the individual and the state neo liberalism's erosion of the social contract threatens to undermine them both

Countering Tax Crime in the European Union Umut Turksen, 2021-03-25 This book seeks durable solutions for tax crime and is a great resource for the development of knowledge policy and law on tax crime The book uniquely blends current practice with new approaches to countering tax crime With insights from the EU funded project PROTAX which conducts advanced research on tax crimes the book comparatively analyses the EU's tax crime measures and the Ten Global Principles TGP's on fighting tax crime by the Organisation for Economic Cooperation and

Development OECD The study critically examines how the TGPs can serve as minimum standards for the EU to counter tax crime such as tax evasion and tax fraud The study also analyses how the anti tax avoidance package can be graduated to fight tax crime in the EU When escalated the strengths of the EU tax crime measures and TGPs can form a fortress in which criminal law can be empowered to mitigate tax crimes with greater effect The book will be particularly useful for end user stakeholders such as tax policy makers LEAs professional enablers as well as academics and students interested in productive interaction between tax criminal and administrative laws **E-Government Diffusion, Policy, and Impact:**

Advanced Issues and Practices Khosrow-Pour, D.B.A., Mehdi,2008-12-31 This book sheds light on how e government technologies are shaping today s knowledge society from the ground roots of the citizen experience to the supreme level of policy and decision making Provided by publisher *A Guide to the Anti-Tax Avoidance Directive* Werner

Haslehner,Katerina Pantazatou,Georg Kofler,Alexander Rust,2020-06-26 This book provides a concise practical guide to the European Union s Anti Tax Avoidance Directive ATAD Presenting unique insights into the ATAD s five specific anti avoidance rules its chapters explain the background of those rules the directive s interactions with relevant jurisprudence and the challenges posed to the ATAD s interpretation and implementation in domestic law *Tax Justice and Tax Law* Dominic de Cogan,Peter Harris,2020-11-12 Most people would agree that tax systems ought to be just and perhaps a great deal more just than they are at present What is more difficult is to agree on what tax justice is This book considers a range of different approaches to and ideas about the nature of tax justice and covers areas such as imbalances in international tax arrangements that deprive developing countries of revenues from natural resources and allow wealthy taxpayers to use tax havens protests against governments and large business attempts to influence policy through more technical means such as the OECD s Base Erosion and Profits Shifting project interpersonal matters such as the ways in which tax systems disadvantage women and minorities the application of wider philosophical or economic theories to tax systems The purpose of the book is not to iron out these underlying differences into a grand theory but rather to gain a more precise understanding of how and why we disagree about tax justice In doing so the editors are assisted by a stellar cast of contributors from four continents with a wide variety of views and experiences but a common interest in this central question of how to agree and disagree about tax justice This is of course not only an intellectual exercise but also a necessary precursor to achieving real world change **Advanced Topics in Information Resources Management, Volume 2**
