One Caribbean Issues With Caribbean Integration And Development:

Rethinking Free Trade, Economic Integration and Human Rights in the Americas María Belén Olmos Giupponi, 2017-01-26 This monograph offers the first systematic overview of the protection of human rights in trade agreements in the Americas. Traditionally trade agreements in the Americas were concerned with economic questions and paid little attention to human rights. However, in the wake of the new regionalism which emerged at the end of the last century, more clauses addressing social issues such as labour rights and environmental standards were inserted in trade agreements. As economic integration increased, a framework for the protection of human rights evolved. This book argues that this framework allows for human rights protection on a transnational level while constructing regional identities. Looking at the four key regional integration processes namely the Caribbean Community, the Central American Integration System, the Andean Community of Nations and the Southern Common Market, and also at the North American Free Trade Agreement, it shows how the integration process has reached a considerable degree of consolidation. Writing on key sources in English for the first time, this book will be essential reading for all free trade and human rights scholars. CARICOM Report No. 1

Several contributions allow the reader to familiarise themselves with the general subject matter, others scrutinise the particular issues Small States face when confronted with an international dispute and discuss new and innovative solutions. These solutions range from inventive ideas to help economic growth to appropriate mechanisms of dispute resolution including inter State dispute resolution and specific areas of arbitration such as tax arbitration.
