*Foretelling the End of Capitalism* Francesco Boldizzoni, 2020-05-12 Intellectuals since the Industrial Revolution have been obsessed with whether when and why capitalism will collapse This riveting account of two centuries of failed forecasts of doom reveals the key to capitalism s durability Prophecies about the end of capitalism are as old as capitalism itself None have come true Yet whether out of hope or fear we keep looking for harbingers of doom In *Foretelling the End of Capitalism* Francesco Boldizzoni gets to the root of the human need to imagine a different and better world and offers a compelling solution to the puzzle of why capitalism has been able to survive so many shocks and setbacks Capitalism entered the twenty first century triumphant its communist rival consigned to the past But the Great Recession and worsening inequality have undermined faith in its stability and revived questions about its long term prospects Is capitalism

on its way out If so what might replace it And if it does endure how will it cope with future social and environmental crises and the inevitable costs of creative destruction Boldizzoni shows that these and other questions have stood at the heart of much analysis and speculation from the early socialists and Karl Marx to the Occupy Movement Capitalism has survived predictions of its demise not as many think because of its economic efficiency or any intrinsic virtues of markets but because it is ingrained in the hierarchical and individualistic structure of modern Western societies Foretelling the End of Capitalism takes us on a fascinating journey through two centuries of unfulfilled prophecies An intellectual tour de force and a plea for political action it will change our understanding of the economic system that determines the fabric of our lives

**Adsensory Urban Ecology (Volume Two)** Pamela Odih, 2019-03-14 Adsensory sign technology which depicts the human body as both object and subject of inscriptive advertising technologies is integral to a western capitalist insurantal financialisation of health and wellbeing Developing further the theme of adsensory technologies of the sign in conjunction with Daniel Bell's theory of the codification of knowledge as an axial feature of the structuring of post industrial society this book explores gentrification in heterotopic post industrial urban spaces It brings together case studies from the City of Bath's decommissioned Bath Press print works London's Trafalgar Square busking community and its dialectics of audio sensory gentrification and London's Brick Lane and its gentrification of street art These studies illustrate empirically the extent to which advertising adsensory technologies have become integral to the gentrification of post industrial urban spaces Several of the case studies engage critically with the empirical observation that in the post industrial urban ecology of inner city regeneration adsensory technologies extend avariciously into the infrastructure of neoliberal managerialist gentrification In addition the book explores the forms of capital accumulation which are emerging from the integration of adsensory technology into the gentrification of post industrial urban spaces and examines a new form of capital accumulation in inner city gentrification predicated on the degenerative integrity of adsensory financialisation

**Art, Alienation, and the Humanities** Charles Reitz, 2000-02-03 Winner of the 2002 American Educational Studies Association's Critics Choice Award By examining the aesthetic social and educational philosophy of Herbert Marcuse the author documents and demonstrates the structure and movement of Marcuse's thought on art alienation and the humanities Reitz's work stresses the centrality of Marcuse's argument that the arts and humanities may act as disalienating educational forces

Ideological Fixation Azar Gat, 2022 After theorists around 1960 proclaimed the death of ideology ideological divides and clashes have reemerged with renewed intensity throughout the world including in the liberal democracies In the United States they have become particularly venomous The other side is widely viewed as malicious irrational or downright stupid and often as barely legitimate The zeal of the opposing sides is often scarcely less than that which characterized the religious ideologies of old Indeed historical religious ideologies have largely been replaced by secular religions or religion substitutes The book is not another survey of past and present ideologies It is an attempt to understand the cognitive emotional and social roots of

ideology and ideological fixation It combines insights from evolutionary psychology regarding the nature of some of our deepest proclivities with a broad sweep through history      **Karl Marx's Life, Ideas, and Influences** Shaibal

Gupta, Marcello Musto, Babak Amini, 2019-09-28 Since the latest crisis of capitalism broke out in 2008 Marx has been back in fashion and sometimes it seems that his ideas have never been as topical or as commanding of respect and interest as they are today This edited collection arises from one of the largest international conferences dedicated to the bicentenary of Marx's birth The volume contains 16 chapters authored by globally renowned scholars and is divided into two parts I On the Critique of Politics II On the Critique of Political Economy These contributions from multiple academic disciplines offer diverse perspectives on why Marx is still so relevant for our times and make this book a source of great appeal for both expert scholars of Marx as well as students and general readers who are approaching his theories for the first time
