One True God Historical Consequences Of Monotheism

Susan Emanuel, Guy G. Stroumsa

One True God Historical Consequences Of Monotheism:

One True God Rodney Stark,2001 *Between Philosophy and Religion, Vol. II* Brayton Polka,2007-02-01 In *Between Philosophy and Religion* Volumes I and II Brayton Polka examines Spinoza's three major works on religion politics and ethics in order to show that his thought is at once biblical and modern Indeed Polka argues that Spinoza is biblical only insofar as he is understood to be one of the great philosophers of modernity and that he is modern only when it is understood that he is unique in making the interpretation of the Bible central to philosophy and philosophy central to the interpretation of the Bible This book and its companion volume are essential reading for any scholar of Spinoza The End of Sacrifice Susan Emanuel,Guy G. Stroumsa,2011-08-22 The religious transformations that marked late antiquity represent an enigma that has challenged some of the West's greatest thinkers But according to Guy Stroumsa the oppositions between paganism and Christianity that characterize prevailing theories have endured for too long Instead of describing this epochal change as an evolution within **The Victory of Reason** Rodney Stark,2007-12-18 Many books have been written about the success of the West analyzing why Europe was able to pull ahead of the rest of the world by the end of the Middle Ages The most common explanations cite the West's superior geography commerce and technology Completely overlooked is the fact that faith in reason rooted in Christianity's commitment to rational theology made all these developments possible Simply put the conventional wisdom that Western success depended upon overcoming religious barriers to progress is utter nonsense In *The Victory of Reason* Rodney Stark advances a revolutionary controversial and long overdue idea that Christianity and its related institutions are in fact directly responsible for the most significant intellectual political scientific and economic breakthroughs of the past millennium In Stark's view what has propelled the West is not the tension between secular and nonsecular society nor the pitting of science and the humanities against religious belief Christian theology Stark asserts is the very font of reason While the world's other great belief systems emphasized mystery obedience or introspection Christianity alone embraced logic and reason as the path toward enlightenment freedom and progress That is what made all the difference In explaining the West's dominance Stark convincingly debunks long accepted truths For instance by contending that capitalism thrived centuries before there was a Protestant work ethic or even Protestants he counters the notion that the Protestant work ethic was responsible for kicking capitalism into overdrive In the fifth century Stark notes Saint Augustine celebrated theological and material progress and the institution of exuberant invention By contrast long before Augustine Aristotle had condemned commercial trade as inconsistent with human virtue which helps further underscore that Augustine's times were not the Dark Ages but the incubator for the West's future glories This is a sweeping multifaceted survey that takes readers from the Old World to the New from the past to the present overturning along the way not only centuries of prejudiced scholarship but the antireligious bias of our own time *The Victory of Reason* proves that what we most admire about our world scientific progress democratic rule free commerce is largely due to Christianity through

which we are all inheritors of this grand tradition *Religious Involvement in Hearing Sermons* Theo Pleizier, 2010

Transcendence and Violence John D'Arcy May, 2003-06-19 The first two parts of this book present four detailed historical studies filled with Geertzian thick description of the encounters of Christianity and Buddhism universal religions with a high quotient of transcendence with various primal religious traditions biocosmic or immanentist of the Asian Pacific region namely Aboriginal Australia and Melanesia Christianity and Sri Lanka and Japan Buddhism In each case the encounters represented a failure of the great traditions In the third constructive and theological part of the book the author shows how an acknowledgment of these failures may provide a back door to dialogue **The Physics of Christianity** Frank J. Tipler, 2008-08-19 A highly respected physicist demonstrates that the essential beliefs of Christianity are wholly consistent with the laws of physics Frank Tipler takes an exciting new approach to the age old dispute about the relationship between science and religion in *The Physics of Christianity* In reviewing centuries of writings and discussions Tipler realized that in all the debate about science versus religion there was no serious scientific research into central Christian claims and beliefs So Tipler embarked on just such a scientific inquiry *The Physics of Christianity* presents the fascinating results of his pioneering study Tipler begins by outlining the basic concepts of physics for the lay reader and brings to light the underlying connections between physics and theology In a compelling example he illustrates how the God depicted by Jews and Christians the Uncaused First Cause is completely consistent with the Cosmological Singularity an entity whose existence is required by physical law His discussion of the scientific possibility of miracles provides an impressive credible scientific foundation for many of Christianity's most astonishing claims including the Virgin Birth the Resurrection and the Incarnation He even includes specific outlines for practical experiments that can help prove the validity of the miracles at the heart of Christianity Tipler's thoroughly rational approach and fully accessible style sets *The Physics of Christianity* apart from other books dealing with conflicts between science and religion It will appeal not only to Christian readers but also to anyone interested in an issue that triggers heated and divisive intellectual and cultural debates *Research in the Social Scientific Study of Religion, Volume 16* Ralph L. Piedmont, 2005-12-01 *Research in the Social Scientific Study of Religion* RSSR publishes reports of innovative studies that pertain empirically or theoretically to the scientific study of religion including spirituality regardless of their academic discipline or professional orientation The articles included in this volume report studies on the role of religion and spirituality in relationship to many topics of current popular interest among them well being self esteem emotional intelligence substance abuse social mobility positive psychology coping with medical decision making and images of God **Civil Courage** Naomi Kramer, 2007 If we are responsible educators the causes of the Holocaust must be addressed in order to prevent future genocide Contemporary Jewish Identity Emanuele Ottolenghi and Mark Weitzman examine contemporary antisemitism in Europe and North America respectively Michael Pollan reflects upon Jewish identity from the unique perspective of a young Jew who worked as a civil servant for the Austrian government in a

program designed to acknowledge Austria's role as a perpetrator of the Shoah. Testimony Firsthand testimony will soon be available only in memoirs or recorded oral histories. In the future, second and subsequent generations must speak as witnesses. Sheldon Schreter, a grandchild of Holocaust victims, describes a visit with his four sons to Sighet, Romania, his parents' birthplace, and struggles with the question of Why? The prevention of genocide is in large measure dependent upon the good will and intervention of citizens living in modern cultures.

Studying Religion Russell T. McCutcheon, 2014-12-05 Widely used as a primer, a text, and a provocation to critical thinking, *Studying Religion* aims to develop students' skills. The book clearly explains the methods and theories employed in the study of religion. Essays are offered on a range of topics from the history and functions of religion to public discourse on religion and the classification of religions. The works of key scholars from Karl Marx, Ludwig Wittgenstein, and Rudolf Otto to Mircea Eliade, James G. Frazer, and Sigmund Freud are analysed and explored. *Studying Religion* represents a shift away from the traditional focus of describing the exotic or curious religious Other to an examination of how religious behaviours and institutions are studied. The book will be invaluable to students of religious studies.

Violence in Islamic Thought from the Qur'an to the Mongols Robert Gleave, 2015-04-14 This volume brings together some of the leading researchers on early Islamic history and thought to study the legitimacy of violence.

The Evangelical Dictionary of World Religions H. Wayne House, 2019-02-19 With all of the different religions, sects, denominations, and belief systems out there, it can be difficult to separate the facts from mere opinion, especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or political slant to them. How can we truly understand if we cannot even be sure we are getting the facts straight? In this comprehensive resource, more than 75 evangelical scholars offer a thoroughly researched guide to Christianity, other world religions, and alternative religious views, including entries on movements, theological terms, and major historical figures. Perfect for pastors, students, and anyone who wants ready access to information on today's religious landscape.

Bearing False Witness Rodney Stark, 2016-04-26 As we all know, and as many of our well-established textbooks have argued for decades, the Inquisition was one of the most frightening and bloody chapters in Western history. Pope Pius XII was anti-Semitic and rightfully called Hitler's Pope. The Dark Ages were stunting the progress of knowledge to be redeemed only by the secular spirit of the Enlightenment. The religious Crusades were an early example of the rapacious Western thirst for riches and power. But what if these long-held beliefs were all wrong? In this stunning, powerful, and ultimately persuasive book, Rodney Stark, one of the most highly regarded sociologists of religion and bestselling author of *The Rise of Christianity* (HarperSanFrancisco, 1997), argues that some of our most firmly held ideas about history—ideas that paint the Catholic Church in the least favorable light—are in fact fiction. Why have we held these wrongheaded ideas so firmly and for so long? And if our beliefs are wrong, what is the truth? In each chapter, Stark takes on a well-established anti-Catholic myth, gives a fascinating history of how each myth became conventional wisdom, and presents a startling picture of the real

truth For example instead of the Spanish Inquisition being an anomaly of torture and murder of innocent people persecuted for imaginary crimes such as witchcraft and blasphemy Stark argues that not only did the Spanish Inquisition spill very little blood but it was a major force in support of moderation and justice Stark dispels the myth of Pope Pius XII being apathetic or even helpful to the Nazi movement such as to merit the title Hitler s Pope and instead shows that the campaign to link Pope Pius XII to Hitler was initiated by the Soviet Union presumably in hopes of neutralizing the Vatican in post World War II affairs Many praised Pope Pius XII s vigorous and devoted efforts to saving Jewish lives during the war Instead of understanding the Dark Ages as a millennium of ignorance and backwardness inspired by the Catholic Church s power Stark argues that the whole notion of the Dark Ages was an act of pride perpetuated by anti religious intellectuals who were determined to claim that theirs was the era of Enlightenment In the end readers of Bearing False Witness will have a more accurate history of the Catholic Church and will also understand why it became unfairly maligned for so long Bearing False Witness is a compelling and sobering account of how egotism and ideology often work together to give us a false truth

Reformed Theology Michael Allen,2010-07-01 This book introduces Reformed theology by surveying the doctrinal concerns that have shaped its historical development The book sketches the diversity of the Reformed tradition through the past five centuries even as it highlights the continuity with regard to certain theological emphases In so doing it accentuates that Reformed theology is marked by both formal the always reforming church and material the Reformed church interests Furthermore it attends to both revisionary and conservative trends within the Reformed tradition The book covers eight major theological themes Word of God covenant God and Christ sin and grace faith worship confessions and authority and culture and eschatology It engages a variety of Reformed confessional writings as well as a number of individual theologians including Zwingli Calvin Bullinger Bucer Beza Owen Turretin Edwards Schleiermacher Hodge Shedd Heppe Bavinck Barth and Niebuhr

International Review Of Biblical Studies 2003-2004 Bernhard Lang,2005-01-01 Formerly known by its subtitle Internationale Zeitschriftenschau fur Bibelwissenschaft und Grenzgebiete the International Review of Biblical Studies has served the scholarly community ever since its inception in the early 1950 s Each annual volume includes approximately 2 000 abstracts and summaries of articles and books that deal with the Bible and related literature including the Dead Sea Scrolls Pseudepigrapha Non canonical gospels and ancient Near Eastern writings The abstracts which may be in English German or French are arranged thematically under headings such as e g Genesis Matthew Greek language text and textual criticism exegetical methods and approaches biblical theology social and religious institutions biblical personalities history of Israel and early Judaism and so on The articles and books that are abstracted and reviewed are collected annually by an international team of collaborators from over 300 of the most important periodicals and book series in the fields covered

WORLD HISTORY, JOURNEYS Candice Goucher,Linda Walton,2013-09-13 Using a thematic approach this innovative textbook explores the history of the world from its earliest prehistory to the present age of

globalization *The SAGE Encyclopedia of the Sociology of Religion* Adam Possamai,Anthony J. Blasi,2020-02-14 The SAGE Encyclopedia of the Sociology of Religion takes a three pronged look at this namely investigating the role of religion in society unpacking and evaluating the significance of religion in and on human history and tracing and outlining the social forces and influences that shape religion This encyclopedia covers a range of themes from fundamental topics like definitions secularization dimensions of religiosity to such emerging issues as civil religion new religious movements This Encyclopedia also addresses contemporary dilemmas such as fundamentalism and extremism and the role of gender in religion **The Doctrine of Creation** Bruce Riley Ashford,Craig G. Bartholomew,2020-11-10 According to Bruce Ashford and Craig Bartholomew one of the best sources for regaining a robust biblical doctrine of creation is the recovery of Dutch neo Calvinism Tracing historical treatments and exploring theological themes Ashford and Bartholomew develop the Kuyperian tradition s rich resources on creation for systematic theology and the life of the church today *Research in the Social Scientific Study of Religion* Ralph L. Piedmont,2007 Research in the Social Scientific Study of Religion RSSSR publishes reports of innovative studies that pertain empirically or theoretically to the scientific study of religion including spirituality regardless of their academic discipline or professional orientation RSSSR is published annually with the kind support of Loyola College Maryland USA This volume of RSSSR contains several articles on spiritual development among adolescents spiritual transcendence Jung and pastoral counseling and spirituality and religiosity In addition to this a special section of nine articles is devoted to several aspects of positive psychology and its usage in practice **The Incarnate Christ and His Critics** Robert M. Bowman Jr.,J. Ed Komoszewski ,2024-11-12 A current comprehensive and clear defense of the deity of Christ The central theological claim of Christianity that Jesus is God incarnate finds eager detractors across a wide spectrum from scholars who interpret Jesus as a prophet angel or guru to adherents of progressive Christianity and non Christian religions and philosophies Yet thorough biblical scholarship strongly supports the historic Christian teaching on the deity of Christ Authors Robert M Bowman Jr and J Ed Komoszewski follow the approach of their landmark 2007 study on the same topic Putting Jesus in His Place They focus on five pillars of New Testament teaching using the acronym HANDS and demonstrate what both Jesus and the earliest believers recognized namely that Jesus shares in the Honors that are due God Attributes of God Names of God Deeds that God does Seat of God s eternal throne The Incarnate Christ and His Critics engages objections to the divine identity of Jesus from Jehovah s Witnesses Mormons progressive Christians Muslims Unitarians and others Bowman and Komoszewski show how biblical scholarship cannot reasonably ignore the enduring wide ranging and positive case for the deity of Christ

Delve into the emotional tapestry woven by Crafted by in Experience **One True God Historical Consequences Of Monotheism** .
