Simplifying Religion Ed Galisewski,2021-05-01 Will Religion Survive Should It It s no secret that younger generations are leaving organized religion in large numbers Their exodus speaks loud and clear to the fact that there is a generational divide today that spans all faith groups Not many people have wanted to tackle this issue because of its difficult often touchy subject matter but that didn t stop author Ed Galisewski from jumping in with both feet

He reached out to those walking away and bluntly asked them why And thankfully they bluntly answered him Simplifying Religion covers six of the most divisive issues uncovered by these conversations that drive the conflict between Boomers and Millennials and fuel the exodus from religion Simplifying Religion is for all generations from Boomers to Gen Zs Ed hopes to bring the generations back together by finding common ground through honest dialogue and good will Please be a part of the solution Read this book talk about it and pass it on to those in your religious circle especially those who are struggling to stay engaged in their current spiritual community or those who are finding themselves increasingly alienated from a family member

On the World and Ourselves Zygmunt Bauman,Stanislaw Obirek,2015-09-14 Unde malum from where does evil come That is the question that has plagued humankind ever since Eve seduced by the serpent tempted Adam to taste the forbidden fruit of the tree of knowledge of good and evil Throughout history the awareness of good and evil has always been linked to the awareness of choice and to the freedom and responsibility to choose this is what makes us human But the responsibility to choose is a burden that weighs heavily on our shoulders and the temptation to hand this over to someone else be they a demagogue or a scientist who claims to trace everything back to our genes is a tempting illusion like the paradise in which humans have at last been relieved of the moral responsibility for their actions In the second series of their conversations Zygmunt Bauman and Stanislaw Obirek reflect on the life challenges confronted by the denizens of the fragmented individualized society of consumers and the form taken in such a society by the fundamental aspects of the human condition such as human responsibility for the choice between good and evil self formation and self assertion the need for recognition or the call to empathy mutual respect human dignity and tolerance Hope for a Global Ethic Brian D. Lepard,2005 In a groundbreaking book that calls on the world s religions to look at what they have in common author and scholar Brian Lepard offers hope to a world community that has become dangerously fractionalized by economic social religious and political differences In Hope for a Global Ethic Lepard cogently argues that different societies have much more in common than they might otherwise think beginning with a profound historic and lasting belief in religion and that our fearful and often suspicious view of other people may be overcome by exploring what is shared in these religions Hope for a Global Ethic moves significantly beyond ideology to discuss the values that all people have shared through the faiths of the world It is these values that offer hope in our fearful disordered and terrorized world Parliamentary Debates New Zealand. Parliament,1926 Planetary Sociology Harry F. Dahms,2023-05-05 Including contributions from senior scholars in the field who do not rely on the paradigm of planetary Sociology this volume of Current Perspectives in Social Theory illustrates the importance of scrutinizing links between individual identity and social structure without employing the paradigm of planetary sociology **Religious Othering** Mark Juergensmeyer,Kathleen Moore,Dominic Sachsenmaier,2022-09-19 Perhaps the most disturbing feature of globalization is the emergence of a new tribalism an attitude expressed in the common phrase thank God we re not like them Religious Othering Global Dimensions explores this
