Free the Land Edward Onaci, 2020-04-17 On March 31 1968 over 500 Black nationalists convened in Detroit to begin the process of securing independence from the United States Many concluded that Black Americans best remaining hope for liberation was the creation of a sovereign nation state the Republic of New Afrika RNA New Afrikan citizens traced boundaries that encompassed a large portion of the South including South Carolina Georgia Alabama Mississippi and Louisiana as part of their demand for reparation As champions of these goals they framed their struggle as one that would allow the descendants of enslaved people to choose freely whether they should be citizens of the United States New Afrikans also argued for financial restitution for the enslavement and subsequent inhumane treatment of Black Americans The struggle to Free the Land remains active to this day This book is the first to tell the full history of the RNA and the New Afrikan Independence Movement Edward Onaci shows how New Afrikans remade their lifestyles and daily activities to create a self consciously revolutionary culture and argues that the RNA s tactics and ideology were essential to the evolution of Black political struggles Onaci expands the story of Black Power politics shedding new light on the long term legacies of mid century Black Nationalism *Critical Race Theory in the Academy* Vernon Lee Farmer, Evelyn Shepherd W.

The Transition Daniel Kiel, 2023-04-04 Every Supreme Court transition presents an opportunity for a shift in the balance of the third branch of American government but the replacement of Thurgood Marshall with Clarence Thomas in 1991 proved

particularly momentous Not only did it shift the ideological balance on the Court it was inextricably entangled with the persistent American dilemma of race In *The Transition* this most significant transition is explored through the lives and writings of the first two African American justices on Court touching on the lasting consequences for understandings of American citizenship as well as the central currents of Black political thought over the past century In their lives Thurgood Marshall and Clarence Thomas experienced the challenge of living and learning in a world that had enslaved their relatives and that continued to subjugate members of their racial group On the Court their judicial writings often in concurrences or dissents richly illustrate the ways in which these two individuals embodied these crucial American and African American debates on the balance between state and federal authority on the government's responsibility to protect its citizens against discrimination and on the best strategies for pursuing justice The gap between Justices Marshall and Thomas on these questions cannot be overstated and it reveals an extraordinary range of thought that has yet to be fully appreciated The 1991 transition from Justice Marshall to Justice Thomas has had consequences that are still unfolding at the Court and in society Arguing that the importance of this transition has been obscured by the relegation of these Justices to the sidelines of Supreme Court history Daniel Kiel shows that it is their unique perspective as Black justices the lives they have lived as African Americans and the rooting of their judicial philosophies in the relationship of government to African Americans that makes this succession echo across generations

Neocolonial Fictions of the Global Cold War Steven Belletto, Joseph Keith, 2019-06-03 Bringing together noted scholars in the fields of literary cultural gender and race studies this edited volume challenges us to reconsider our understanding of the Cold War revealing it to be a global phenomenon rather than just a binary conflict between U S and Soviet forces Shining a spotlight on writers from the war's numerous fronts and applying lenses of race gender and decolonization the essayists present several new angles from which to view the tense global showdown that lasted roughly a

half century Ultimately they reframe the Cold War not merely as a divide between the Soviet Union and the United States but between nations rich and poor and mostly white and mostly not By emphasizing the global dimensions of the Cold War this innovative collection reveals emergent forms of post WWII empire that continue to shape our world today thereby raising the question of whether the Cold War has ever fully ended

Schools of Our Own Worth Kamili Hayes, 2019-12-15 Winner 2020 American Educational Studies Association Critics Choice Award As battles over school desegregation helped define a generation of civil rights activism in the United States a less heralded yet equally important movement emerged in Chicago Following World War II an unprecedented number of African Americans looked beyond the issue of racial integration by creating their own schools This golden age of private education gave African Americans unparalleled autonomy to avoid discriminatory public schools and to teach their children in the best ways they saw fit In Schools of Our Own Worth Kamili Hayes recounts how a diverse contingent of educators nuns and political activists embraced institution building as the most effective means to attain quality education Schools of Our Own makes a fascinating addition to scholarly debates about education segregation African American history and Chicago still relevant in contemporary discussions about the fate of American public schooling

In a Classroom of Their Own Keisha Lindsay, 2018-07-02 Many advocates of all black male schools ABMSs argue that these institutions counter black boys racist emasculation in white overly female classrooms This argument challenges racism and perpetuates antifeminism Keisha Lindsay explains the complex politics of ABMSs by situating these schools within broader efforts at neoliberal education reform and within specific conversations about both endangered black males and a boy crisis in education Lindsay also demonstrates that intersectionality long considered feminist is in fact a politically fluid framework As such it represents a potent tool for advancing many political agendas including those of ABMSs supporters who champion antiracist education for black boys while obscuring black girls own race and gender based oppression in school Finally Lindsay theorizes a particular means by which black men and other groups can form antiracist and feminist coalitions even when they make claims about their experiences that threaten bridge building The way forward Lindsay shows allows disadvantaged groups to navigate the racial and gendered politics that divide them in pursuit of productive and progressive solutions Far thinking and boldly argued **In a Classroom of Their Own** explores the dilemmas faced by professionals and parents in search of equitable schooling for all students black boys and otherwise

Racism in American Public Life Johnnetta Betsch Cole, 2021-02-16 For some in our society diversity is a threat Others feel society should be more inclusive if only out of fairness But as Johnnetta Cole argues in her new book embracing diversity and inclusiveness is more than a virtuous ideal it is essential to a healthy productive society Focusing on higher education and other arenas of cultural development Cole explores our institutions vulnerability to the influence of racism and the wider implications for American society At the core of Cole s argument is the belief that increasing the representation of historically marginalized groups on college campuses and in museums media and other institutions is like the liberal arts vitally important to social progress Accompanying Cole s urgent calls to implement social change are vividly rendered experiences from her own remarkable life Cole issues a challenge for courageous conversations about race and racism and places unique responsibility and accountability on institutions of higher education in leading these conversations

W. E. B. Du Bois' Africa Taharka Ade, 2023-08-15 W E B Du Bois was one of the leading figures of Pan African

thought and activism in the twentieth century As a sociologist Du Bois wrote much about the historical and social circumstances of African Americans while often acknowledging the African historical background of much of African American or Negro culture In 1946 Du Bois published *The World and Africa* which was a culmination of previous attempts at penning a narrative of African history beginning with his 1915 publication *The Negro* in which he included the social historical experience of African Americans within the continuity of African history This book delivers for the first time a comprehensive Afrocentric investigation and critique of Du Bois's writings on African history It argues that while Du Bois presented at the time a strong critique of the Eurocentric construction of African history many of Du Bois's descriptions and arguments about African people and history were likewise flawed with interpretations that projected the cultural subjectivities of Europe Further while Du Bois rightfully presents the historical relationship between African Americans and Africa as a justification for Pan African activism this book contends that Du Bois's failure to center African culture instead of race leads to superficial justifications for Pan African unity

The Souls of Black Folk by W.E.B. Du Bois Patricia H. Hinchey, 2018-05-02 W E B Du Bois's seminal work *The Souls of Black Folk* not only captures the experience of African Americans in the years following the Civil War but also speaks to contemporary conditions At a time when American public schools are increasingly re-segregating are increasingly underfunded and are perhaps nearly as separate and unequal as they were in earlier decades this classic can help readers grasp links between a slavery past and a dismal present for too many young people of color Disagreeing with Booker T Washington Du Bois analyzes the restrictiveness of education as a simple tool to prepare for work in pursuit of wealth a trend still very much alive and well especially in schools serving economically disadvantaged students He also however demonstrates the challenges racism presents to individuals who embrace education as a tool for liberation Du Bois's accounts of how racism affected specific individuals allow readers to see philosophical issues in human terms It can also help them think deeply about what kind of moral social educational and economic changes are necessary to provide all of America's young people the equal opportunity promised to them inside and outside of schools Perfect for courses in Social Foundations of Education Political and Social Foundations of Education Foundations of American Education Foundations of Education Introduction to Education Theory and Policy Philosophy and Education History of American Education and African American Education
