Online Book Deep State Constitution Shadow Government:

The Deep State Mike Lofgren, 2016 The U S spends ten times more on the political circus leading up to elections than any other country but what are they getting for all of that money The truth as Mike Lofgren reveals in this devastating takedown of beltway business is that U S elected leaders provide a fig leaf for those who really hold the levers of power the unelected functionaries of ever growing bureaucracies who decide America s defence intelligence and foreign policy and the corporate titans who control them A shocking expose from someone who spend 3 decades in congress [The Deep State](#) Rita Santos, 2018-07-15 It used to be that deep state was a shadowy term used to describe developing nations whose governments operated outside of democratically elected leaders The term has evolved and has been applied to transparent countries such as the United States What is the deep state and how does it apply to the United States and other democratic governments This fascinating and informative volume presents a variety of perspectives that helps readers to decide whether a deep state is something to fear or simply a conspiracy theory *Oil's Deep State* Taft, Kevin, 2017-10-06 Why have democratic governments failed to take serious steps to reduce carbon emissions despite dire warnings and compelling evidence of the profound and growing threat posed by global warming Most of the writing on global warming is by scientists academics environmentalists and journalists Kevin Taft a former leader of the opposition in Alberta brings a fresh perspective through the insight he gained as an elected politician who had an insider s eyewitness view of the role of the oil industry His answer in brief The oil industry has captured key democratic institutions in both Alberta and Ottawa Taft begins his book with a perceptive observer s account of a recent court case in Ottawa which laid bare the tactics and techniques of the industry its insiders and lobbyists He casts dramatic new light on exactly how corporate lobbyists politicians bureaucrats universities and other organizations are working together to pursue the oil industry s agenda He offers a brisk tour of the recent work of scholars who have developed the concepts of the deep state and institutional capture to understand how one rich industry can override the public interest Taft views global warming and weakened democracy as two symptoms of the same problem the loss of democratic institutions to corporate influence and control He sees citizen engagement and direct action by the public as the only response that can unravel big oil s deep state [Twilight of the Shadow Government](#) Kevin Shipp, Kent Heckenlively, 2024-10-15 In this groundbreaking book Kevin Shipp a veteran CIA agent who worked with all four Directorates of the agency including protecting the head of the CIA provides his perspective on how the agency has strayed so far from its original mission to provide accurate intelligence to the American president You will learn about the founding of the Agency how the intelligence agencies have manipulated journalists through Project Mockingbird as well as their new efforts with the Center for Global Engagement and Big Tech interference Shipp will also give you his up close and personal assessment of how the directors of the agency have contributed to our safety or undermined it Shipp and Heckenlively detail how the CIA has blocked whistleblowers and the reforms they champion while also controlling our country through secret

alliances with large corporations Wall Street Big Media the drug trade and blackmail of our political leaders Shipp provides his own history with the Agency both the good and bad including the Agency's attempt to ruin his career and life when he turned whistleblower Perhaps most striking of all Shipp lays out his plan for a dramatic overhaul of the Agency likely to win wide approval from other sectors of the intelligence community restoring the freedom of our country while also keeping us safe from our adversaries

The Hidden History of Coined Words Ralph Keyes, 2021 Written by one of the country's most experienced and entertaining etymological detectives *The Hidden History of Coined Words* provides a delightful excavation into the process by which words became minted Not only does Ralph Keyes give us the who what where of it all but delights in stories that reveal the mysteries of successful coinage

Intelligence Elites and Public Accountability Vian Bakir, 2018-04-17 This book provides a definitive overview of the relationships of influence between civil society and intelligence elites The secrecy surrounding intelligence means that publication of intelligence is highly restricted barring occasional whistle blowing and sanitised official leaks These characteristics mean that intelligence if publicised can be highly manipulated by intelligence elites while civil society's ability to assess and verify claims is compromised by absence of independent evidence There are few studies on the relationship between civil society and intelligence elites which makes it hard to form robust assessments or practical recommendations regarding public oversight of intelligence elites Addressing that lacuna this book analyses two case studies of global political significance The intelligence practices they focus on contemporary mass surveillance and Bush era torture intelligence policies have been presented as vital in fighting the Global War on Terror enmeshing governments of scores of nation states while challenging internationally established human rights to privacy and to freedom from torture and enforced disappearance The book aims to synthesise what is known on relationships of influence between civil society and intelligence elites It moves away from disciplinary silos to make original recommendations for how a variety of academic disciplines most likely to study the relationship between civil society and intelligence elites international relations history journalism and media could productively cross fertilise Finally it aims to create a practical benchmark to enable civil society to better hold intelligence elites publicly accountable This book will be of great interest to students of intelligence studies surveillance media journalism civil society democracy and IR in general

In Search of Monsters to Destroy Christopher J. Coyne, 2022-12-08 Imperialism and militarism build empires not liberalism So says

Christopher Coyne Senior Fellow at the Independent Institute and professor of economics at George Mason University in this eye opening must read book on America's recent foreign policy failures The attempt by the United States since 9/11 to establish liberal political regimes in the Middle East and in the mountains of Afghanistan was doomed to fail And the logic is simple illiberal means can lead only to illiberal ends What else are the hundreds of thousands of dead and mutilated civilians the US military left behind from 2003 to 2021 in these regions The destroyed ancient cultures and nearly obliterated nation states Coyne also points out that the illiberal perpetrators also can end up not only nearly bankrupt and humiliated but also profoundly less secure If we do not absorb these hard truths says Coyne the rest of the twenty first century will be a repeat of its bloodstained unstable beginning But Coyne is no isolationist A vocal champion of global engagement Coyne insists there are workable proven alternatives to imperialism militarism and empire ones deeply rooted in human experience that preserve freedom promote security and foster mutually enriching friendship among the nations of the earth Read *In Search of*

Breakthrough 2.0: Singaporeans Push For Parliamentary Democracy Derek Da Cunha, 2022-01-07 Some six decades of socialisation by the ruling People's Action Party PAP has ingrained in a majority of Singaporeans the instinct that it is not unusual to give up certain personal liberties for the greater good as long as the PAP State ensures the material well being of Singaporeans The general election of 2020 GE2020 during the COVID 19 pandemic put this social compact between the people and the State to the test Significant job losses wage cuts and an erosion of personal wealth due to measures to counter the pandemic cut substantially into the PAP popular vote nationally and resulted in an unprecedented 10 candidates from the opposition Workers Party WP being elected to Parliament GE2020 confirmed the trend from GE2011 when the WP

first made a breakthrough that Singaporeans will only accept a party in moderate opposition to the PAP This narrative differs markedly from conventional wisdom Breakthrough 2 0 explores the aforementioned phenomena The book analyses critically the issues surrounding parliamentary elections in Singapore It also focuses on issues not explored by many other observers namely voter psychology election processes and party branding A comparative analysis of election practices and processes in other jurisdictions is also employed to determine where parallels can or cannot be drawn with the situation in Singapore The author has had direct access to personalities across the political parties Consequently he utilises primary sources supported by evidence in sketching out backstories to events which exposes certain myths that were prevailing in social media in the months running up to GE2020 Authoritarianism Günter Frankenberg,2020-11-27 In this thought provoking book G nter Frankenberg explores why authoritarian leaders create new constitutions or revise old ones Through a profound analysis of authoritarian constitutions as phenomena in their own right Frankenberg reveals their purposes the audiences they seek to address and investigates the ways in which they fit into the broader context of autocracies

The New York Times In his widely acclaimed book *Time to Start Thinking* Financial Times columnist Edward Luce charted the course of America's economic and geopolitical decline proving to be a prescient voice on the state of the nation. In *The Retreat of Western Liberalism* Luce makes a larger statement about the weakening of western hegemony and the crisis of democratic liberalism of which Donald Trump and his European counterparts are not the cause but a symptom. Luce argues that we are on a menacing trajectory brought about by ignorance of what it took to build the West arrogance toward society's economic losers and complacency about our system's durability attitudes that have been emerging since the fall of the Berlin Wall. Unless the West can rekindle an economy that produces gains for the majority of its people its political liberties may be doomed. Combining on the ground reporting with economic analysis Luce offers a detailed projection of the consequences of the Trump administration and a forward thinking analysis of what those who believe in enlightenment values must do to protect them. *Homegrown Hate* Sara Kamali, 2022-04-19 Why are American citizens white nationalists and militant Islamists committing acts of terrorism against their own country? What are their worldviews and how do they compare? Why is the current counterterrorism paradigm not working and what can be done to address this increasingly transnational peril from within? *Homegrown Hate* is a groundbreaking and deeply researched work that directly juxtaposes militant Islamism and white nationalism in the United States. By examining the self-described grievances beliefs and rationales of the individuals who subscribe to these ideologies and detailing their respective organizational structures scholar and activist Sara Kamali provides compelling insight into the true threat to homeland security. American citizens who are targeting the United States in accordance with their respective narratives of holy war. She expertly explains what can be done lucidly providing hope in uncertain and divisive times. Innovative and engaging *Homegrown Hate* is an indispensable resource for students policy makers and anyone who cares about the future of the United States. *How Trump and the Christian Right Saved LGBTI Human Rights* Cynthia Burack, 2022-08-01 During the Obama administration Christian conservatives insisted that securing human rights for LGBTI people abroad diminished human rights protections for people of faith. During the 2016 presidential election the Christian right backed Donald Trump and demanded an end to sexual orientation and gender identity SOGI foreign policy. Did the Trump administration move to terminate US advocacy for SOGI human rights? Did Christian conservative US officials and elites do everything in their power to publicize curb defund and undermine US support for SOGI? If not spoiler alert they did not why not? Analyzing SOGI human rights and religious freedom foreign policy *How Trump and the Christian Right Saved*

LGBTI Human Rights reveals the indifference mendacity and political interests at play in Trump's alliance with Christian right elites
