The Maps of the Wilderness Bradley Gottfried, 2016-03-14 The Maps of the Wilderness An Atlas of the Wilderness Campaign May 2 7 1864 continues Bradley M Gottfried s efforts to study and illustrate the major campaigns of the Civil War s Eastern Theater This is his fifth book in the ongoing Savas Beatie Military Atlas Series The previous four were *The Maps of Gettysburg* 2007 *The Maps of First Bull Run* 2009 *The Maps of Antietam* 2012 and *The Maps of the Bristoe Station and Mine Run Campaigns* 2013 This latest magisterial work breaks down the entire campaign and all related operational maneuvers into 24 map sets or action sections enriched with 120 original full page color maps These spectacular cartographic creations bore down to the regimental and battery level The Maps of the Wilderness includes an assessment of the winter of 1863 1864 the planning for the campaign the crossing of the Rapidan River and two days of bloody combat and the day of watchful stalemate thereafter At least one and as many as eight maps accompany each action section Opposite each map is a full facing page of detailed footnoted text describing the units personalities movements and combat including quotes from eyewitnesses depicted on the accompanying map all of which make the story of the first large scale combat of 1864 come alive Each cartographic snapshot also serves to unlock everything ever written on the subject This detailed coverage also includes an order of battle interview with the author bibliography and an index This original presentation leads readers on a journey through the epic battle that would prove to be the opening salvo in a prolonged fight that would not end until the Confederates surrendered at Appomattox in April 1865 The Wilderness Campaign has two unique characteristics First although he did not command the Army of the Potomac the battle was Ulysses S Grant s first against General Robert E Lee Second the Wilderness fighting prolonged bloody and inconclusive is widely viewed as the most confusing action of the entire war The dense thickets and deep smoke obscured much of what occurred during the two days of combat Gottfried s book cuts through the confusion to deliver a clear account of the horrendous struggle Perfect for the easy chair or for walking hallowed ground The Maps of the Wilderness is a seminal work that like his earlier studies belongs on the bookshelf of every serious and casual student of the Civil War or in the hands of an avid enthusiast out walking the Hallowed Ground

The Maps of Spotsylvania Through Cold Harbor Bradley M. Gottfried, 2023-01-04 The Maps of Spotsylvania through Cold Harbor continues Bradley M Gottfried s efforts to study and illustrate the major campaigns of the Civil War s Eastern Theater This is the ninth book in the ongoing Savas Beatie Military Atlas Series After three years of bloody combat in Virginia President Abraham Lincoln promoted Ulysses S Grant to general in chief in early 1864 Grant immediately went to work planning a comprehensive strategy to bring an end to the war He hungered to remain with the

Western armies but realized his place was in Washington Unwilling to be stuck in an office Grant joined George Meade's Army of the Potomac His presence complicated Meade's ability to direct his army but Grant promised to stay out of his way and give only strategic directives This arrangement lasted through the Wilderness Campaign the first action in what is now referred to as the Overland Campaign This book continues the actions of both armies through the completion of the Overland Campaign After the Wilderness fighting the Army of the Potomac attempted to swing around the right flank of Gen Robert E Lee's Army of Northern Virginia and shoot straight for Richmond The Confederate capital was never the goal the move was intended to force Lee out into the open where the larger and well stocked Union army could destroy it The head of Lee's army blunted the enemy at Spotsylvania Court House where both sides dug in Days and men were wasted on fruitless attacks until Col Emory Upton designed an audacious strike that temporarily penetrated Lee's works A much larger offensive against the Mule Shoe two days later tore the line open destroyed a Rebel division and triggered a long day of fighting More fighting convinced Grant of the folly of further attempts to crush Lee at Spotsylvania and again he swung around the Rebel right flank The march ignited almost continuous fighting at the North Anna Bethesda Church and Cold Harbor where this volume ends This study includes the various cavalry actions including those at Spotsylvania Court House Yellow Tavern Haw's Tavern and Matadequin Creek The Maps of Spotsylvania through Cold Harbor breaks down the entire operation into thirty five map sets or action sections enriched with 134 detailed full page color maps These cartographic originals bore down to the regimental and battery level and include the march to and from the battlefields and virtually every significant event in between At least two and as many as ten maps accompany each map set Keyed to each piece of cartography is a full facing page of detailed footnoted text describing the units personalities movements and combat including quotes from eyewitnesses depicted on the accompanying map all of which make the Spotsylvania story come alive This unique presentation allows readers to easily and quickly find a map and text on any portion of the campaign from the march to Spotsylvania to Cold Harbor Serious students will appreciate the extensive and authoritative endnotes and complete order of battle Everyone will want to take the book along on trips to these battlefields Perfect for the easy chair or for stomping the hallowed ground The Maps of Spotsylvania through Cold Harbor is a seminal work that belongs on the bookshelf of every serious student of the battle First for the Union Darin Wipperman,2020-12-01 The Army of the Potomac's First Corps was one of the best corps in the entire Union army In September 1862 it was chosen to spearhead the Union attack at Antietam fighting Stonewall Jackson's men in the Cornfield and at the Dunker Church In July 1863 at Gettysburg its men were the first Union infantry to reach the battle where they relieved the cavalry and fought off the Confederate onslaught all day before retreating to Cemetery Hill Their valiant stand west of Gettysburg saved the Union from disaster that day but came at great cost 60 percent casualties The corps was disbanded the following spring having bled itself out of existence The First Corps leadership included two generals who would rise to command the Army of the Potomac Joseph Hooker and George Meade and a third who refused that

command John Reynolds often considered the best commander in the East until his death at Gettysburg. The corps was made up heavily of men from New York and Pennsylvania including the famous Bucktails with a handful of New England regiments and the Midwesterners of the Iron Brigade perhaps the Civil War's most famous Union brigade. Corps histories remain one of the last gaps in Civil War military history. Hundreds of regimental histories have been written since war's end; many brigades have been covered; the armies have been explored; but corps remain relatively overlooked not because they are an unimportant or unappealing subject but because mastering the subject is so difficult requiring knowledge of many commanders' careers, dozens of constituent units and many battles. Few are willing to tackle the subject. Lucky for us, Darin Wiperman has taken on the task and produced a monumental history of the Army of the Potomac's First Corps, well written and deftly told, an exciting story in itself and like all great unit histories, one that is representative of the many other corps in the Union army.

Burnside's Boys Darin Wiperman, 2023-04-01. Unique among Union army corps, the Ninth fought in both the Eastern and Western theaters of the Civil War. The corps veterans called their service a geography class and others have called the Ninth a wandering corps because it covered more ground than any corps in the Union armies. With the same attention to detail that he gave to the First Corps in *First for the Union*, Darin Wiperman vividly reconstructs life and death in the Ninth Corps. The roots of the Ninth Corps lay in the early 1862 coastal expeditions in the Carolinas under Ambrose Burnside. After this successful campaign, a master class in Civil War amphibious warfare that turned Burnside into a star, Burnside's units coalesced into a corps, part of which reinforced Pope's Army of Virginia at Second Bull Run during the summer of 1862. The Ninth fought with the Army of the Potomac in the Maryland campaign in September 1862, first at the Battle of South Mountain and then in its most famous action at Antietam where it suffered 25 percent casualties attempting to seize what became known as Burnside's Bridge. Three months later, the corps was lightly engaged at the Battle of Fredericksburg during which Burnside commanded the entire Army of the Potomac. After the disaster of Fredericksburg, the Ninth again under Burnside spent much of 1863 in the West with the Army of the Ohio performing occupation duty in Kentucky and then in Grant's campaign to take Vicksburg, Mississippi. It fought in Tennessee and helped take Knoxville before returning East, a shell of itself thanks largely to disease. Reorganized, the Ninth joined Grant's Overland Campaign in Virginia, fighting with horrifying losses at the Wilderness and Spotsylvania. It joined the siege of Petersburg, including the infamous Battle of the Crater in July 1864 and remained at Petersburg through the end of the war where it participated in the assault that broke the siege in April 1865, forcing Lee's army into retreat and final defeat at Appomattox. From the Carolinas to Maryland, from Kentucky, Mississippi, and Tennessee to Virginia, the Ninth Corps sacrificed for the Union and burnished its place in the annals of the American Civil War.

The Maps of the Bristoe Station and Mine Run Campaigns Bradley M. Gottfried, 2013-10-20. *The Maps of the Bristoe Station and Mine Run Campaigns* is the fifth installment in the Savas Beatie Military Atlas Series. Few historians have examined what happened to the Army of Northern

Virginia and the Army of the Potomac during the critical months following Gettysburg when both armies assumed the offensive in a pair of fascinating campaigns of thrust and counter thrust This careful study breaks down these campaigns and all related operational maneuvers into 13 map sets or action sections enriched with 87 original full page color maps These spectacular cartographic creations bore down to the regimental and battery level The Maps of the Bristoe Station and Mine Run Campaigns includes the actions at Auburn and Bristoe Station where Meade s II Corps was nearly trapped and destroyed and the Confederates were caught by surprise and slaughtered the seminal actions at Rappahannock Station and Kelly s Ford where portions of Lee s army were surprised and overwhelmed and the Mine Run Campaign during which an aggressive Confederate division at the battle of Payne s Farm held back two full Federal corps and changed the course of the entire operation At least one and as many as twelve maps accompany each action section Opposite each map is a full facing page of detailed text with footnotes describing the units personalities movements and combat including quotes from eyewitnesses depicted on the accompanying map all of which make the story of these campaigns come alive This original presentation offers readers a step by step examination through these long overlooked but highly instructive campaigns Coming on the heels of the fiasco that was Lee s Bristoe Station operation the stunning Union successes at Kelly s Ford and Rappahannock Station demonstrated the weakened state of Lee s Army of Northern Virginia following the debilitating Gettysburg campaign The Mine Run Operation that followed with its extensive display of field works and trenches foreshadowed the bloody fighting that would arrive with the spring weather of 1864 and highlighted once again Meade s methodical approach to battlefield operations that left the authorities in Washington wondering whether he possessed the tenacity to defeat Lee This detailed coverage is augmented with fascinating explanatory notes Detailed orders of battle together with a bibliography and index complete this exciting new volume Perfect for the easy chair or for walking hallowed ground The Maps of the Bristoe Station and Mine Run Campaigns is a seminal work that like Gottfried s earlier atlases on Gettysburg First Bull Run and Antietam belongs on the bookshelf of every serious and casual student of the Civil War

REVIEWS Bradley Gottfried fills a crucial gap in our understanding of what transpired in Virginia after the battle of Gettysburg and before the Overland Campaign His detailed and easy to read maps coupled with his incisive narrative allow readers to comprehend and fully appreciate the complicated important and largely overlooked Bristoe Station and Mine Run campaigns Rob Orrison Park Manager Bristoe Station Battlefield Heritage Park Gottfried has given us much more than a simple book of battlefield maps with blocks dotted lines and arrows Students of the war s Eastern Theater should purchase this unique book while they can because it offers the best and most coherent narrative of the actions in northern Virginia between Gettysburg and the Wilderness And then after they have read it they can walk the fields of Bristoe Station and enjoy the same level of tactical detail afforded by books on the much more famous battle up north The Civil War Monitor Gottfried s new book of maps fills in a gap in magnificent style The Maps of the Bristoe Station and Mine Run Campaigns is the latest in Savas Beatie s excellent
