*When Sorrow Comes* Melissa M. Matthes,2021-04-13 Since World War II Protestant sermons have been an influential tool for defining American citizenship in the wake of national crises In the aftermath of national tragedies Americans often turn to churches for solace Because even secular citizens attend these services they are also significant opportunities for the Protestant religious majority to define and redefine national identity and in the process to invest the nation state with divinity The sermons delivered in the wake of crises become integral to historical and communal memory it matters greatly who is mourned and who is overlooked Melissa M Matthes conceives of these sermons as theo political texts In *When Sorrow Comes* she explores the continuities and discontinuities they reveal in the balance of state power and divine authority following the bombing of Pearl Harbor the assassinations of JFK and MLK the Rodney King verdict the Oklahoma City bombing the September 11 attacks the Newtown shootings and the Black Lives Matter movement She argues that Protestant preachers use these moments to address questions about Christianity and citizenship and about the responsibilities of the Church and the State to respond to a national crisis She also shows how post crisis sermons have codified whiteness in ritual narratives of American history excluding others from the collective account These civic liturgies

therefore illustrate the evolution of modern American politics and society Despite perceptions of the decline of religious authority in the twentieth century the pulpit retains power after national tragedies Sermons preached in such intense times of mourning and reckoning serve as a form of civic education with consequences for how Americans understand who belongs to the nation and how to imagine its future

**Christianity, Social Justice, and the Japanese American Incarceration during World War II** Anne M. Blankenship, 2016-10-07 Anne M Blankenship's study of Christianity in the infamous camps where Japanese Americans were incarcerated during World War II yields insights both far reaching and timely While most Japanese Americans maintained their traditional identities as Buddhists a sizeable minority identified as Christian and a number of church leaders sought to minister to them in the camps Blankenship shows how church leaders were forced to assess the ethics and pragmatism of fighting against or acquiescing to what they clearly perceived even in the midst of a national crisis as an unjust social system These religious activists became acutely aware of the impact of government as well as church policies that targeted ordinary Americans of diverse ethnicities Going through the doors of the camp churches and delving deeply into the religious experiences of the incarcerated and the faithful who aided them Blankenship argues that the incarceration period introduced new social and legal approaches for Christians of all stripes to challenge the constitutionality of government policies on race and civil rights She also shows how the camp experience nourished the roots of an Asian American liberation theology that sprouted in the sixties and seventies

*Becoming Nisei* Lisa M. Hoffman, Mary L. Hanneman, 2020-12-31 A vital account of everyday Nisei life and identity formation in an early twentieth century community Tacoma's vibrant Nihonmachi of the 1920s and 30s was home to a significant number of first generation Japanese immigrants and their second generation American children and these families formed tight knit bonds despite their diverse religious prefectural and economic backgrounds As the city's Nisei grew up attending the secular Japanese Language School they absorbed the Meiji era cultural practices and ethics of the previous generation At the same time they positioned themselves in new and dynamic ways including resisting their parents and pursuing lives that diverged from traditional expectations *Becoming Nisei* based on more than forty interviews shares stories of growing up in Japanese American Tacoma before the incarceration Recording these early twentieth century lives counteracts the structural forgetting and erasure of prewar histories in both Tacoma and many other urban settings after World War II Lisa Hoffman and Mary Hanneman underscore both the agency of Nisei in these processes as well as their negotiations of prevailing social and power relations
