From a *Thematic Catalogue*, *After* traces the evolution of the artist's aesthetic world through, roughly, three of the cultural and international shifts of the 20th century: growing African influences in Manhattan through his friends and their large (and not very large) circles; Japan and America; and the long work that figures the "Western" stage and the last few African influences, covering America, New Guinea, and France, Italy, and New York. It is a book of images and that is a pity, not only for the lack of text, but for the lack of a more comprehensive and detailed analysis of the artist's work.

Remove the dough from the refrigerator and [turn] it
before you place it under the press. That will make it
more good.
