Michael Jackson What His Haters Dont Want To Know:

Michael Jackson: What His Haters Don't Want to Know !: Lies Can Kill Jacqueline Marie, 2019-02-11 I began to write this book Michael Jackson What his Detractors Don t want to Know during the last summer The emotion was for its height but as we perceived a lot of love for Michael as his detractors burst out During his disappearance many things shocked me Numerous lies An article of one of the most famous and serious French magazines supposed to pay him tribute in July 2009 ended in this sentence the world has just lost the biggest pedophile of every time I then began to write outraged to see where could go the ignominy To have followed him during decades I know for a long time that Michael Jackson was only the victim of the jealousy the envy and the plot It was evident that he was innocent But the press media joined forces against him in the only purpose to sell and benefit from their doggedness They sold some blood Michael s blood to the price of the gold and for sure grew rich on his name During this time this exceptionally gifted artist fought against the insults and the collective lynching without ever succeeding in regaining prestige still victim of doubtful jokes and eternal shameful insinuations A penal trial will not be enough to erase all this evil Scary Movie always represented him in neurotic pervert Never I guess Michael did bear this special treatment But never I guess no celebrity will be made dirty as well as him Then I wrote the truth on these scandalous events which started in 1993 and remain nevertheless attached to his name During months I left this book aside thinking that the passion of his detractors would eventually put out But in every corner of Web the disgusting comments continued to spread The hatred is always long lived although unfounded Michael Jackson What his detractors don t want to know is an answer to all those who use free of charge these dirty scandals to be able to continue to offend This book answers their wild imaginings that don t have sense anymore since June 2005 And if their tongue is still well hung it s really time to silence them once for all Michael Jackson Shawn Henning, 2010-06-17 Shawn Hennings new book is a powerful and overwhelming tribute and legacy to Michael Jackson In one book hes collected love letters reflections eulogies poems essays and drawings from people throughout the world who have a special appreciation for the King of Pop Michael Jackson I was particularly impressed at the diversity of material from so many different countries and cultures all of it heartfelt and illuminating In We Love You More we learn about the many different ways that Michael Jackson affected people from all walks of life The participants talk about how Michaels music creativity and pubic example affected their lives and helped them to be better people The contributions are a wonderful cathartic output to help to come to terms with the loss of Michaels huge talent They will not only comfort those who have written them but those who read them People will learn about the experiences they have in common with people throughout the world who followed Michaels career his music his good deeds and the example he set for this generation and generations to come The book will also be of comfort to Michaels own family They will see that the spirit of Michael will continue in people everywhere and in many ways and for many reasons Its also fascinating to learn what people have to say about different songs and what they meant to their lives Im

impressed by the diverse elements in the book from eulogies to memories to poems and beautiful drawings and paintings and even photo montages at the end Mr Henning youve done a wonderful service to the Michael Jackson fan community and I commend you Sincerely yours Larry Nimmer

The State of the American Mind: Stupor and Pathetic Docility
Volume Ii Amechi Okolo, 2010-06-11 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Harvard educated President Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and

surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands
