Globalization in a Glass Malcolm F. Purinton, 2023-05-04 The spread of Pilsner beer from its inception in 1842 clearly shows the changes wrought by globalization in an age of empire Its rise was dependent not only on technological innovations and faster supply chains but also on the increased connectedness of the world and the political and economic structures of empire Drawing upon a wide range of archival sources from Europe the Americas and Sub Saharan Africa this study traces the spread of industrial beer brewing in Europe from the late 18th to the early 20th century to show how a single beer style became the global favourite through advances in science business and imperial power In highlighting the evolution of consumer tastes through changing hierarchical relationships between the British metropole and colonies as well as the evolution of business organizations and practices Globalization in a Glass contributes to ongoing debates about globalization empire and trade It argues that despite the might and power of the British Empire as a colonizing force the effects of globalization imperial trade networks and colonial migration led to the domination of the most popular Continental European style of beer the Pilsner over British style ales

Breweries, Politics and Identity: The History Behind Namibian Beer Tycho van der Hoog, 2019-09-25 Namibian beer is celebrated as an inextricable part of Namibian nationalism both within its domestic borders and across global markets But for decades on end the same brew was not available to the black population as a consequence of colonial politics This book aims to explain how a European style beer has been transformed from an icon of white settlers into a symbol of the independent Namibian nation The unusual focus on beer offers valuable insight into the role companies play in identity formation and thus highlights an understudied aspect of Namibian history namely business state relations

**The Economics of Beer** Johan F. M. Swinnen, 2011-10-27 Beer has been consumed across the globe for centuries and was the

drink of choice in many ancient societies Today it is the most important alcoholic drink worldwide in terms of volume and value The largest brewing companies have developed into global multinationals and the beer market has enjoyed strong growth in emerging economies but there has been a substantial decline of beer consumption in traditional markets and a shift to new products There is close interaction between governments and markets in the beer industry For centuries taxes on beer or its raw materials have been a major source of tax revenue and governments have regulated the beer industry for reasons related to quality health and competition This book is the first economic analysis of the beer market and brewing industry The introduction provides an economic history of beer from monasteries in the early Middle Ages to the recent microbrewery movement whilst other chapters consider whether people drink more beer during recessions the effect of television on local breweries and what makes a country a beer drinking nation It comprises a comprehensive and unique set of economic research and analysis on the economics of beer and brewing and covers economic history and development supply and demand trade and investment geography and scale economies technology and innovation health and nutrition quantity and quality industrial organization and competition taxation and regulation and regional beer market developments
