The Rowman & Littlefield Handbook of Christianity in the Middle East Mitri Raheb, Mark A. Lamport, 2020-12-15 This work represents the current and most relevant content on the studies of how Christianity has fared in the ancient home of its founder and birth Much has been written about Christianity and how it has survived since its migration out of its homeland but this comprehensive reference work reassesses the geographic and demographic impact of the dramatic changes in this perennially combustible world region The Rowman Littlefield Handbook of Christianity in the Middle East also spans the historical socio political and contemporary settings of the region and importantly describes the interactions that Christianity has had with other major minor religions in the region

The Kurds before a Regional Transformation Ferhad Ibrahim Seyder, 2019 The Kurdish independence movement is in retreat Contributing factors for this withdrawal are the new outbreak of the Kurdish war in Turkey the structural weakening of the autonomous region Rojava in Syria proclaimed by the DUP and the setbacks in Iraqi Kurdistan caused by political and economic blockades The Kurdish autonomy projects will be reduced to a minimum The independence referendum in Iraq and the Iraqi and Shiite militias military response are indicative of the reluctance of the Middle Eastern ruling forces to accept political and ethnical pluralism External actors as the USA the EU and the UN support the return of the strong state in order to support regional stability Kurdish elites and their political organisations are facing a crisis of their own The Kurdistan Workers Party propagates postmodern concepts of a post nation state in a region requiring stable political structures more than ever before In Iraqi Kurdistan ongoing internal fighting between the main actors sets back Nation and State building processes by decades All these factors are part of a phase of transition aiming at a new regional order whose outlines can't be anticipated yet

Bedouin Bureaucrats Nora Barakat, 2023-04-25 In the late nineteenth century the Ottoman government sought to fill landscapes they legally defined as empty Both land and people were incorporated into territorially bounded grids of administrative law Bedouin Bureaucrats examines how tent dwelling seasonally migrating Bedouin engaged in these processes of Ottoman state transformation on local imperial and global scales As the tribe became a category of Ottoman administration Bedouin in the Syrian interior used this category both to gain political influence and to organize community resistance to maintain control over land Narrating the lives of Bedouin individuals involved in Ottoman administration Nora Elizabeth Barakat brings this population to the center of modern state making from their involvement in the pilgrimage administration in the eighteenth century and their performance of land registration and taxation as the Ottoman bureaucracy expanded in the nineteenth to their eventual rejection of Ottoman attempts to reallocate the empty land they inhabited in the twentieth She places the Syrian interior in a global context of imperial expansion into regions formerly deemed marginal especially in relation to American and Russian empires Ultimately the book illuminates Ottoman state formation attempts within Bedouin communities and the unique trajectory of Bedouin in Syria who maintained their control over land

Ahram, 2019-01-09 Since 2011 civil wars and state failure have wracked the Arab world underlying the misalignment between national identity and political borders In *Break all the Borders* Ariel I Ahram examines the separatist movements that aimed to remake those borders and create new independent states With detailed studies of the Islamic State in Iraq and Syria the federalists in eastern Libya the southern resistance in Yemen and Kurdish nationalist parties Ahram explains how separatists captured territory and handled the tasks of rebel governance including managing oil exports electricity grids and irrigation networks Ahram emphasizes that the separatism arose not just as an opportunistic response to state collapse Rather separatists drew inspiration from the legacy of Woodrow Wilson and ideal of self determination They sought to reinstate political autonomy that had been lost during the early and mid twentieth century Speaking to the international community separatist promised a more just and stable world order In Yemen Syria Iraq and Libya they served as key allies against radical Islamic groups Yet their hopes for international recognition have gone unfulfilled Separatism is symptomatic of the contradictions in sovereignty and statehood in the Arab world Finding ways to integrate instead of eliminate separatist movements may be critical for rebuilding regional order *The Nineteenth Century and After* ,1926
