## **Mothering Twins Mothering Twins:**

Mothering Twins Linda Albi, Deborah Johnson, Debra Catlin, Donna Florian Deurloo, Sheryll Greatwood, 2010-06-15

Invaluable real life advice and emotional support for mothers of multiples Meeting the double challenge and reaping the double rewards of having twins can be both exhilarating and exhausting In this comprehensive guide to twin pregnancy birth and early childhood five mothers with six sets of twins among them share their experiences from the first thrill of seeing two heads on the ultrasound screen to coping with two toddlers determined to go in two directions at once They offer a variety of it worked for me solutions to the many situations unique to caring for twins whether it s dealing with the complications of a high risk pregnancy creating effective support systems or simply trying to find time for their husbands and themselves Emphasizing individuality and adaptability the authors of Mothering Twins encourage each mother to develop her own parenting approach based on what s best for her and her children

**Double Time** Jane Roper, 2012-05-08 Becoming a mother is rarely what you expect Jane Roper never expected she d have twins or that they d be such a spirited twosome She didn t expect that finding the right balance of work and home would be so tricky And she certainly didn t expect she d grapple with a diagnosis of bipolar disorder during her daughters toddler years But she also didn t anticipate just how much joy laughter and self discovery motherhood would bring Full of warmth honesty occasional advice and a generous helping of humor Double Time is a smart and engaging account of the first three years with multiples and a refreshingly candid and vulnerable look at clinical depression It s a memoir that will resonate countless women especially those parenting in double time

**On Mothering Multiples: Complexities and Possibilities** Kathy Mantas, 2016-01-01 Demeter Press took on the challenge of discussing multiples through On Mothering Multiples Complexities and Possibilities a book that promised to re explore re present and make meaning of the process of conception pregnancy childbirth and mothering experiences with multiples Under the editorship of Kathy Mantas and through diverse contributions of research artwork and narrative pieces this topic is explored with diverse voices that elicit nuance towards a subject that often suffers from clich and overt charm Daring to taunt the reader who may be beguiled by the blessing of multiples with an unflinching look at subjects such as fetal demise disability post partum depression the beauty and the beast of the post twin maternal body and the society s obsession and derision with multiples conceived through assistive reproductive technology this book is a foundational text on the topic of the messiness of multiple births and mothering This collection manages to be both intensely personal while maintaining the scholarly distance necessary to offer an important contribution to the field of motherhood studies as well as intersecting with grief work and disability studies Published in 2016 this book remains provocative and stealth in how it unfurls its wisdom providing both clarity and further

Having Twins and More Elizabeth Noble, Leo Sorger, 2003 Considers the needs of prospective multiple birth parents

**The Twin in the Transference** Vivienne Lewin, 2018-05-16 The universal phantasy of having a twin originates in our earliest relational experiences This book is about twins and twinning processes The

existence of an actual twin alive or dead may be experienced as an embodiment of the phantasy of having a twin with developmental consequences Twinning processes in twins lead to the creation of an internal twin relationship that is enduring The twin relationship may be at the narcissistic end of the spectrum leading to an enmeshed twinship or it may be a more mature object relationship All twin relationships will be manifest in the transference relationship with the analyst The twin transference has been largely neglected in the psychoanalytic literature to the detriment of our understanding of dynamic processes in twin patients In this book case material is used to explore the nature of the twin transference relationship and the necessity of analysing the twin transference as well as maternal and paternal transference relationships

Twins 101 Khanh-Van Le-Bucklin,2008-10-27 A must read for expectant or multitasking mothers of multiples by an academic pediatrician and mother of twins Twins 101 provides practical tips and wise words in a readable style that fits into the fast pace of these mothers lives Theodore Sectish MD associate professor of pediatrics Harvard Medical School program director Children s Hospital Boston Dr Le Bucklin s new parenting book is the first by a pediatrician who is also a mother of twins No other pregnancy and parenting book for multiples offers this unique and much needed perspective Twins 101 features practical advice and well researched information in an easy to read format From maintaining a healthy twin pregnancy to meeting the daily challenge of caring for twins Twin 101 guides families through each stage with insightful tips practical advice useful resources and inspirational stories

Twins Alessandra Piontelli,2002 Though much has been written about twins very little research has been done into their everyday lives both postnatal and prenatal In this fascinating new study Alessandra Piontelli follows the development and behaviour of thirty pairs of twins from their early life in the womb through to their third year of childhood Drawing on detailed ultrasound observations and work with mothers and families in clinical and natural settings the text traces the subtle ways in which various types of twins live behave and interact with their unequally shared and unique pre and postnatal environments Piontelli shows how from early on distinctive and personal traits can be seen in the behaviour of each member of a twin couple and how these traits continue and strengthen well beyond birth The book describes not only the behaviour of the twins but the impact they have on the lives of their family and carers what family members say how they react and how the family changes Scientifically based but warmly human in content this unique longitudinal study offers new insight for professionals working with mothers and families of twins and for researchers in human development across a range of disciplines

**Hidden Twins** Olivia Lousada,2018-03-26 This book finds itself being part of the rising tide of interest and investigation into the nature of relationship experience for siblings same sex twins and opposite sex twins It illuminates adult opposite sex twinship that has been undervalued and even hidden

Rhetorical Criticism Sonja K. Foss,2025-07-28 This transformative text has taught the lively art of rhetorical criticism to thousands of readers becoming a revered standard With an unparalleled talent for distilling sophisticated rhetorical concepts and processes Sonja Foss provides an engagingly written practical guide delineating ten methods of

doing rhetorical criticism Clear instructions describe the process for systematic investigation of symbolic acts and artifacts and the necessary ingredients for well reasoned explanations and analysis Accessible sample essays illustrate each method and the same artifact is analyzed for nine of the methods to reveal the nuances and applicability of different approaches A deep understanding of rhetorical criticism equips readers to be engaged and active participants in shaping the nature of the world in which they live A chapter on feminist criticism features the disruption of conventional ideologies and practices The chapter on narrative criticism highlights storytelling in the digital world The emphasis on inquiry is invaluable for filtering meaning out of the communication encountered daily for example questions to ask processes to employ for interpretation assumptions to identify Understanding rhetoric helps readers judge the effectiveness accuracy and impact of symbols

*Twin Mythconceptions* Nancy L. Segal, 2017-02-08 *Twin Mythconceptions* False Beliefs Fables and Facts about Twins sheds new light on over 70 commonly held ideas and beliefs about the origins and development of identical and fraternal twins Using the latest scientific findings from psychology psychiatry biology and education the book separates fact from fiction Each idea about twins is described followed by both a short answer about the truth and then a longer more detailed explanation Coverage includes embryology of twins twin types intellectual growth personality traits sexual orientation of twins marital relationships epigenetic analyses and more Five appendices cover selected topics in greater depth such as the frequency of different twin types and the varieties of polar body twin pairs This book will inform and entertain behavioral and life science researchers health professionals twins parents of twins and anyone interested in the fascinating topic of twins Identifies common misunderstandings about twins Provides scientific answers to questions about twins Encompasses the biology psychology genetics and personality of twins Includes discussion of identical fraternal same sex and fraternal opposite sex twins Allows for quick answers to common questions and more detailed explanations **Gemini and the Sacred** Kimberley C. Patton, 2022-10-06 Why do twins remain uncanny to those born alone in other words most of us Even with the rise of IVF and an increase in multiple births why do we still do a double take when we encounter twins Why has this been a near universal response throughout human history and how has it played out in religion and myth Through the work of leading scholars in religion folklore and mythology history anthropology and archaeology *Gemini and the Sacred* explores how twinship has long been imagined especially in the complex relationship of sacred twin traditions to twins on the ground in biology and lived experience The book considers the multiple ways in which the doubling of a human being may be interpreted as auspicious and powerful or suppressed as unstable and dangerous Why has this been so and how does it affect living twins today Treating both famous and lesser known twins including supernatural animal twins in the ancient Near Eastern and classical Mediterranean worlds early Christianity and Gnosticism Vedic Hindu West African Black Atlantic and native American traditions ancient Mesoamerica Celtic Roman Britain and Scandinavia and in the special fraught bond shared by all twins the book offers a variety of perspectives on this topic of great cultural significance *Exploring Twins* E.

Stewart, 2016-01-19 Exploring Twins presents an analysis of twinship considered as a specifically social phenomenon Drawing upon a wide range of interdisciplinary historical and cross cultural data Dr Stewart argues that in both traditional and modern societies twinship represents a recurrent anomaly which calls into question the assumptions around which different types of society are organized Part One identifies and analyses the fascinating range of cultural and disciplinary approaches to the interpretation of twinship while Part Two considers the possibilities for a distinctively social analysis of twinship

**Mothering Multiples** Karen Kerkhoff Gromada, 1985 **Having Twins** Elizabeth Noble, 1980 **Twins**, 2000 *Handbook of Social Development* Vincent B. Van Hasselt, Michel Hersen, 1992-08-31 Social development over one's lifetime is a complex area that has received considerable attention in the psychological social psychological and sociological literature over the years Surprisingly however since 1969 when Rand McNally published Goslin's Handbook of Socialization no comprehensive statement of the field has appeared in book form Given the impressive data in this area that have been adduced over the last two decades we trust that our handbook will serve to fill that gap In this volume we have followed a lifespan perspective starting with the social interactions that transpire in the earliest development stages and progressing through childhood adolescence adulthood and finally one's senior years In so doing we cover a variety of issues in depth The book contains 21 chapters and is divided into five parts I Theoretical Perspectives II Infants and Toddlers III Children and Adolescents IV Adults and V The Elderly Each of the parts begins with

introductory material that reviews the overall issues to be considered Many individuals have contributed to the final production of this handbook Foremost are our eminent contributors who graciously agreed to share with us their expertise We also thank our administrative and technical staff for their assistance in carrying out the day to day tasks necessary to complete such a project Finall we thank Eliot Werner Executive Editor at Plenum for his willingness to publish and for his tolerance for the delays inevitable in the development of a large handbook

*Not All Twins Are Alike* Barbara Klein,2003-02-28 Even twins are unique Most people idealize twins fantasizing a close perpetually loving relationship Yet Klein herself an identical twin demonstrates that twins have complicated and intense relationships that range from over identification or excessive closeness to profound estrangement and conflict Most twins who are raised as individuals deal with the significant emotional pain of separation in adolescence or young adulthood yet as mature adults can come to love and respect each other as individuals As Klein makes clear the parenting that twins receive as infants and young children affects the relationships that they have with one another and with the world they choose to function in Because parenting is a critical determinant of psychological well being it should be treated as a serious but manageable challenge This book is a must read for twins their parents and scholars students and other researchers and professionals dealing with mental health and child development

Nursing Research Denise F. Polit,Cheryl Tatano Beck,2004 This graduate level nursing research textbook continues the expansion of coverage on qualitative research including important issues for specific qualitative traditions such as grounded theory phenomenology and ethnography Developing solid evidence for practice will be emphasized throughout the text and important evaluative concepts like reliability validity and trustworthiness will be introduced Other new features include stronger international content with an emphasis on Canadian and Australian research inclusion of tips in boxes located in appropriate places throughout the chapters and the use of summary bullet points This edition will now offer a free Connection Website connection LWW com go polit

Essentials of Nursing Research Denise F. Polit,Cheryl Tatano Beck,2010 Essentials of Nursing Research is designed to teach students how to read understand analyze and evaluate research reports in nursing practice The Seventh Edition has been updated with stronger coverage of evidence based practice including content on how to read interpret and critique systematic reviews which are considered by many to be a cornerstone of evidence based practice Also included in the Seventh Edition a more balanced presentation of medical and social science methods and nomenclature enhanced coverage of qualitative research and more
