Appalachian Folkways John B. Rehder, 2004-07-12 Winner of the Kniffen Award and an Honorable Mention from the Professional and Scholarly Publishing Awards in Sociology and Anthropology Appalachia may be the most mythologized and misunderstood place in America its way of life and inhabitants both caricatured and celebrated in the mainstream media Over generations though the families living in the mountainous region stretching from West Virginia to northeastern Alabama have forged one of the country's richest and most distinctive cultures encompassing music food architecture customs and language In Appalachian Folkways geographer John Rehder offers an engaging and enlightening account of southern Appalachia and its cultural milieu that is at once sweeping and intimate From architecture and traditional livelihoods to beliefs and art Rehder who has spent thirty years studying the region offers a nuanced depiction of southern Appalachia's social and cultural identity The book opens with an expert consideration of the southern Appalachian landscape defined by mountains rocky soil thick forests and

plentiful streams While these features have shaped the inhabitants of the region Rehder notes Appalachians have also shaped their environment and he goes on to explore the human influence on the landscape From physical geography the book moves to settlement patterns describing the Indian tribes that flourished before European settlement and the successive waves of migration that brought Melungeon Scotch Irish English and German settlers to the region along with the cultural contributions each made to what became a distinct Appalachian culture Next focusing on the folk culture of Appalachia Rehder details such cultural expressions as architecture and landscape design traditional and more recent ways of making a living both legal and illegal foodstuffs and cooking techniques folk remedies and belief systems music art and the folk festivals that today attract visitors from around the world and the region's dialect With its broad scope and deep research Appalachian Folkways accurately and evocatively chronicles a way of life that is fast disappearing

Warning! This Product Contains Nuttiness Sam Venable,2013-12-01 As seen through the eyes of Sam Venable the world is indeed bizarre and filled with nuttiness The archives of the Knoxville News Sentinel offer ample evidence that Venable is a bit of the former and has made a career out of drawing attention to the latter For his latest book Venable has gathered and organized 139 of his newspaper columns his biggest collection yet to create a trove of wit and wisdom In the spirit of The Emperor s New Clothes he points a finger at human nature the environment civil rights and wrongs and an eclectic mix of other targets drawing our attention to the foibles failings and just plain absurdities that surround us all As a native son and treasured institution in East Tennessee Venable has earned the right to poke fun at its local history habits and happenings He takes full loving advantage of this license in essays such as How to Tawl Good Shall We Gather with a Reptile and The Good the Bad the Kudzu He takes on the government in a section titled A Two Ring Circus with Elephants and Donkeys and in another called Still Waiting for Y2K he offers up A Lesson in Dollars and Sense and Blowing the Budget for Bowser Some have called him a modern day Mark Twain others the Dave Barry of Knoxville but while there may be some similarities Sam Venable is wonderfully unique He sees and sees through the pervasive silliness and stupidity in our world It evokes wonder in him and with many a deft turn of phrase he interprets that wonder for us Warning This Product Contains Nuttiness will make you smile certainly but it will also make you think and sometimes even touch your heart

**Tennessee Log Buildings** John B. Rehder,2012-12-30 Drawing on more than four decades of research Tennessee Log Buildings examines one of the Volunteer State s most precious and fast disappearing traditions From the pioneer era through the mid twentieth century folk builders in Tennessee used logs to construct cabins barns other outbuildings schools and churches In warm accessible prose that often makes this deeply researched work read like guidebook John Rehder explores the varied styles and architectural characteristics of these fascinating structures including their floor plans the types of timber used and the different notches that were cut into the logs to secure the structures Profusely illustrated with over one hundred images Tennessee Log Houses traces the evolution of log houses from one room or single pen dwellings to more elaborate homes of various types such as saddlebags Cumberland houses dogtrots and two story I houses Rehder discusses the historic settlement patterns and building traditions that led to this variety of house types and identifies their particular occurrences throughout the state by drawing on surveys conducted in forty two counties by teams working for the Tennessee Historical Commission THC Similarly he explores disparate barn and outbuilding types including the distinctive cantilever barns that are found predominantly in East Tennessee Sprinkled throughout the book are engaging anecdotes that convey just what it is like to conduct field research in remote rural areas Rehder also describes in detail a number of the state s exceptional log places among them Wynnewood an enormous structure in Middle Tennessee which dates back to the

early nineteenth century and which suffered severe tornado damage in 2008 As the author notes many of the buildings originally identified in the THC investigations have now vanished completely while others are in serious disrepair Thus this book not only offers an instructive and delightful look at a key part of Tennessee s heritage but also makes an eloquent plea for its preservation Until his death in 2011 JOHN B REHDER was a professor of geography at the University of Tennessee Knoxville He first joined the UT faculty in 1967 He was the author of *Appalachian Folkways* which won the Pioneer America Society s Fred B Kniffen Book Award in 2004 and *Delta Sugar Louisiana s Vanishing Plantation Landscape* which won the Vernacular Architecture Forum s 2000 Abbott Lowell Cummings Award

A College For Appalachia P. David Searles,2021-05-11 Alice Spencer Geddes Lloyd was a New England woman with a mission in life In 1916 she settled on Caney Creek in Eastern Kentucky determined to bring higher education to this remote corner of Appalachia The school she founded now Alice Lloyd College continues to serve the area and its people and to stand as a tribute to Lloyd s remarkable energy determination and vision Lloyd s program combined a rigorous academic curriculum with an intense effort to instill a sense of service in the school s graduates This education was provided free and required only that the students abide by Lloyd s strict rules of conduct and pledge to remain in the mountains after graduating In the first full scale study of Lloyd s life and work and the institution she founded David Searles shows how this courageous and complex woman struggled throughout her long life against seemingly insurmountable odds to create an institution dedicated to improving life in Appalachia But as he acknowledges Lloyd s fundraising activities relied on harmful stereotypes that caused resentment among her mountain neighbors and she often angered others working in the mountains Despite the negative aspects of Lloyd s activities Searles casts serious doubt on the now fashionable conclusion that the women who came to the mountains to do good created more problems than they solved Lloyd s story he argues demonstrates that much good was indeed accomplished and that the people of the mountains recognized and appreciated her achievement

*Literacy in the Mountains* Samantha NeCamp,2020-02-18 After the 2016 presidential election popular media branded Appalachia as Trump Country decrying its inhabitants as ignorant fearmongers voting against their own interests And since the 1880s there have been many including travel writers and absentee landowners who have framed mountain people as uneducated and hostile These stereotypes ultimately ward off potential investments in the region s educational system and skew how students understand themselves and the place they call home Attacking these misrepresentations head on *Literacy in the Mountains* Community Newspapers and Writing in Appalachia reclaims the long history of literacy in the Appalachian region Focusing on five Kentucky newspapers printed between 1885 and 1920 Samantha NeCamp explores the complex ways readers in the mountains negotiated their local and national circumstances through editorials advertisements and correspondence In local newspapers community action groups announced meeting times and philanthropists raised funds for a network of hitherto unknown private schools Preserved in print these stories and others reveal an engaged citizenry specifically concerned with education Combining literacy and journalism studies NeCamp demonstrates that Appalachians are not and never have been an illiterate isolated people *Cemeteries and the Life of a Smoky Mountain Community* Gary
