

The cover art is a dark, atmospheric illustration. At the top, a human skull is positioned above a banner that reads "LIBRARY OF DOOM". Below this, a dark rectangular box contains the words "GRAPHIC NOVELS" in a gold, serif font. The central part of the cover is dominated by a dense, chaotic web of glowing green and blue tentacles or vines. These tentacles are adorned with various golden symbols, including astrological signs like the Gemini (♊), Cancer (♋), and Leo (♌), as well as other mystical or alchemical icons. At the base of this web, an open book is visible, from which the tentacles appear to be growing. The background is dark and textured, with some faint, glowing elements that suggest a library or a hidden realm. The overall color palette is dominated by dark greens, blues, and blacks, with gold accents providing a stark contrast.

When an attempt is made to restart the particle accelerator at Geneva during August of 2015 a major disaster occurs Scientists who had gathered in Dublin found they were being called upon to solve a potential catastrophe While six personnel were the process of repairing the LHC Large Hadron Collider a void of accelerated mass is created trapping the team inside There seems little hope of survival In fact they have not gone anywhere They now existed in a massless light spectrum beyond which normal vision is not possible By rights they all should be dead crushed by the repressurisation of the LHC They soon realise changes are affecting their personalities as they are bombarded by an onslaught of highly charged protons causing actual places and events from the past come to life Bryce our hero recognises that Ellen Bryce s love interest can successfully use Mind Travel techniques to move through time and space The team using this same power focus on a particular element from the periodic table to literally move from place to place The team move from place to place until they end up in nineteenth century New Zealand and discover a Maori warrior chief with a recognisable pendant around his neck It

indicates the various experiments being conducted in Geneva in 2015 Upon retrieving the pendant they set off on their mission to regain the other remaining symbols indicated on the pendant The next item is an electrum necklace located near Queen Hatshepsut s Mortuary Temple Bryce manages to steal this whilst Hatshepsut and Senenmut make love in his tomb In the skirmish that follows Jason Bryce s best friend is wounded by an Egyptian spear They manage to escape by casting Senenmut s monetary offerings into the air of the Temple of Amun The team travel to the Rome of Augustus where they collect the original Res Gestae divi Augustae from the Temple of Vesta This is to fulfil the next experiment on the Maori pendant This collection goes relatively smoothly despite a confrontation Ellen has with some Praetorian Guards The collection of the death mask of the first wanax King from beneath the Lion s Gate at Mycenae becomes problematic John defeats the king but they now pay for his blood He manages to escape with the wounded Ellen only to be picked up by a shuttle from Fermilab in California After a fortunate earthquake at Mycenae the original team are given the job of reconstructing the damaged Cyclopean wall The Fermilab shuttle reappears with John aboard The original team find out from him that three years have elapsed within the period of the day he was absent With the death mask collected and on board the Fermilab rescue team departs but in doing so Jason is wounded once again In the process of collecting the original gold Phaistos disc from Crete Bryce has a sexual encounter with a princess Despite his shyness and lack of experience it was a necessary price to pay to retrieve the last item on the pendant The collecting process is becoming more of a test of survival John Affan and Babette are all seriously wounded during their time at Pozieres and their Fermilab shuttle is also damaged They are helped by Ray Palmer but it is only the beginning of their problems With LHC and Fermilab now working together they discover that an international espionage group is operating out of the Fermilab site There has been a security breach and a serious infiltration at the highest levels of the Fermilab management Billions of dollars in contributions had already been syphoned off This group had also replaced key personnel with doubles as they are systematically eliminated It is up to Bryce to put an end to their plan

The Shroud Codex Jerome R. Corsi, 2010-04-13 After a New Jersey priest has a near death experience he begins to resemble the image depicted on the Shroud of Turin prompting a skeptical Vatican representative to investigate the claim and subsequently question the assumptions he has held for so long THE PRIEST Brought back to life on an operating room table Father Paul Bartholomew is haunted by visions of Christ as Golgotha Then as he celebrates Mass blood starts running down his arms The horrified congregation watches him collapse his vestments soaked in the blood pouring from wounds on his wrists Mysteriously he now resembles in almost every physical aspect the Christ like figure represented on the Shroud of Turin THE SKEPTICS Worried lest Bartholomew s case be proved a hoax the Vatican employs two prominent scientists to investigate Dr Stephen Castle an American psychiatrist is renowned for his book arguing that religion is a figment of human imagination Professor Marco Gabrielli an Italian religious researcher and chemist has made a career of debunking supposed miracles of explaining the unexplainable THE MIRACLE For centuries the Shroud

of Turin has defied science Is this ancient remnant truly Christ's burial cloth or the biggest fraud ever perpetrated When the priest's uncanny resemblance to the picture on the Shroud prompts Castle and Gabrielli to investigate the artifact itself each is finally forced to face mysteries reason alone cannot explain in a journey of discovery that plumbs the farthest reaches of science and the human spirit
