Olympic movement the historical roots of British Olympism have received limited scholarly attention With the conclusion of the 2008 Beijing Olympics and the passing of the baton to London Rule Britannia remedies that oversight This book uncovers Britain's early Olympic involvement revealing how the British public media and leading governmental officials were strongly opposed to international Olympic competition It explores how the British Olympic Association focused on three main factors in the midst of widespread national opposition it embraced early Olympian spectacles as a platform for maintaining a sporting union with Ireland it fostered a greater sense of imperial identity with Britain's white dominions and it undertook an ambitious policy of athletic specialization designed to reverse the nation's waning fortunes in international sport This book was previously published as a special issue of International Journal of the History of Sport **Olympiad 1960** Ente nazionale industrie turistiche (Italy), 1959 The Pentathlon of the Ancient World Frank Zarnowski, 2013-04-19 The pentathlon comprising competition in the discus javelin long jump sprint and wrestling was hailed as the ultimate test of athletic versatility and remained a staple of the ancient Greek Olympic Games Crown Games and Pan Hellenic festivals for 1 200 years Still there is little scholarly consensus over many major aspects of the event This detailed exploration of the ancient pentathlon discusses the nature of the spectacle the method of determining a victor the five sub events and the order in which they occurred It also chronicles the history of the event and its champions the recognition of ancient pentathletes and the pentathlon's 18 year modern Olympic history and its influence on its contemporary counterpart the decathlon A record book and glossary complete this fresh look at one of the ancient world's most renowned sporting competitions

Scanlon, 2002-02-07 Ancient Greek athletics offer us a clear window on many important aspects of ancient culture some of which have distinct parallels with modern sports and their place in our society Ancient athletics were closely connected with religion the formation of young men and women in their gender roles and the construction of sexuality Eros was from one perspective a major god of the gymnasium where homoerotic liaisons reinforced the traditional hierarchies of Greek culture But Eros in the athletic sphere was also a symbol of life affirming friendship and even of political freedom in the face of tyranny Greek athletic culture was not so much a field of dreams as a field of desire where fervent competition for honor was balanced by cooperation for common social goals *Eros and Greek Athletics* is the first in depth study of Greek body culture as manifest in its athletics sexuality and gender formation In this comprehensive overview Thomas F Scanlon explores when and how athletics was linked with religion upbringing gender sexuality and social values in an evolution from Homer until the Roman period Scanlon shows that males and females made different uses of the same contests that pederasty and athletic nudity were fostered by an athletic revolution beginning in the late seventh century B C and that public athletic festivals may be seen as quasi dramatic performances of the human tension between desire and death Accessibly written and full of insights that will challenge long held assumptions about ancient sport *Eros and Greek Athletics* will appeal to readers interested in ancient and modern sports religion sexuality and gender studies *Woman and Sport* J. Borms, M. Hebbelinck, A. Venerando, 1982-01-04 **Leisure and Elite Formation** Peter Heyrman, Jan de Maeyer, Martin Kohlrausch, 2020-05-05 This volume investigates places where old and new elites came together where these groups met and interacted but also where the rules and conventions for new elites were forged The book focusses arenas of encounter and self representation belonging to the world of leisure and embraces also the organizations and associations which established and ran these spaces and events *The Extinguished Flame* Nigel McCrery, 2016-10-19 In August 2016 the world will be spellbound by the Olympic Games in Rio de Janeiro as 10 500 athletes from 206 countries compete in 306 events Tracing their origins back to the Greeks in 776 BC the history of the Olympics is a glorious one but it has had its

darker moments During the First World War no fewer than 135 Olympians perished Many had won Gold Silver and Bronze medals They came not just from the UK Germany France USA but from all over the globe Wyndham Halswelle killed in action on 31 March 1915 won a Gold Silver and Bronze medals in both field and track events The Frenchman Leon Flameng the fastest cyclist ever died on 2 January 1917 having won Gold Silver and Bronze medals in the 1896 Olympics The German Fritz Bartholomae killed in action 12 September 1915 won a Bronze in the rowing eights during the 1912 Olympics The list of these heroes goes on and on Each Olympian who made the supreme sacrifice is honoured in this magnificent book by a summary of their life sporting achievement and manner of their death *Italy*, 1977 *Athletics and Literature in the Roman Empire* Jason König, 2005-04-21 From the first to third century AD Greek athletics flourished as never before This book offers exciting readings of those developments Drawing on a wide range of evidence it sheds light on practices of athletic competition and athletic education in the Roman Empire In addition it examines some of the ways in which athletic activity was represented within different texts and contexts Most importantly the book shows how discussion and representation of athletics could become entangled with many other areas of cultural debate and used as a vehicle for many different varieties of authorial self presentation and cultural self scrutiny It also argues for complex connections between different areas of athletic representation particularly between literary and epigraphical texts It offers re interpretations of a number of major authors especially Lucian Dio Chrysostom Pausanias Silius Italicus Galen and Philostratus
