On Hobbes: Escaping the War of All Against All (Liveright Classics) Alan Ryan, 2015-11-16 A guiding light to America's Founding Fathers Hobbes created the first truly modern political philosophy In Leviathan one of the greatest works of political philosophy of all time English philosopher Thomas Hobbes created the idea of a social contract and set out to explicate a doctrine for the foundation of states and legitimate forms of government In On Hobbes Alan Ryan explains how Hobbes created the secular conception of the state and politics in one of the first truly modern works of political philosophy Inverting Aristotle's view of politics Hobbes argued that humans organize themselves into political communities not out of any sociable impulse to pursue the good life in common but rather out of an unsociable fear of one another and for the sake of avoiding the greatest evil of all death Ryan explicates how modern notions of individual rights sovereignty representative government and almost all liberal political theory find their foundation in the work of Hobbes Excerpted here are Leviathan The Elements of Law

Eutanasia del marxismo Giulio de Martino, 2020-02-07T00:00:00+01:00 L'estinzione del marxismo ha lasciato un vuoto nella cultura civile e politica internazionale e italiana Occorre da un lato comprendere i limiti della filosofia e dell'ideologia di Marx e dei suoi seguaci Dall'altro occorre colmare quel vuoto Non si tratta di un terreno agevole per chi opera nel nome della tolleranza del pluralismo e della equilibrata convergenza della sfera economica e di quella morale In un'epoca segnata dalla fragilità delle istituzioni dalla lotta fra i poteri e dall'inquietudine delle masse ci che manca alla cultura liberale democratica l'apertura sentimentale la vocazione eroica l'etica dei valori che la facciano intervenire oltre che sul piano delle regole e delle funzioni anche su quello delle sfide dell'esempio e della leale competizione

Gates of Eden: American Culture in the Sixties Morris Dickstein, 2015-02-23
Widely admired as the definitive cultural history of the 1960s this groundbreaking work finally reappears in a new edition The turbulent 1960s almost from its outset produced a dizzying display of cultural images and ideas that were as colorful as the psychedelic T-shirts that became part of its iconography It was not however until Morris Dickstein's landmark Gates of Eden first published in 1977 that we could fully grasp the impact of this raucous decade in American history as a momentous cultural epoch in its own right as much as Jazz Age America or Weimar Germany From Ginsberg and Dylan to Vonnegut and Heller this lasting work brilliantly re-creates not only the intellectual and political ferment of the decade but also its disillusionment What results is an inestimable contribution to our understanding of twentieth century American culture

edition Excerpt Note by the American Publisher This little volume is an exact reproduction of the standard English translation of one of the most noteworthy books of the nineteenth century To Engels scarcely less than to Marx is due the impetus to clear thinking which has placed the Socialism of continental Europe in a commanding position where it is recognized as the hope of the workers and the terror of the rulers Socialism Utopian And Scientific has been translated into the language of every capitalist nation and wherever it has gone it has been an inspiration In America it has thus far been known by the rather expensive edition imported by Charles Scribner s Sons from which this edition is reprinted and by an earlier and somewhat inferior translation printed in fine type and published without the remarkable introduction written by Engels in 1892 and here presented The appendix on the origin of the German Mark has been omitted from the present edition for the reason that the development of agriculture in this country has been so different from that in Europe that this appendix would be more confusing than helpful to the average American reader Signs are not wanting that the growth of Socialism in America will be rapid The easy victory of organized capital represented in the Republican party over the discordant elements of the now superfluous middle class leaves a clear field for the organization of hand workers and brain workers into the party destined to build a new and better social order out of the crumbling ruins of capitalism Charles H Kerr February 1900 INTRODUCTION The present little book is originally a part of a larger whole About 1875 Dr Duhring priveldocentl at Berlin University suddenly and rather cla *The Communist Manifesto* Karl Marx, 2015-11-24 One of the world s most influential political treatises The Communist Manifesto outlines the base principles of communism as they relate to class struggle economics and politics Originally published in 1848 as the Manifesto of the Communist Party The Communist Manifesto was foundational to the development of modern communism and socialism Be it mystery romance drama comedy politics or history great literature stands the test of time ClassicJoe proudly brings literary classics to today s digital readers connecting those who love to read with authors whose work continues to get people talking Look for other fiction and non fiction classics from ClassicJoe
