Michael Hannon, Jeroen de Ridder, 2021-04-22 As political discourse had been saturated with the ideas of post truth fake news epistemic bubbles and truth decay it was no surprise that in 2017 The New Scientist declared Philosophers of knowledge your time has come Political epistemology has old roots but is now one of the most rapidly growing and important areas of philosophy The Routledge Handbook of Political Epistemology is an outstanding reference source to this exciting

What Kind of Government? Vlasta Jalušič, Wolfgang Heuer, 2024-10-17. This book seeks to develop an understanding of the changes in contemporary forms of government and explores the nature and structure of the various corrupt, undemocratic, oppressive, and abusive governments that continue to emerge around the globe. While proceeding from Hannah Arendt's well-known thesis of the break in political tradition that occurred with the totalitarianisms of the 20th century, it addresses some main conceptual frameworks and a number of key trends in existing forms of government and their relations to historical forms. The primary intended audience includes educators, scholars, and researchers with an interest in contemporary democracy and anti-democratic movements; government questions of power; political theory, philosophy, and conceptual history; as well as students enrolled in various disciplines of the social sciences. Moreover, it will be of interest to Arendt scholars and those researching the contemporary challenges to democracy and constitutional rule worldwide. Chapters 1, 4, 6, and 13 are available open access under a Creative Commons Attribution 4.0 International License via link.springer.com.

Enlightenment and Ecology Tarinski Yavor Tarinski, 2021-02-20. Throughout his life, prophetic American philosopher Murray Bookchin created social ecology as a comprehensive social program for the challenges of our present era. Through tireless teaching, speaking, organizing, and writing, Bookchin presented a humanist vision of ecology based on community, direct democracy, and the better promises of the Enlightenment, showing how we could transform our society into one that is free and egalitarian. Enlightenment and Ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work. This book also examines how the Kurdish freedom movement is using the Bookchin's utopian ideas. In a time of urgent need for radical change, these essays provide both precious historical lessons and a transformative road map.

Surging Democracy Adriana Cavarero, 2021-08-31 What does a truly democratic experience of political action look like today In this provocative new work Adriana Cavarero weighs in on contemporary debates about the relationship between democracy happiness and dissent Drawing on Arendt's understanding of politics as a participatory experience but also discussing texts by Zola Elias Canetti Boris Pasternak and Roland Barthes along with engaging Judith Butler Cavarero proposes a new view of democracy based not on violence but rather on the spontaneous experience of a plurality of bodies coming together in public Expanding on the themes explored in previous works Cavarero offers a timely intervention into current thinking about the nature of democracy suggesting that its emergence thrives on the nonviolent creativity of a widespread participatory and relational power that is shared horizontally rather than vertically From digital democracy to selfies to

contemporary protest movements Cavarero argues that we need to rethink our focus on individual happiness and turn toward rediscovering the joyful emotions of birth through plural interaction Yes let us be happy she urges but let us do so publicly politically together

Subjectivity and the Political Gavin Rae, Emma Ingala, 2017-10-12 Despite or quite possibly because of the structuralist post structuralist and deconstructionist critiques of subjectivity master signifiers and political foundations contemporary philosophy has been marked by a resurgence in interest in questions of subjectivity and the political Guided by the contention that different conceptions of the political are at least implicitly committed to specific conceptions of subjectivity while different conceptions of subjectivity have different political implications this collection brings together an international selection of scholars to explore these notions and their connection Rather than privilege one approach or conception of the subjectivity political relationship this volume emphasizes the nature and status of the and in the subjectivity and the political schema By thinking from the place between subjectivity and the political it is able to explore this relationship from a multitude of perspectives directions and thinkers to show the heterogeneity openness and contested nature of it While the contributions deal with different themes or thinkers the themes thinkers are linked historically and or conceptually thereby providing coherence to the volume Thinkers addressed include Arendt Butler Levinas Agamben Derrida Kristeva Adorno Gramsci Mill Hegel and Heidegger while the subjectivity political relation is engaged with through the mediation of the law political ethics politics theological political inside outside subject person and individual institution relationships as well as through concepts such as genius happiness abjection and ugliness The original essays in this volume will be of interest to researchers in philosophy politics political theory critical theory cultural studies history of ideas psychology and sociology

Citizenship Antonino Palumbo, 2017-03-02 Interest in citizenship has never been greater Politicians of all stripes stress its importance as do church leaders captains of industry and every kind of campaigning group Yet despite this popularity the nature and even the very possibility of citizenship has never been more contested Is citizenship intrinsically linked to political participation or is it essentially a legal status Does it require membership of a state or is it only post national trans and possibly supra national Is it a universal value that should be the same for all or does it need to recognise gender and cultural differences This volume reproduces key articles on these debates from classic accounts of the historical development of citizenship to discussions of its contemporary relevance and possible forms in a globalizing world

Democracy and the Death of Shame Jill Locke, 2016-04 Is shame dead With personal information made so widely available an eroding public private distinction and a therapeutic turn in public discourse many seem to think so People across the political spectrum have criticized these developments and sought to resurrect shame in order to protect privacy and invigorate democratic politics *Democracy and the Death of Shame* reads the fear that shame is dead as an expression of anxiety about the social disturbance endemic to democratic politics Far from an essential supplement to democracy the recurring call to bring back shame and other civilizing mores is a disciplinary reaction to the work of democratic citizens who extend the meaning of political equality into social realms Rereadings from the ancient Cynics to the mid twentieth century challenge the view that shame is dead and show how shame as a politically charged idea is disavowed invoked and negotiated in moments of democratic struggle
