Mexico at the World's Fairs Mauricio Tenorio-Trillo, 2024-06-12 This intriguing study of Mexico's participation in world's fairs from 1889 to 1929 explores Mexico's self-presentation at these fairs as a reflection of the country's drive toward nationalization and a modernized image. Mauricio Tenorio Trillo contrasts Mexico's presence at the 1889 Paris fair where its display was the largest and most expensive Mexico has ever mounted with Mexico's presence after the 1910 Mexican Revolution at fairs in Rio de Janeiro in 1922 and Seville in 1929. Rather than seeing the revolution as a sharp break, Tenorio Trillo points to important continuities between the pre and post-revolution periods. He also discusses how internationally the character of world's fairs was radically transformed during this time from the Eiffel Tower prototype encapsulating a wondrous symbolic universe to the Disneyland model of commodified entertainment. Drawing on cultural, intellectual, urban, literary, social, and art histories, Tenorio Trillo's thorough and imaginative study presents a broad cultural history of Mexico from 1880 to 1930 set within the context of the origins of Western nationalism, cosmopolitanism, and modernism. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. The International Relations of California and Texas with Mexico and the World Jorge A. Schiavon, Rafael Fernández de Castro, 2023-05-31 This book analyzes the international relations of Mexico and the two most important sub-state governments of the United States, California and Texas. It explains why and how these two states conduct their international relations (IR) with Mexico and the world and how national authorities and local governments coordinate in the definition and implementation of their international policies. Expert contributors from across the Americas offer a historical and current analysis exploring which areas of cooperation—trade, investment, border cooperation, energy, migration, matter most. They also consider the institutional and legal bases of Mexican and U.S. states' international relations, the changing nature of the U.S. federal system, the impact on international partners, the role of Latinos, and the future of paradiplomacy in the region. The book will be of interest to scholars and students of International Relations, comparative politics, diplomacy, foreign policy, governance, and federalism, as well as business people, social leaders, and practitioners of diplomacy and paradiplomacy around the world.

Mexico's trade Affairs, NAFTA, FTAA, Doha Round Gerda Frentz, 2007-03-02 Essay from the year 2006 in the subject Economics International Economic Relations grade 2 0 Tecnológico de Monterrey course International Political Economy language English abstract The North American Free Trade Agreement is an agreement between Mexico Canada and the USA which is based on the principles of the European Union It was established in January 1 1994 and has the purpose to lower trading barriers as much as possible to reach a more fluent international trade which means more gains from trade for each of the countries Even though the three countries are neighbors it is remarkable that two first world countries and the third e g second world country Mexico are responsive to such a close agreement One wonders how the interaction between those countries works Indicators for poverty in Mexico are for example that in 2002 half of the population in Mexico was living in poverty and one fifth in extreme poverty As we can see by taking a closer look to their GDP as an indicator for their financial and economic situations we recognize large differences between the two richer countries and Mexico which of course does not belong to the poorest of the poor but still does not take in one of the first places in the world rank **Mexico Labor**
