Dispatches as New Journalism Michael Herr's Dispatches is the work of a war correspondent but it is not journalism in the ordinary sense of the word i.e. an objective detached reporting of the facts Instead it is a work of the so called New Journalism a hybrid form that in typical postmodern fashion blurs traditional genre distinctions The New Journalism abandons all pretense of impersonal objectivity instead an intense substituting subjectivity that also employs such devices of fiction as characterization flashbacks and interior monologue Carpenter 36-37 This term paper deals with the depiction of the Vietnam War in Dispatches and Things with a special focus on the depiction of violence and the everyday life of the soldiers Because of the fact that the books are different in style and narrative transmission I will put briefly some emphasis on those aspects in the beginning 1-2 Thesis statement Both writers depict the war without moral purposes showing as well the negative features of the war death terror fear brutalization deadening Inventing Vietnam Michael A. Anderegg, 1991

Friendly Fire : American Images of the Vietnam War Riverside Katherine Kinney Associate Professor of English University of California, 2000-10-09 Hundreds of memoirs novels plays and movies have been devoted to the American war in Vietnam In spite of the great variety of mediums political perspectives and the degrees of seriousness with which the war has been treated Katherine Kinney argues that the vast majority of these works share a single story that of Americans killing Americans in Vietnam Friendly Fire in this instance refers not merely to a tragic error of war it also refers to America's war with itself during the Vietnam years Starting from this point this book considers the concept of friendly fire from multiple vantage points and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered pitting soldiers against superiors doves against hawks feminism against patriarchy racial fear against racial tolerance Through the use of extensive evidence from the film and popular fiction of Vietnam i.e. Kovic's Born on the Fourth of July Didion's Democracy O'Brien's Going After Cacciato Rabe's Sticks and Bones and Streamers Kinney draws a powerful picture of a nation politically culturally and socially divided and a war that has been memorialized as a contested site of art media politics and ideology

Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 Combat Death in Contemporary American Culture Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

Beidler also implies much about the state of literacy in our country today Featured are bona fide 1960s classics ranging from Kahlil Gibran's The Prophet and Kurt Vonnegut's Slaughterhouse-Five to Carlos Castaneda's The Teachings of Don Juan and the Boston Women's Health Book Collective's Our Bodies Ourselves Represented as well are such works of revered elders as Hermann Hesse's Steppenwolf and Henry David Thoreau's Walden Beidler's coverage also extends to works of the early 1970s that are textual and spiritual extensions of the 1960s the Portola Institute's Last Whole Earth Catalog Annie Dillard's Pilgrim at Tinker Creek Robert Pirsig's Zen and the

 Despite the vast body of texts inspired by warfare from The Iliad to Maus war writing is perpetually haunted by the notions of unrepresentability and inadequacy War and Words examines the methods conventions and pitfalls of constructing verbal accounts of military conflict in literature and the media This multifocal study draws on a wide array of theoretical perspectives including feminism posthumanism masculinity trauma spatiality and media studies and brings together such diverse material as canonical literature war veterans testimonies imaginative fiction computer games English curricula and Al Qaeda s propaganda pieces In five consecutive sections Spreading War Propaganda Reconstructing War Spaces Envisioning War Gendering War and Teaching War the contributors consider war in its manifold aspects as an ideological tool used for propaganda purposes as a spatial reconstruction performed for the critical reassessment of past conflicts as a projection or extrapolation of possible future conflicts and their social repercussions as a political statement to deconstruct the oppressive nature of violence and finally as a didactic tool to foster empathy This collection will appeal primarily to academics specialising in English and American literature but also to those researching media gender and game studies

The Errant Art of Moby-Dick William V. Spanos, 1995 In The Errant Art of Moby Dick one of America s most distinguished critics reexamines Melville s monumental novel and turns the occasion into a meditation on the history and implications of canon formation In Moby Dick a work virtually ignored and discredited at the time of its publication William V Spanos uncovers a text remarkably suited as a foundation for a New Americanist critique of the ideology based on Puritan origins that was codified in the canon established by Old Americanist critics from F O Matthiessen to Lionel Trilling But Spanos also shows with the novel still as his focus the limitations of this New Americanist discourse and its failure to escape the totalizing imperial perspective it finds in its predecessor Combining Heideggerian ontology with a sociopolitical perspective derived primarily from Foucault the reading of Moby Dick that forms the center of this book demonstrates that the traditional identification of Melville s novel as a romance renders it complicitous in the discourse of the Cold War At the same time Spanos shows how New Americanist criticism overlooks the degree to which Moby Dick anticipates not only America s self representation as the savior of the world against communism but also the emergent postmodern and anti imperial discourse deployed against such an image Spanos s critique reveals the extraordinary relevance of Melville s novel as a post Cold War text foreshadowing not only the self destructive end of the historical formation of the American cultural identity in the genocidal assault on Vietnam but also the reactionary labeling of the current era as the end of history This provocative and challenging study presents not only a new view of the development of literary history in the United States but a devastating critique of the genealogy of ideology in the American cultural establishment *Legacy* D. Fictional Worlds and the Political Imagination Garry L. Hagberg, 2024-05-21 There has been a steady stream of articles written on the relations between political thought and the interpretation of literature but there remains a need for a book that both introduces and significantly contributes to the field particularly one that shows in detail how we can think more freely and creatively about political possibilities by reading and reflecting on politically significant literature This volume offers analytically acute and culturally rich ways of understanding how it is that we can productively think philosophically about political literature and what kind of distinctive conceptual progress we can make by doing so Given the extremely widespread interest in political issues this volume will strike resonant chords far and wide while offering something that has not been done quite in this way and for which the time certainly seems right
