*Intermediate Microeconomics* Robert Mochrie,2017-09-16 This innovative textbook contains everything students need to know on an intermediate microeconomics course Combining classic theory and models with the latest developments it gently

guides learners through the topics and helps them to become increasingly independent Mathematical understanding is a crucial part of mastering the subject but can be tricky to obtain Consequently numerical tools and engaging exercises are expertly woven into the broader conceptual discussion of economic theory This process is progressive and incremental with steps explained in great detail in the opening chapters to help students gain mathematical fluency and confidence A microeconomics textbook that is essential reading for any intermediate level course at university Although primarily aimed at two semester undergraduate modules the comprehensive and accessible writing style means that it is also suitable for certain postgraduate and one semester courses The author provides helpful notes on how to adapt the book to your course

*Liability for Antitrust Law Infringements & Protection of IP Rights in Distribution* Pranvera Këllezi, Bruce Kilpatrick, Pierre Kobel, 2019-07-05 This book gathers international and national reports from across the globe on key questions in the field of antitrust and intellectual property The first part discusses the allocation of liability for infringement of antitrust laws between corporations and individuals The book explores the criminal or administrative sanctions available against corporations companies or group of companies and individuals such as employees or directors A detailed international report explores the major trends and challenges in this field and provides an excellent comparative study of this complex and challenging subject The second part examines whether intellectual property rights are sufficiently protected to ensure a fair return on investments made by manufacturers and distributors This question comes at a time where distribution is facing deep and radical changes with the Internet To what extent this is an opportunity or a threat to the sustainability of distribution systems of differentiated and IP protected goods is the question This book brings together the current legal responses across a number of European countries and elsewhere in the world all summarised and elaborated in an international report The book also includes the resolutions passed by the General Assembly of the International League of Competition Law LIDC following a debate on each of these topics which include proposed solutions and recommendations The LIDC is a long standing international association that focuses on the interface between competition law and intellectual property law including unfair competition issues

**The Political Economy of Underdevelopment in Sub-Saharan Africa** Christopher E.S. Warburton, 2024-10-14 This book provides a unique combination of history politics and economics to rationalize the progression of underdevelopment in Sierra Leone and the challenges of economic growth and development confronting some Sub Saharan African countries It concisely presents the internal frictions that are most responsible for the underdevelopment of Sierra Leonean since 1961 while also benchmarking the performance of the country with some countries in the subregion Europe the US Latin America and Asia It highlights the external threats that are highly capable of stifling the economic growth and sustainable development of the country including sovereign debt the paucity of human capital the use of natural resources and external shocks The central concepts of analysis include the premise for underdevelopment contexts for business strategies and rivalry in an underdeveloped economy economic growth productivity

sustainable development international trade and threats to macroeconomic stability in the form of volatile commodity prices loss of competitiveness inaccessible foreign markets deficient healthcare infrastructure the cost of unsustainable sovereign debt and the viability of long term investments The book has been intentionally developed for all those who are strongly interested in the political economy of Sub Saharan Africa with particular emphasis on Sierra Leone empirical work on economic growth and development academic instruction on international political economy international organizations and policymakers      *Complications and Quandaries in the ICT Sector* Ashish Bharadwaj,Vishwas H. Devaiah,Indranath Gupta,2017-10-27 This book is open access under a CC BY 4.0 license With technology standards becoming increasingly common particularly in the information and communications technology ICT sector the complexities and contradictions at the interface of intellectual property law and competition law have emerged strongly This book talks about how the regulatory agencies and courts in the United States European Union and India are dealing with the rising allegations of anti competitive behaviour by standard essential patent SEP holders It also discusses the role of standards setting organizations standards developing organizations SSO SDO and the various players involved in implementing the standards that influence practices and internal dynamics in the ICT sector This book includes discussions on fair reasonable and non discriminatory FRAND licensing terms and the complexities that arise when both licensors and licensees of SEPs differ on what they mean by fair reasonable and non discriminatory terms It also addresses topics such as the appropriate royalty base calculation of FRAND rates and concerns related to FRAND commitments and the role of Federal Trade Commission FTC in collaborative standard setting process This book provides a wide range of valuable information and is a useful tool for graduate students academics and researchers      Managing Risk and Uncertainty Richard Friberg,2015-11-27 A comprehensive framework for assessing strategies for managing risk and uncertainty integrating theory and practice and synthesizing insights from many fields This book offers a framework for making decisions under risk and uncertainty Synthesizing research from economics finance decision theory management and other fields the book provides a set of tools and a way of thinking that determines the relative merits of different strategies It takes as its premise that we make better decisions if we use the whole toolkit of economics and related fields to inform our decision making The text explores the distinction between risk and uncertainty and covers standard models of decision making under risk as well as more recent work on decision making under uncertainty with a particular focus on strategic interaction It also examines the implications of incomplete markets for managing under uncertainty It presents four core strategies a benchmark strategy proceeding as if risk and uncertainty were low a financial hedging strategy valuable if there is much risk an operational hedging strategy valuable for conditions of much uncertainty and a flexible strategy valuable if there is much risk and or uncertainty The book then examines various aspects of these strategies in greater depth building on empirical work in several different fields Topics include price setting real options and Monte Carlo techniques organizational structure and behavioral biases Many chapters include exercises and appendixes with

additional material The book can be used in graduate or advanced undergraduate courses in risk management as a guide for researchers or as a reference for management practitioners      *Measuring Business Interruption Losses and Other Commercial Damages* Patrick A. Gaughan, 2020-06-23 Measure business interruption losses with confidence You hope for the best and plan for the worst It's your job But when the unimaginable happens are you truly prepared for those business interruption losses *Measuring Business Interruption Losses and Other Commercial Damages* is the only book in the field that explains the complicated process of measuring business interruption damages after you've been hit by the unexpected whether the losses are from natural or man-made disasters or whether the performance of one company adversely affects the performance of another Understand the methodology for how lost profits should be measured Deal with the many common types of cases in business interruption lawsuits in commercial litigation Take a look at exhibits tables and graphs Benefit from updated data case studies and case law references Don't get caught off guard Get ahead of planning for measuring your interruption losses before disaster strikes      **Game Theory and Public Policy, SECOND EDITION** Roger A. McCain, 2015-12-18 This book provides a critical selective review of concepts from game theory and their applications in public policy and further suggests some modifications for some of the models chiefly in cooperative game theory to improve their applicability to economics and public policy      *Public Finance and Public Policy* Jonathan Gruber, 2015-12-16 Jonathan Gruber's market-leading *Public Finance and Public Policy* was the first textbook to truly reflect the way public policy is created implemented and researched Like no other text available it integrated real-world empirical work and coverage of transfer programs and social insurance into the traditional topics of public finance By augmenting the traditional approach of public finance texts with a true integration of theory application and evidence *Public Finance and Public Policy* engages students like no other public finance text Thoroughly updated this timely new edition gives students the basic tools they need to understand the driving issues of public policy today including healthcare education global climate change entitlements and more      *A Problem of Fit* Phillip B. Levine, 2022-04-22 A critical examination of the complex system of college pricing how it works how it fails and how fixing it can help both students and universities How much does it cost to attend college in the United States today The answer is more complex than many realize College websites advertise a sticker price but uncovering the actual price the one after incorporating financial aid can be difficult for students and families This inherent uncertainty leads some students to forgo applying to colleges that would be the best fit for them or even not attend college at all The result is that millions of promising young people may lose out on one of society's greatest opportunities for social mobility Colleges suffer too losing prospective students and seeing lower enrollments and less socioeconomic diversity If markets require prices to function well then the American higher education system rife as it is with ambiguity in its pricing amounts to a market failure In *A Problem of Fit* economist Phillip B. Levine explains why institutions charge the prices they do and discusses the role of financial aid systems in facilitating and discouraging access to college Affordability issues are real but

price transparency is also part of the problem As Levine makes clear our conversations around affordability and free tuition miss a larger truth that the opacity of our current college financing systems is a primary driver of inequities in education and society In a clear eyed assessment of educational access and aid in a post COVID 19 economy A Problem of Fit offers a trenchant new argument for educational reforms that are well within reach Commutative Justice Carl David Mildenerger,2020-02-17 This book develops a liberal theory of justice in exchange It identifies the conditions that market exchanges need to fulfill to be just It also addresses head on a consequentialist challenge to existing theories of exchange namely that in light of new harms faced at the global level we need to consider the combined consequences of millions of market exchanges to reach a final judgment about whether some individual exchange is just The author argues that even if we accept this challenge the effect of it is minimal For different reasons normatively problematic collective market outcomes like externalities monopolies violations of the Lockean proviso inequality and commodification do not pose particular problems to the justice of market exchanges He outlines the various conditions a market exchange needs to fulfill to be considered just from a liberal background and in light of the new harms Ultimately he shows it is not the market which is to blame if we want to tackle issues like global warming or global economic injustice we should not blindly follow the intuition that we best restrain and regulate markets Commutative Justice is unique in its focus on justice in exchange rather than on end state distributive justice and the way in which it addresses the new harms we are facing today It will be of interest to researchers and advanced students in philosophy politics and economics who are working on questions of economic justice

**Microeconomics 2e & Launchpad for Goolsbee's Microeconomics 2e (Six Month Access)** Austan Goolsbee,Chad Syverson,2016-06-15 *State and Local Public Finance* Ronald C. Fisher,2018-09-03 Now in its 4th edition State and Local Public Finance provides a comprehensive and sophisticated analysis of state and local government public finance practices and issues using the basic tools of economics For this new edition there is a focus on the most important services provided in the state local sector education health and welfare public safety and transportation This textbook provides an examination and analysis of public finance practices and problems in a federal fiscal system focusing on the fiscal behaviour and policies of state and local governments The author presents detailed descriptions of significant institutions Modern economic theory is applied to examine the way these institutions are used to produce and finance services and to provide evaluation of alternative policies Although the emphasis is on U S institutions and issues much of the economic analysis can be applied to any federal system or to fiscal decentralization This fully revised new edition sees updates throughout to data topics and applications The Headlines and Applications sections reflect the most current policy issues affecting state and local governments These include the effects of the Great Recession on state and local governments changes in the tax treatment of internet purchases the Affordable Care Act and implications for Medicaid spending by state governments demographic changes and the implications for state local finances the implications of changes in automobile technology for transportation

financing and the potential for increased gambling activity This text will continue to be invaluable reading for those who study public finance local government finance urban economics and public policy and public administration     **Loose-Leaf Version for Microeconomics 2e & Launchpad for Goolsbee's Microeconomics 2e (Six Month Access)** Austan Goolsbee, Chad Syverson, Steven Levitt, D., 2016-05-05
