An Introduction to Cultural Ecology Mark Q. Sutton,E. N. Anderson,2020-08-26 This contemporary introduction to the principles and research base of cultural ecology is the ideal textbook for advanced undergraduate and beginning graduate courses that deal with the intersection of humans and the environment in traditional societies After introducing the basic principles of cultural anthropology environmental studies and human biological adaptations to the environment the book provides a thorough discussion of the history of and theoretical basis behind cultural ecology The bulk of the book outlines the broad economic strategies used by traditional cultures hunting gathering horticulture pastoralism and agriculture Fully explicated with cases illustrations and charts on topics as diverse as salmon ceremonies among Northwest Indians contemporary Maya agriculture and the sacred groves in southern China this book gives a global view of these strategies An important emphasis in this text is on the nature of contemporary ecological issues how peoples worldwide adapt to them and what the Western world can learn from their experiences A perfect text for courses in anthropology environmental studies and sociology

George Seddon George Seddon,2019-10-14 One of Australia s most revered environmental scholars and its most distinguished landscape essayist George Seddon was renowned for championing a sense of place giving that phrase a uniquely Australian substance He was a connoisseur of landscapes from the rugged Snowy Mountains to the humble domestic backyard With wit and deep knowledge he radically

rethought our relationship with the environment considering everything from water to mining suburbs to wilderness Seddon was an extraordinary polymath a professor of geology the history and philosophy of science and environmental science who also taught in departments of English and philosophy He broke new ground in urban planning landscape architecture and environmental conservation The highlights of his wide ranging and always illuminating work are selected here by Andrea Gaynor with a lively introduction by historian Tom Griffiths Seddon s vision has enduring significance today he made life better planners more thoughtful and landscapes more beautiful he helped us see our country from the inside He was a maverick an original In his boyish way he encouraged us to wag school from time to time to climb fences to play and to challenge what we read with what we feel hear and see Tom Griffiths George Seddon s words are beacons Tim Flannery

Edible Insects and Human Evolution Julie J. Lesnik, 2019-02-13 Edible Insects and Human Evolution investigates insects in the human diet from an evolutionary perspective This book argues that insects were just as important as meat in the past and that today they offer a sustainable alternative to meat
