Old Sparky The Electric Chair And The History Of The Death Penalty:

Old Sparky Anthony Galvin, 2016-10-18 A shocking exploration of America's preferred method of capital punishment. In early 2013 Robert Gleason became the latest victim of the electric chair, a peculiarly American execution method. Shouting "F--- you motherf---ers!" in Kiss my ass in Gaelic, he grinned as electricity shot through his system. When the current was switched off, his body slumped against the leather restraints, and Gleason, who had strangled two fellow inmates to ensure his execution was not postponed, was dead. The execution had gone flawlessly, not a guaranteed result with the electric chair, which has gone horrifically wrong on many occasions. **Old Sparky** covers the history of capital punishment in America and the current wars between Edison and Westinghouse that led to the development of the electric chair. It examines how the electric chair became the most popular method of execution in America before being superseded by lethal injection. Famous executions are explored alongside quirky last meals and poignant last words. The death penalty remains a hot topic of debate in America, and **Old Sparky** does not shy away from that controversy. Executions have gone spectacularly wrong, with convicts being set alight or needing up to five jolts of electricity before dying. There have been terrible miscarriages of justice, and the death penalty has not been applied even-handedly. Historically, African Americans, the mentally challenged, and poor defendants have been likely to get the chair, an anomaly which led the Supreme Court to briefly suspend the death penalty. Since the resumption of capital punishment in 1976, Texas alone has executed more than five hundred prisoners, and death row is full. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history, books about World War II, the Third Reich, Hitler, and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home. **Deadly Justice** Frank R. Baumgartner, Marty Davidson, Kaneesha R. Johnson, Arvind Krishnamurthy, 2018 Forty years and 1,400 executions after the U.S. Supreme Court ruled the death penalty constitutional, eminent political scientist Frank Baumgartner and a team of younger scholars have collaborated to assess the empirical record and provide a definitive account of how the death penalty has been implemented. **A Statistical Portrait of the Death Penalty** shows that all the flaws that caused the Supreme Court to invalidate the death penalty in 1972 remain, and indeed that new problems have arisen. Far from perfecting the mechanism of death, the modern system has failed. **Capital Punishment** Duchess Harris, Valerie Bodden, 2019-08-01 **Capital Punishment** examines all aspects of capital punishment in the United States. It discusses the history behind the death penalty in the United States and varying opinions about the ethics of capital punishment. Features include a glossary, further readings, websites, source notes, and an index. Aligned to Common Core Standards and correlated to state standards. Essential Library is an imprint of Abdo Publishing, a division of ABDO. **The Electric Chair** Craig Brandon, 2016-03-03 This book provides a history of the

electric chair and analyzes its features its development and the manner of its use Chapters cover the early conceptual stages as a humane alternative to hanging and the rivalry between Edison and Westinghouse that was one of the main forces in the chair's adoption as a mode of execution Also presented are an account of the terrible first execution and a number of the subsequent gruesome employments of the chair The text explores the changing attitudes toward the chair as state after state replaced it with lethal injection The Death Penalty in American Cinema Yvonne Kozlovsky-Golan, Yvonne

Koslovsky-Golan, 2014-04-04 Killing as punishment in the USA whether ordained by lynch mob or by the courts reflects a paradox of the American nation liberal pluralistic yet prone to lethal violence This book examines the encounter between the legal history of the death penalty in America and its cinematic representations through a comprehensive narrative and historical view of films dealing with this genre from the silent era to the present It addresses central issues including racial prejudice and attitudes towards the execution of women and discusses how cinema has chosen to deal with them It explores how such films as Michael Curtiz's 20 000 Years in Sing Sing and Fritz Lang's The Fury Errol Morris's documentary The Thin Blue Line John Singleton's Rosewood and Frank Darabont's death row movie The Green Mile have helped to shape real historical developments and public perceptions by bringing into sharper relief the legal social and cultural tensions associated with capital punishment In the process Yvonne Kozlovsky-Golan provides the reader with a superb understanding of the complexities of the death penalty through US history *Spark* Timothy J. examines the link between two pivotal intellectual and artistic figures It probes the degree to which the transcendentalist author influenced the architect s campaign against dominant strains of American thought Inspired by Emerson s writings on the need to align exterior expression with interior self Wright believed that architecture was not first and foremost a matter of accommodating spatial needs but a tool to restore intellectual and artistic freedom too often lost in the process of modernization Ayad Rahmani shows that Emerson s writings provide an avenue for interpreting Wright s complex approach to country and architecture The two thinkers cohered around a common concern for a nation derailed by nefarious forces that jeopardized the country s original promise In Emerson s condemnations of slavery and inequality Wright found inspiration for seeking redress against the humiliations suffered by the modern worker be it at the hands of an industrial manager or an office boss His designs sought to challenge dehumanizing labor practices and open minds to the beauty and science of agriculture and the natural world Emerson s example helped Wright develop architecture that aimed less at accommodating a culture of clients and more at raising national historical awareness while also arguing for humane and equitable policies Frank Lloyd Wright and Ralph Waldo Emerson presents a new approach to two vital thinkers whose impact on American society remains relevant to this day **The International Sourcebook on Capital Punishment** Center for Capital Punishment Studies, London,1997 An indispensable reference and research tool for capital punishment scholars
