Johnson, 2017-07-27 The T T Clark Companion to Atonement establishes a vision for the doctrine of the atonement as a unified yet extraordinarily rich event calling for the church's full appropriation Most edited volumes on this doctrine focus on one aspect of the work of Christ for example Girard Feminist thought Penal Substitution or divine violence The Companion is unique in that every essay seeks to both appropriate and stimulate the church's understanding of the manifold nature of Christ's death and resurrection The essays are divided into four main sections 1 dogmatic location 2 chapters on the Old and New Testaments 3 major theologians and 4 contemporary developments The first set of essays explore the inter relationship between the atonement and other Christian doctrines for example Trinity Christology and Pneumatology opening up yet further avenues of inquiry Essays on key theologians eschew reductionism striving to bring out the nuances and breadth of the contribution The same is true of the biblical essays The final section explores more recent developments within the doctrine for example the work of Rene Girard and the ongoing reflection on Holy Saturday The book is comprised of 18 major essays and an A Z section containing shorter dictionary length entries on a much broader range of topics The result is a combination of in depth analysis and breadth of scope making this a benchmark work for further studies in the doctrine

A New Introduction to Theology Richard Bourne, Imogen Adkins, 2020-09-17 Encountering theology for the first time is exciting but it can also be daunting Some struggle to connect with doctrinal discussion they perceive to be abstract or abstruse Others may find the scope of theology and the connections between different theological issues dizzying In order to address these difficulties and keep the initial excitement alive A New Introduction to Theology offers a range of accessible practical experiential and interactive encounters with the major elements of academic Christian theology The guiding motif of this book is the claim that theology is full bodied thought The phrase full bodied shows both the richness of the experience of theology and its nature as a thoroughly embodied encounter with ways of knowing God and God's ways with the world This motif allows the authors to bring together topics ranging from theology through the arts sexuality and the body and the nature of the church's everyday life to mystical theology spirituality political action and ecology Working imaginatively with the five senses and the notions of loving and resting each chapter provides a range of activities guided discussions and reflections on key theological texts authors and issues This is a unique introduction to the key innovative and interdisciplinary elements from contemporary theology ideal for individual reflection classroom work or flexible and distributed learning

Patience—A Theological Exploration Paul Dafydd Jones, 2022-11-17 What does it mean to exercise patience What does it mean to endure to wait and to persevere and on other occasions to reject patience in favor of resistance haste and disruptive action And what might it

mean to describe God as patient Might patience play a leading role in a Christian account of God's creative work God's relationship to ancient Israel God's governance of history and God's saving activity The first instalment of *Patience A Theological Exploration* engages these questions in searching imaginative and sometimes surprising ways Following reflections on the biblical witness and the nature of constructive theological inquiry its interpretative chapters engage landmark works by a number of ancient medieval modern and contemporary authors disclosing both the promise and peril of talk about patience *Patience* stands at the center of this innovative account of God's creative work God's relationship with ancient Israel creaturely sin scripture and God's broader providential and salvific purposes *Body Parts* Michelle Voss Roberts, 2017-12-01 Christians have traditionally claimed that humans are created in the image of God *imago Dei* but they have consistently defined that image in ways that exclude people from full humanity The most well known definition locates the image in the rational soul which is constructed in such a way that women children and many persons with disabilities are found deficient *Body Parts* claims the importance of embodiment difference and limitation not only as descriptions of the human condition but also as part of the *imago Dei* itself *Saying Yes to Life* Ruth Valerio, 2019-12-19 Ruth Valerio's book is perfect for individuals and groups to think reflect pray and be challenged together JUSTIN WELBY from the Foreword An arresting and thought provoking book brilliantly conceived by turns beautiful and sobering encouraging and challenging PETE WILCOX BISHOP OF SHEFFIELD *Saying Yes to Life* originally published as the Archbishop of Canterbury's Lent Book 2020 lifts our focus from natural everyday concerns to issues that are having an impact on millions of lives around the world As people made in the image of God we are entrusted to look after what he has created to share in God's joy and ingenuity in making a difference for good Ruth Valerio imaginatively draws on the Days of Creation Genesis 1 as she relates themes of light water land the seasons other creatures humankind Sabbath rest and resurrection hope to matters of environmental ethical and social concern Foundational to *Saying Yes to Life* is what it means to be human and in particular to be a follower of Jesus Voices from around the world are heard throughout and each chapter ends with discussion questions and a prayer to aid action and contemplation **T&T Clark Handbook of Analytic Theology** James M. Arcadi, James T. Turner, 2021-01-28 This handbook provides theological and philosophical resources that demonstrate analytic theology's unique contribution to the task of theology Analytic theology is a recent movement at the nexus of theology biblical studies and philosophy that marshals resources from the analytic philosophical tradition for constructive theological work Paying attention to the Christian tradition the development of doctrine and solid biblical studies analytic theology prizes clarity brevity and logical rigour in its exposition of Christian teaching Each contribution in this volume offers an overview of specific doctrinal and dogmatic issues within the Christian tradition and provides a constructive conceptual model for making sense of the doctrine Additionally an extensive bibliography serves as a valuable resource for researchers wishing to address issues in theology from an analytic perspective **T&T Clark Handbook of Suffering and the Problem of Evil** Matthias Grebe, Johannes

Grössl,2023-07-13 This wide ranging work provides an extensive exploration of the theology of theodicy asking questions such as should all instances of suffering necessarily be understood as evil Why would an omnipotent and benevolent God allow or perpetrate evil Is God unable or unwilling to reduce human and non human suffering on Earth Does humanity have the capacity to exercise a moral evaluation of God s motives and intentions Conventional disciplinary boundaries have tended to separate theological approaches to these questions from philosophical ones This volume aims to overcome these boundaries by including biblical Part I historical Part II doctrinal Part III philosophical Part IV and pastoral interreligious perspectives and alternative intersections Part V on theodicy Authors include thinkers from analytic and continental traditions multiple Christian denominations and other religions and both established and younger scholars providing a full variety of approaches What unites the essays is an attempt to answer these questions from the perspective of biblical testimony historical scholarship modern theological and philosophical thinking about the concept of God non Christian religions science and the arts The result is a combination of in depth analysis and breadth of scope making this a benchmark work for further studies in the theology of suffering and evil **The Routledge Handbook of Vegan Studies** Laura

Wright,2021-03-30 This wide ranging volume explores the tension between the dietary practice of veganism and the manifestation construction and representation of a vegan identity in today s society Emerging in the early 21st century vegan studies is distinct from more familiar conceptions of animal studies an umbrella term for a three pronged field that gained prominence in the late 1990s and early 2000s consisting of critical animal studies human animal studies and posthumanism While veganism is a consideration of these modes of inquiry it is a decidedly different entity an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience The Routledge Handbook of Vegan Studies is the must have reference for the important topics problems and key debates in the subject area and is the first of its kind Comprising over 30 chapters by a team of international contributors this handbook is divided into five parts History of vegan studies Vegan studies in the disciplines Theoretical intersections Contemporary media entanglements Veganism around the world These sections contextualize veganism beyond its status as a dietary choice situating veganism within broader social ethical legal theoretical and artistic discourses This book will be essential reading for students and researchers of vegan studies animal studies and environmental ethics The Palgrave Handbook on the Problem of Animal

Suffering in the Philosophy of Religion B. Kyle Keltz,2025-07-28 Atheists argue that animal pain disease suffering and death cause a problem for theism because they believe that an all knowing all powerful and all good God would not use millions of years of animal suffering just to make a world suitable for humans Animal suffering was not a concern for theism through the medieval period but it has been increasingly discussed in philosophy of religion since modern times and there is especially a large and growing amount of literature on this subject that has been published in the last few decades This handbook serves as a guide for those interested in the literature on the problem by bringing together experts in the philosophy of religion

theology environmental ethics and the philosophy of animal minds It not only presents major formulations of the problem of animal suffering and major theodicies but it also discusses metaethical issues regarding animal suffering the question of animal consciousness and self awareness and their implications for animal suffering and what implications available theodicies might have for animal ethics Doing Asian American Theology Daniel D. Lee,2022-11-29 With insights from interpersonal neurobiology and trauma theory Daniel D Lee s theological methodology and vocabulary which incorporates the need for personal integration and communal journey offers a process of integration and reconciliation for Asian American theologies in service of Asian American communities of every kind Encountering Earth Trevor George Hunsberger Bechtel,Matt Eaton,Tim Harvie,2018-05-14 One day Matthew Eaton was walking through an impromptu animal shelter display at his local pet store when suddenly an eight month old kitten dug his claws into Eaton s flesh Eaton recognized that the eyes of this cat and the curve of his claw compelled a response analogous to those found in the writings of Buber Levinas and Derrida And not just Eaton but a whole community of theologians have found themselves in an encounter with particular places and animals that demands rich theological reflection Eaton enlisted fellow editors Harvie and Bechtel to collect the essays in this volume in which theologians listen to horses rats snakes cats dogs and the earth itself who become new theological voices demanding a response In this volume the voice of the more than human world is heard as making theology possible These essays suggest that what we say theologically represents not simply ideas of our own making subsequently superimposed onto the natural world through our own discovery but rather flow from an expressive Earth **Theological Ethics Through a Multispecies Lens** Celia Deane-Drummond,2019 This book is the first volume on the evolution of wisdom Using a combination of ethnographic and ethological studies it shows how key moral attributes of compassion justice and wisdom are woven into relationships with animals Reformed Humanism David Fergusson,2024-05-30 The volume comprises a collection of essays ordered in three parts each of which describes broadly the sub fields of theology to which these belong The essays tackle core themes in Christian doctrine the longstanding relationship of theology to philosophy and a series of challenges facing churches today While the volume represents a Reformed theological approach often with a historical focus it self consciously reflects an ecumenical and critical perspective The term humanism reflects an openness to insight understanding and correction from different fields of knowledge while its Reformed designation positions the work within a recognized theological tradition though seeking to avoid imprisonment by it A further feature of the collection is its attempt to overcome the curricular divisions between systematic theology Christian ethics and practical theology The third section in particular deal with issues in social ethics theological aesthetics the place of the church in a secular culture and the role of theology in the university **Meaningful Flesh** Whitney Bauman,2018 Religion is much queerer than we ever imagined Nature is as well These are the two basic insights that have led to this volume the authors included here hope to queerly go where no thinkers have gone before The combination of queer theory and religion has been happening for at least

25 years People such as John Boswell began to examine the history of religious traditions with a queer eye and soon after we had the indecent theology of Marcella Althaus Ried Jay Johnston one of the authors in this issue is among those who have used the queer eye to interrogate authority within Christian theological traditions At the same time there have been many queer interrogations of nature perhaps most notably in the works of Joan Roughgarden and Ann Fausto Sterling and more recently in the works of Catriona Sandilands and Timothy Morton an author in this volume However the intersections of religion nature and queer theory have been largely left untouched With the exception of Dan Spencer who writes the introduction for this volume and is one of the early pioneers in this realm of thought with his book *Gay and Gaia* Pilgrim Press 1996 and the work of Greta Gaard in developing a queer ecofeminist thought religion and nature or religion and ecology have largely ignored the realm of queer theory In part the blinders to queer theory on the part of eco thinkers religious or otherwise are similar to the blinders eco thinkers have when it comes to postmodern thought in general namely if there are no absolute foundations how does one create an environmental ethic and a nature to save For this reason and many others this volume on religion nature and queer theory is groundbreaking Though these essays span many different disciplines and themes they are all held together by the triple focus on religion nature and queer theory Each of these essays offers a unique contribution to the intersection of religion nature and queer theory and all of them challenge strict boundaries proposed in religious rhetoric and many discourses surrounding nature Carol Wayne White s essay draws from a queer reading of James Baldwin to develop an African American religious naturalism which highlights humans as polyamorous bastards Jacob Erickson s essay examines Isabella Rossellini s *Green Porno* and Martin Luther s work to develop an irreverent theology Jay Johnston draws from personal relationships with his late dog and Master Pup fetish play to blur the boundaries between humans and other animals specifically within ethical and theological discourse Whitney Bauman reflects on how the very processes of globalization and climate change queer our identities and call for a queer and versatile planetary ethic Finally Timothy Morton leads us through a reflection on queer green sex toys to challenge the ontology of agrologistics Each of these essays in their own way is concerned with fleshing out more meaningful encounters with the planetary community Without being too ambitious we hope that these sets of essays will help to open up a new trajectory of conversations at the intersection of religion nature and queer theory

Animals and Religion Dave Aftandilian, Barbara R. Ambros, Aaron S. Gross, 2024-02-06 What do animals other than human animals have to do with religion How do our religious ideas about animals affect the lives of real animals in the world How can we deepen our understanding of both animals and religion by considering them together *Animals and Religion* explores how animals have crucially shaped how we understand ourselves the other living beings around us and our relationships with them Through incisive analyses of religious examples from around the world the original contributions to this volume demonstrate how animals have played key roles in every known religious tradition whether as sacred beings symbols objects of concern fellow creatures or religious teachers And through

our religious imagination ethics and practices we have deeply impacted animal lives whether by domesticating sacrificing dominating eating refraining from eating blessing rescuing releasing commemorating or contemplating them Drawing primarily on perspectives from religious studies and Christian theology augmented by cutting edge work in anthropology biology philosophy and psychology *Animals and Religion* offers the reader a richer understanding of who animals are and who we humans are Do animals have emotions Do they think or use language Are they persons How we answer questions like these affects diverse aspects of religion that shape not only how we relate to other animals but also how we perceive and misperceive each other along axes of gender race and disability Accessibly written and thoughtfully argued *Animals and Religion* will interest anyone who wants to learn more about animals religion and what it means to be a human animal

Divinanimality Stephen D. Moore, 2014-09-15 A turn to the animal is underway in the humanities most obviously in such fields as philosophy literary studies cultural studies and religious studies One important catalyst for this development has been the remarkable body of animal theory issuing from such thinkers as Jacques Derrida and Donna Haraway What might the resulting interdisciplinary field commonly termed animality studies mean for theology biblical studies and other cognate disciplines Is it possible to move from animal theory to creaturely theology This volume is the first full length attempt to grapple centrally with these questions It attempts to triangulate philosophical and theoretical reflections on animality and humanity with theological reflections on divinity If the animal human distinction is being rethought and retheorized as never before then the animal human divine distinctions need to be rethought retheorized and retheologized along with it This is the task that the multidisciplinary team of theologians biblical scholars philosophers and historians assembled in this volume collectively undertakes They do so frequently with recourse to Derrida's animal philosophy and also with recourse to an eclectic range of other relevant thinkers such as Haraway Giorgio Agamben Emmanuel Levinas Gloria Anzaldua Helene Cixous A N Whitehead and Lynn White Jr The result is a volume that will be essential reading for religious studies audiences interested in ecological issues animality studies and posthumanism as well as for animality studies audiences interested in how constructions of the divine have informed constructions of the nonhuman animal through history
