The Honor of the Queen, Second Edition David Weber, 2013-02-05 Now with new content RIGHT WOMAN, WRONG PLACE It's hard to give peace a chance when the other side regards war as the necessary prelude to conquest and a sneak attack as the best means to that end That's why the Kingdom of Manticore needs allies against the so-called Republic of Haven and the planet Grayson is just the right strategic place to make a very good ally indeed But Her Majesty's Foreign Office had overlooked a minor cultural difference when they chose Honor Harrington to carry the flag: women on the planet Grayson are without rank or rights Honor's very presence is an intolerable affront to every male on the planet At first, Honor doesn't take it personally where she comes from gender discrimination is barely a historical memory right up there in significance to fear of the left-handed But in time, such treatment as she receives from the Graysonites does become wearing and Honor would withdraw if she could but then Grayson's fratricidal sister planet attacks without warning and she must stay and prevail not just for Honor's honor but for her sovereign's for THE HONOR OF THE QUEEN At the publisher's request, this title is sold without DRM Digital Rights Management Old-fashioned space opera is alive and well in David Weber's The Honor of the Queen Science Fiction Age The Honor of the Queen is worth shouting about I want more Philadelphia Weekly Press In terms of space combat, I think David Weber may be the best writer around a top-notch read FosFax

Uncompromising Honor David Weber, 2018-10-02 FIRST NEW HONOR HARRINGTON NOVEL IN FIVE YEARS New York Times USA Today Wall Street Journal and international best-selling phenomenon David Weber delivers book 19 in the multiple New York Times best-selling Honor Harrington series the first new Honor Harrington novel since 2013's Shadow of Freedom HONOR'S FINISHING WHAT SHE STARTED The Solarian League's navy counts its superdreadnoughts by the thousands Not even its own government knows how enormous its economy truly is And for hundreds of years the League has borne the banner of human civilization been the ideal to which humanity aspires in its diaspora across the galaxy But the

bureaucrats known as the Mandarins who rule today's League are not the men and women who founded it so long ago. They are corrupt, venal, accountable to no one, and they've decided the upstart Star Kingdom of Manticore must be destroyed. Honor Harrington has worn the Star Kingdom's uniform for half a century and served her monarch and her people well. In the course of those years, the woman the newsies call the Salamander has grown from a tactically brilliant but politically naïve junior officer to supreme fleet command and a seat on the highest military and political councils of the Grand Alliance. Very few people know war the way Honor Harrington does. Very few have lost as many men and women, as many friends, as much family as she has. Yet despite that, hers has been a voice of caution. She knows the Mandarins and the Solarian League Navy are growing increasingly desperate as the truth of their technological inferiority sinks home, but she also knows the sheer size of the League. And she knows how its citizens will react if the Grand Alliance takes the war to the League: attacks its star systems, destroys its infrastructure, kills its civilians. Today's victory, bought on those terms, can only guarantee a future war of revenge against a resurgent Solarian League and its navy. Honor knows the Grand Alliance must find a victory that doesn't require incursions deep into Solarian space, doesn't leave a legacy of bottomless hatred, and the strategy she supports has been working. The League is sliding towards inglorious defeat as it steadily loses ground in the Protectorates and the Verge. As its central government teeters towards bankruptcy and even some of its core systems opt to secede in the face of the Mandarins' corruption, As the Solarian Navy finally realizes it cannot face an Alliance battle fleet and win. But the Mandarins have embraced a desperate new strategy, and in pursuit of that strategy, the SLN has committed atrocities such as the galaxy has not known in a thousand years. The League has violated its own Eridani Edict against mass civilian casualties, violated the Deneb Accords' prohibition on war crimes. And they have finally killed too many of the people Honor Harrington loves. Hers is the voice of caution, and compromise no longer, and the galaxy is about to see something it has never imagined. The Salamander is coming for the Solarian League, and Hell is coming in her wake. At the publisher's request, this title is sold without DRM (Digital Rights Management).
