Here historian Nick Barratt tells the ship's full story starting from its original conception and design by owners and naval architects at the White Star Line through its construction at the shipyards in Belfast. Lost Voices from the Titanic offers tales of incredible folly and unimaginable courage, the aspirations of the owners, the efforts of the crew, and of course the eyewitness accounts from those lucky enough to survive. In narrating the definitive history of the famous ship, Barratt draws from never before seen archive material and eyewitness accounts by participants at every stage of the Titanic's life. These long lost voices bring new life to those heartbreaking moments on the fateful Sunday night when families were torn apart and the legend of the Titanic was cemented in our collective imagination. What sets this book apart from others that have been published on this subject is that survivors are given the opportunity to tell their personal stories in their own words and unedited. The result is heartbreaking in detail and illuminating in its authenticity.
