On Charisma and Institution Building Max Weber, 1968-12-15 This selection from Max Weber's writings presents his variegated work from one central focus the relationship between charisma on the one hand and the process of institution building in the major fields of the social order such as politics law economy and culture and religion on the other That the concept of charisma is crucially important for understanding the processes of institution building is implicit in Weber's own writings and the explication of this relationship is perhaps the most important challenge which Weber's work poses for modern sociology Max Weber on Charisma and Institution Building is a volume in The Heritage of Sociology a series edited by Morris Janowitz Other volumes deal with the writings of George Herbert Mead William F Ogburn Louis Wirth W I Thomas Robert E Park and the Scottish Moralists Adam Smith David Hume Adam Ferguson and others *The Messiah of Brooklyn* Avrum M. Ehrlich, 2004

On charisma and institution building Max Weber, 1968 Comparative Civilizations and Multiple Modernities Shmuel N. Eisenstadt, 2022-11-07 This collection of essays provides an analysis of the dynamics of Civilizations The processes of globalization and of world history are described from a comparative sociological point of view in a Weberian tradition These essays were written between 1974 and 2002 by one of the most eminent sociologists of today The print edition is available as a set of two volumes 9789004129931 On Charisma and Institution Building Max Weber, 1968

The Political Systems of Empires Shmuel N. Eisenstadt, 2017-07-31 Winner of the prestigious MacIver Award when it was first published this remains a towering work of modern political sociology especially of macrosociology Its main objective is comparative analysis of political commonalities found in different societies both historical and present The book seeks to find some pattern or laws in the structure and development of such systems The imaginative use of data helps to bring order into what might otherwise be considered a speculative volume The purpose of The Political Systems of Empires is to apply sociological concepts to the analysis of historical societies through the comparative analysis of a special type of political system This analysis does not purport to be historical or descriptive Its main objective is comparative analysis of political commonalities found in different societies The book seeks to find some pattern or laws in the structure and development of such systems

The Political Systems of Empires Shmuel Noah Eisenstadt, Sociology and Its Publics Terence C. Halliday, Morris Janowitz, 1992-10-15 Sociology faces troubling developments as it enters its second century in the United States A loss of theoretical coherence and a sense of disciplinary fragmentation a decline in the quality of its recruits the cooptation of its clients a muted public voice and sinking prestige in governmental circles these are only a few of the trends signalling a need for renewed debate about how sociology is organized In this volume some of the most authoritative voices in the field confront these conditions offering a variety of perspectives as they challenge sociologists to self examination

Max Weber on Charisma and Institution Building Shmuel Noah Eisenstadt, 1968 Theology

of the New Testament Frank S. Thielman, 2011-03-22 Studying the theology of the New Testament can be a daunting task even to the knowledgeable Bible student or pastor Each of the twenty seven books written by various authors has its own theological emphasis and nuances How do we elicit a coherent message from such theological diversity especially given that some of the theological statements in the New Testament seem to be at odds with one another Is such an endeavor achievable or even valid Theology of the New Testament takes a balanced approach in response to these challenges Frank Thielman presents a theology of the New Testament that is careful to take into account the cultural and historical circumstances surrounding each book and the New Testament as a whole He not only examines each book's theological content individually but also in relation to the rest of the New Testament particularly within each of the three theological units that comprise the New Testament the gospels and Acts the Pauline epistles and the general epistles and Revelation This canonical and synthetic approach honors both the theological diversity of the various books and the theological connections between the books In the end Thielman finds a unified theological vision of the New Testament anchored in the centrality of Jesus Christ Frank Thielman's Theology of the New Testament is an outstanding achievement The book is marked by scholarly depth exegetical rigor and theological profundity Both students and professors will profit immensely from this lucid treatment of the theology contained in the New Testament documents Thomas R Schreiner Professor of New Testament The Southern Baptist Theological Seminary An accessible presentation of the key theological points of the New Testament books by an accomplished New Testament scholar and teacher Its clear style lucid organization and sound theological insight make it a prime resource for serious students in both the academy and the church Karen H Jobes PhD Associate Professor of New Testament Westmont College 448 , 000000 000000 000 000000 000000000 0000 0000 000000 000 00 000000000 **Politics**

and Transcendent Wisdom Charles D. Orzech, 2010-11 Politics and Transcendent Wisdom presents a systematic theoretical framework for understanding the relationship between politics and religion in a variety of contexts This book examines the formation of national protection Buddhism in China and translates the key text of this important movement Showing that Buddhist notions of sovereignty were meant and were taken as more than mere metaphor Orzech examines the profound link between Buddhist notions of transcendence and the deployment of political authority in East Asia To this integration of philosophical tradition and political history is brought a new understanding of Buddhist cosmology The contexts of Buddhism as state religion in fifth and eighth century China are examined in detail through extended consideration of the Transcendent Wisdom Scripture for Humane Kings Who Wish to Protect Their States the text that was the charter for Buddhist state cults in China Korea and Japan into the twentieth century The text first appeared during the fifth century as Buddhists were struggling to understand how their foreign religion and the foreign rulers of north China might be adapted to Chinese religious and political culture The Scripture for Humane Kings and the rites enjoined by it were one answer to these questions Three centuries later in the context of a fully sinified Buddhism the Tang dynasty Tantric master Pu k ung

produced a new version of the text with new rites that served as the centerpiece of his vision of a Chinese Buddhist state modeled on esoteric lines The final section of this volume presents for the first time a full annotated translation of this important East Asian Buddhist text **Trump and Political Philosophy** Angel Jaramillo Torres, Marc Benjamin Sable, 2018-06-12 This book aims to recover from ancient and modern thinkers valuable arguments about statesmanship leadership and tyranny which illuminate reassessments of political science and practice after the election of Donald Trump Like almost everyone else contemporary political scientists were blindsided by the rise of Trump No one expected a candidate to win who repeatedly violated both political norms and the conventional wisdom about campaign best practices Yet many of the puzzles that Trump's rise presents have been examined by the great political philosophers of the past For example it would come as no surprise to Plato that by its very emphasis on popularity democracy creates the potential for tyranny via demagoguery And perhaps no problem is more alien to empirical political science than asking if statesmanship entails virtue or if so in what that virtue consists This is a theme treated by Plato Aristotle and Machiavelli among others Covering a range of thinkers such as Confucius Plutarch Kant Tocqueville and Deleuze the essays in this book then seek to place the rise of Trump and the nature of his political authority within a broader institutional context than is possible for mainstream political science

Difficult Diasporas Samantha Pinto, 2013-09-06 Winner of the 2013 Modern Language Association's William Sanders Scarborough Prize for Outstanding Scholarly Study of Black American Literature In this comparative study of contemporary Black Atlantic women writers Samantha Pinto demonstrates the crucial role of aesthetics in defining the relationship between race gender and location Thinking beyond national identity to include African American Afro Caribbean and Black British literature *Difficult Diasporas* brings together an innovative archive of twentieth century texts marked by their break with conventional literary structures These understudied resources mix genres as in the memoir ethnography travel narrative *Tell My Horse* by Zora Neale Hurston and eschew linear narratives as illustrated in the book length non narrative poem by M Nourbese Philip *She Tries Her Tongue Her Silence Softly Breaks* Such an aesthetics which protests against stable categories and fixed divisions both reveals and obscures that which it seeks to represent the experiences of Black women writers in the African Diaspora Drawing on postcolonial and feminist scholarship in her study of authors such as Jackie Kay Elizabeth Alexander Erna Brodber Ama Ata Aidoo among others Pinto argues for the critical importance of cultural form and demands that we resist the impulse to prioritize traditional notions of geographic boundaries Locating correspondences between seemingly disparate times and places and across genres Pinto fully engages the unique possibilities of literature and culture to redefine race and gender studies

A Prophet Like Moses Jeffrey Stackert, 2014-07-01 Jeffrey Stackert addresses two of the oldest and most persistent problems in biblical studies the relationship between prophecy and law in the Hebrew Bible and the utility of the Documentary Hypothesis for understanding Israelite religion These topics have in many ways dominated pentateuchal studies and the investigation of Israelite religion

since the nineteenth century culminating in Julius Wellhausen's influential Prolegomena to the History of Ancient Israel. Setting his inquiry against this backdrop while drawing on and extending recent developments in pentateuchal theory, Stackert tackles the subject through an investigation of the different presentations of Mosaic prophecy in the four Torah sources. His book shows that these texts contain a rich and longstanding debate over prophecy, its relation to law, and its place in Israelite religion. With this argument, A Prophet Like Moses demonstrates a new role for the Documentary Hypothesis in discussions of Israelite religion. It also provides an opportunity for critical reflection on the history of the field of biblical studies. Stackert concludes with an argument for the importance of situating biblical studies and the study of ancient Israelite religion within the larger field of religious studies rather than treating them solely or even primarily as theological disciplines.

Research Report, 1971 On Charisma and Institution Building: Selected Papers [of] Max Weber Max Weber, 1968

Social Stratification: Volume 1, Sociological Studies J. A. Jackson, 1968-11-02 All the papers in the first volume of Sociological Studies are centred round the theme of social stratification. **Syria from Reform to Revolt** Leif Stenberg, Christa Salamandra, 2015-12-01 As Syria's anti-authoritarian uprising and subsequent civil war have left the country in ruins, the need for understanding the nation's complex political and cultural realities remains urgent. The second of a two-volume series, Syria from Reform to Revolt, Culture Society and Religion draws together closely observed critical and historicized analyses giving vital insights into Syrian society today. With a broad range of disciplinary perspectives, contributors reveal how Bashar al-Assad's pivotal first decade of rule engendered changes in power relations and public discourse dynamics that would feed the 2011 protest movement and civil war. Essays focus on key arenas of Syrian social life including television drama, political fiction, Islamic foundations and Christian choirs and charities, demonstrating the ways in which Syrians worked with and through the state in attempts to reform, undermine or sidestep the regime. The contributors explore the paradoxical cultural politics of hope, anticipation and betrayal that have animated life in Syria under Assad, revealing the fractures that obstruct peaceful transformation. Syria from Reform to Revolt provides a powerful assessment of the conditions that turned Syria's hopeful Arab Spring revolution into a catastrophic civil war that has cost over 200,000 lives and generated the worst humanitarian crisis of the twenty-first century.
