### **On New Shores Understanding Immigrant Fathers In North America:**

*On New Shores* Susan S. Chuang, Robert P. Moreno, 2010 Over the past several decades researchers as well as social policymakers and educators have acknowledged the importance that fathers play in their children's lives. A good deal of research on fathering has been conducted among Euro American families in North America. However, our understanding of fathering across various ethnic groups remains limited. Throughout Canada and the United States, the immigrant population has been growing rapidly. Currently, no book has delineated the field of immigrant fathering from a comprehensive and multi-disciplinary perspective which includes theory, research, and social policy. Researchers are widely recognizing that the theoretical frameworks and models of parenting and more specifically fathering that were based on Euro American families may not be relevant to other ethnic groups. As researchers refine theoretical and methodological approaches to understand fathering within sociocultural contexts, they become more cognizant of the varying meanings of parenting between and within ethnic groups. *On New Shores* extends the understanding of fathering in ethnic minority families and specifically focuses on immigrant fathers—an area which has remained fairly uncharted. The book provides readers with a richer and more comprehensive approach to how researchers, practitioners, and social policymakers can examine fathering among ethnic minority families.

**Pathways of Human Development** Jay A. Mancini, Karen A. Roberto, 2009-08-20 *Pathways of Human Development* uses theoretical perspectives from developmental, social, and behavioral sciences to examine the many ways that individuals, families, and communities intersect and interface. Focusing on the impact of change on human development, including its antecedents, processes, and consequences, the chapters examine a range of topics such as health and adaptation, social anxiety disorder, protective factors, and risk behaviors, parent-child

relationships adolescent sexuality intergenerational relationships family stress and adaptation and community resilience By extending human development theorizing across these pivotal life changing issues this volume offers a comprehensive map of the trajectories of development among individuals families and communities *Gender Roles in Immigrant Families* Susan S. Chuang, Catherine S. Tamis-LeMonda, 2013-04-18 Researchers recognize that theoretical frameworks and models of child development and family dynamics have historically overlooked the ways in which developmental processes are shaped by socio cultural contexts Ecological and acculturation frameworks are especially central to understanding the experiences of immigrant populations and current research has yielded new conceptual and methodological tools for documenting the cultural and developmental processes of children and their families Within this broad arena a question of central importance is on how gender roles in immigrant families play out in the lives of children and families *Gender Roles in Immigrant Families* places gender at the forefront of the research by investigating how it interplays with parental roles parent child relationships and child outcomes

**Korean Immigrants in Canada** Samuel Noh, Ann H. Kim, Marianne S. Noh, 2012-01-01 Koreans are one of the fastest growing visible minority groups in Canada today However very few studies of their experiences in Canada or their paths of integration are available to public and academic communities *Korean Immigrants in Canada* provides the first scholarly collection of papers on Korean immigrants and their offspring from interdisciplinary social scientific perspectives The contributors explore the historical psychological social and economic dimensions of Korean migration settlement and integration across the country A variety of important topics are covered including the demographic profile of Korean Canadians immigrant entrepreneurship mental health and stress elder care language maintenance and the experiences of students and the second generation Readers will find interconnecting themes and synthesized findings throughout the chapters Most importantly this collection serves as a platform for future research on Koreans in Canada

**Immigrant Children** Susan S. Chuang, Robert P. Moreno, 2011-06-16 Over the past several decades the demographic populations of many countries such as Canada as well as the United States have greatly transformed Most striking is the influx of recent immigrant families into North America As children lead the way for a new North America this group of children and youth is not a singular homogenous group but rather a mosaic and diverse ethnic racial and cultural group Thus our current understanding of normative development covering social psychological cognitive language academic and behavioral development which has been generally based on middle class Euro American children may not necessarily be optimal development for all children Researchers are widely recognizing that the theoretical frameworks and models of child development lack the sociocultural and ethnic sensitivities to the ways in which developmental processes operate in an ecological context As researchers progress and develop promising forms of methodological innovation to further our understanding of immigrant children little effort has been placed to collectively organize a group of scholarly work in a coherent manner Some researchers who examine ethnic minority children tended to have ethnocentric notions of normative

development Thus some ethnic minority groups are understood within a deficit model with a limited scope of topics of interest Moreover few researchers have specifically investigated the acculturation process for children and the implications for cultural socialization of children by ethnic group This book represents a group of leading scholars cutting edge research which will not only move our understanding forward but also to open up new possibilities for research providing innovative methodologies in examining this complex and dynamic group Immigrant Children Change Adaptation and Cultural Transformation will also take the research lead in guiding our current knowledge of how development is influenced by a variety of sociocultural factors placing future research in a better position to probe inherent principles of child development In sum this book will provide readers with a richer and more comprehensive approach of how researchers social service providers and social policymakers can examine children and immigration

Sánchez,2017-02-24 When Emilio L pez made his way to Atlanta Georgia from M xico s third most populated city where he had grown up worked married and had two daughters he was in pain He had hurt his back in a work related accident and

was still recovering Es algo que no se lo deseo a nadie It s something I don t wish upon anyone he began Eventually he would come to talk about another kind of pain that previously had been too raw to share one provoked by having to leave his school aged daughters wife and country in search of a job para ver por mi familia to look after my family Emilio and others in this study father at a distance from their children once they cross the M xico U S border They tell a story about globalization and neoliberalism that reveals the dystopias families traverse when parents cross borders as a way to look after their family The narratives challenge policies laws and economic arrangements that separate families The fathers also remind us that while Mexican immigrants support the Mexican economy to the tune of 24 billion dollars a year through remittances and help fuel the U S economy through their underpaid labor the fathers see themselves as much more than workers and providers Their identities are informed by an expansive definition of fathering Although the fathers sense of disillusionment grows as they experience only modest gains for their families and live in precarious circumstances themselves they nonetheless create radical and bold models of affection care love and fathering that help them overcome borders and the failures of the state to stay connected as a family
