Michael Bohlander,2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario

Schopenhauer, Religion and Morality Gerard Mannion, 2017-03-02 This work challenges the textbook assessment of Schopenhauer as militant atheist and absolute pessimist In examining Schopenhauer s grappling with religion theology and Kant s moral philosophy Mannion suggests we can actually discern a religious humility in method in Schopenhauer s work seen most clearly in his ethics of compassion and his doctrine of salvation Given Schopenhauer s opinion of religion as the metaphysics of the people his utilisation of and affinity with many religious ideas and doctrines and the culmination of his philosophy in a doctrine of salvation that ends in the mystical Mannion suggests that Schopenhauer s philosophy is an explanatory hypothesis which functionally resembles religious belief systems in many ways Mannion further argues that Schopenhauer cannot claim to have gone any further than such religious systems in discerning the true nature of ultimate reality for he admits that they also end in the mystical beyond which we must remain silent Indeed Schopenhauer offers an interpretation as opposed to outright rejection of religion and his system gains the coherence that it does through being parasitic upon religious thought itself Given current debates between theologians and philosophers in relation to postmodernity and postmodern thought this book illustrates that Schopenhauer should be a key figure in such debates

Social Thought and Rival Claims to the Moral Ideal of Dignity Philip Hodgkiss, 2018-04-16 The relation between changes in society over historical time and the concomitant transformation of a concept that depicts something of intrinsic value in that society is complex and contingent Social Thought and Rival Claims to the Moral Ideal of Dignity attempts to see if we can get any closer to a rounded three dimensional view of dignity by drawing on the historical record on philosophy and social thought more widely and finally on contributions that present dignity in a rather more public and political light In thus tracing the fortunes of human dignity we find that it has not always been viewed as a straightforwardly laudable principle Social Thought and Rival Claims to the Moral Ideal of Dignity examines the reasons behind what turns out to be really quite pronounced the ambiguous status of the idea and ideal of dignity

Evil and Moral Psychology Peter Brian Barry, 2013-04-02 This book examines what makes someone an evil person and how evil people are different from merely bad people Rather than focusing on the problem of evil that occupies philosophers of religion Barry looks instead to moral psychology the intersection of ethics and psychology He provides both a philosophical account of what evil people are like and considers the implications of that account for social legal and criminal institutions He also engages in traditional philosophical reasoning strongly informed by psychological research especially abnormal and social psychology In response to the popularity of phrases like the axis of evil and the ease with which politicians and others describe their opponents as evil Barry sets out to make clear just what it is to be an evil person

Coetzee's Austerities Graham Bradshaw, Michael Neill, 2016-05-06 Representing a wide range of critical and theoretical perspectives this volume examines J M Coetzee's novels from Dusklands to Diary of a Bad Year The choice of essays reflects three broad goals aligning the South African dimension of Coetzee's writing with his late modernist aesthetic exploring the relationship between Coetzee's novels and his essays on linguistics and paying particular attention to his more recent fictional experiments These objectives are realized in essays focusing on among other matters the function of names and etymology in Coetzee's fiction the vexed relationship between art and politics in apartheid South Africa the importance of film in Coetzee's literary sensibility Coetzee's reworkings of Defoe the paradoxes inherent in confessional narratives ethics and the controversial politics of reading Disgrace intertextuality and the fictional self consciousness of Slow Man Through its pronounced emphasis on the novelist's later work the collection points towards a narrato political and linguistic reassessment of the Coetzee canon
