Patience—A Theological Exploration Paul Dafydd Jones, 2022-11-17 What does it mean to exercise patience What does it mean to endure to wait and to persevere and on other occasions to reject patience in favor of resistance haste and disruptive action And what might it mean to describe God as patient Might patience play a leading role in a Christian account of God's creative work God's relationship to ancient Israel God's governance of history and God's saving activity The first instalment of *Patience A Theological Exploration* engages these questions in searching imaginative and sometimes surprising ways Following reflections on the biblical witness and the nature of constructive theological inquiry its interpretative chapters engage landmark works by a number of ancient medieval modern and contemporary authors disclosing both the promise and peril of talk about patience Patience stands at the center of this innovative account of God's creative work God's relationship with ancient Israel creaturely sin scripture and God's broader providential and salvific purposes

Theologies of Creation Thomas Jay Oord, 2014-10-02 Humans have long wondered about the origin of the universe And such questions are especially alive today as physicists offer metaphysical theories to account for the emergence of creation Theists have attributed the universe's origin to divine activity and many have said God created something from absolute nothingness The venerable doctrine of *creatio ex nihilo* especially emphasizes God's initial creating activity Some contributors to this book explore new reasons *creatio ex nihilo* should continue to be embraced today But other contributors question the viability of creation from nothing and offer alternative initial creation options in its place These new alternatives explore a variety of options in light of recent scientific work new biblical scholarship and both new and old theological traditions

Theology and the Future Trevor Cairney, David Starling, 2014-07-31 Theology was once queen of the sciences the integrating centre of Christendom's conceptual universe In our own time the very idea of systematic theology is

frequently called into question derided as an arcane and superstitious pseudo discipline Even within the church it is commonly disregarded in favour of unreflective piety and pragmatism At the same time the southward shift in world Christianity's centre of gravity prompts crucial questions about the future form and content of theology Within this context *Theology and the Future* offers a case for the continuing viability of theology exploring how it might adapt to changing circumstances and discussing its implications for how we are to imagine and help shape our shared human future Beginning with the question of God this book explores what might be meant by the future of God and what its implications are for Christian theology Chapters follow on the location of theology in global Christianity the church and the academy and on its sources and method The second half of the book explores a wide variety of dimensions of the human future that theology might address and illuminate The essays bring together a mix of specialist theologians and interdisciplinary thinkers to support the assertion that there can be no more critical endeavor to the future than understanding God and all things in relationship to him

The Great Open Dance Jon Paul Sydnor, 2024-04-24 *The Great Open Dance* offers a progressive Christian theology that endorses contemporary ideals environmental protection economic justice racial reconciliation interreligious peace gender equality and LGBTQ celebration Just as importantly this book provides a theology of progress an interpretation of Christian faith as ever changing and ever advancing into God's imagination Faith demands change because Jesus of Nazareth started a movement not a tradition He preached about a new world the Kingdom of God and invited his followers to work toward the divine vision of universal flourishing This vision includes all and excludes none Since we have not yet achieved the world that Jesus describes we must continue to progress The energizing impulse of this progress is the Trinity Abba Jesus and Sophia three persons united by love into one perfect community God is fundamentally relational and humankind made in the image of God is relational as a result We are inextricably entwined with one another sharing a common purpose and a common destiny In this vision we find abundant life by practicing agape the universal unconditional love that Abba extends Jesus reveals and Sophia inspires

worlds **The Simplicity of God** Jonathan M. Platter,2025-09-18 For most of Christian history God was understood to be simple It was a staple of articles of faith to confess a God without parts or passions But today divine simplicity is seen as either irrelevant or a vestige of classical theism Neither is quite right The Simplicity of God argues that the doctrine is often misunderstood but in the right light it can play a vitalizing role in Christian thought and spiritual practice In this companion Jonathan Platter presents an integrated account of divine simplicity and he goes further to explore the difference it makes for the doctrines of Trinity creation incarnation and eschatology Grounded in Scripture the history of doctrine and contemporary systematic theology The Simplicity of God offers a thorough introduction to the doctrine in an accessible format *Wounded Images* Kristine M. Whaley,2024-03-27 This volume works through deconstructing traditional models of the imago Dei in search of a more inclusive understanding of the doctrine one that allows for literature to bring important questions to bear Brief analyses of Karl Barth and Paul Tillich and then growing dissatisfaction with the two in various liberation theologies brings to light the problems of a perfected image of God An exploration of four novels by Jean Rhys between 1928 and 1939 then follows the footsteps of Katie Cannon and others who include literature in their theological work The Rhys novels follow tragic stories of women who are wounded both by others and by their own inability to see themselves as worthy Through the questions these women ask about themselves and God the reconstruction of the imago Dei is set up This reconstruction centers trauma wounds and a non contrastive transcendence that Kathryn Tanner defines Ultimately it is not in how we are perfect but rather through our risks our wounds and even our grief that we connect to God **Seeing Christ in Australia Since 1850** Kerrie Handasyde,Sean Winter,2024-09-03 This book presents cultural representations of Christ embedded in the imagination and the contested myths of Australian life The essays attest to the variety and subtlety of neglected or unspoken representations of Christ in Australia In a land that has often declared itself secular or post Christian this volume looks into the Australian imagination in between the sacred and secular to see Christ in Australia **God of Becoming & Relationship Study Guide** Rabbi Bradley Shavit Artson, DHL,Nathan A. Roller,2015-01-08 This fascinating introduction to Process Theology from a Jewish perspective shows that these are false choices Inspiring speaker spiritual leader and philosopher Rabbi Bradley Shavit Artson presents an overview of what Process Theology is and what it can mean for your spiritual life He explains how Process Theology can break you free from the strictures of ancient Greek and medieval European philosophy allowing you to see all creation not as this or that us or them but as related patterns of energy through which we connect to everything Armed with Process insights and tools you can break free from outdated religious dichotomies and affirm that your religiosity your spirit your mind and your ethics all strengthen and refine each other strike all living creatures a God who knows the future absolutely vs an open future that you help to shape through your choices Reconstructing Church Todd Grant Yonkman,2014-08-06 The general decline of American mainline Protestant churches today is well documented Church redevelopment imagining and actualizing new life for dying churches is a productive and

vital response to congregational decline but it can be daunting Here is guidebook for church leaders to help them reinvigorate their churches with both practical advice and tested theory A comprehensive case study of Beneficent Congregational Church which successfully turned the tide and quadrupled its worship attendance provides inspiration as well as concrete strategies for church redevelopment The study indicates that successful and faithful church redevelopment involves a shift from a modern patronage ministry model to a postmodern plural ministry model Building on current church redevelopment literature by bringing selected Biblical and theological texts into conversation with leadership concepts systems theory social sciences and congregational studies this book creates a multidisciplinary transformative conversation The result is both strategic proposals for growing your church and a model for doing practical theology in your own ministry context Dedicated trained leadership in cooperation with the power of the Spirit can create the possibility of new life in dying congregations

Spirituality of Creation, Evolution, and Work Roger Haight, Alfred Pach, Amanda Avila Kaminski, 2023-04-04 Two developments that occurred over the course of the nineteenth century had a strong impact on Christian theology The first was a deepening of the implications of historical consciousness and the second was the impact of science on Christian self understanding Marx s sociology of knowledge symbolizes the first Darwin s analysis of evolution symbolizes the second These intellectual developments gave rise to various forms of process philosophy and theology Within this context a dialogue between Christian theology and evolution has yielded dramatically new convictions and practices in Christian spirituality

especially relative to ecology For more than three decades Catherine Keller has been reflecting on the intellectual and practical effects that an internalization of the dynamic character of reality should have upon the practice of Christian life Her text illustrates the basic framework of dynamic becoming that science demands whether or not one is formally a process thinker Pierre Teilhard de Chardin was an earlier figure who was more zeroed in on the phenomenon of evolution which he encountered in a distinct way as a Christian scientist trained in geology and paleontology as distinct from biology or genetics Evolution explicitly informs his spirituality These two different Christian writers the one representing the imaginative framework of being as process and becoming the other focused on how evolution affects intentional spiritual life open new perspectives on the spiritual character of people s active lives of work and creativity in the world that science presents to us

Dualities Michelle Voss Roberts, 2010-01-01 Philosophy and theology have each struggled with the problem of dualism the conviction that reality comprises material and nonmaterial entities Too often this split places God spirit mind and the masculine in opposition to evil body matter and the feminine These intellectual divisions support social structures that oppress rather than embrace women the poor people of color and others With this volume Voss Roberts expertly shows how comparative theology uproots dualism and fosters new modes of community built on cooperation instead of oppression
