The motifs include red roses with green leaves, clusters of three white skulls with black eye sockets, and red hearts with a banner across them that says 'LOVE' in white capital letters. On Romantic Love Simple Truths About A Complex:

On Romantic Love Berit Brogaard, 2014-12-30 Romantic love presents some of life's most challenging questions: Can we choose who to love? Is romantic love rational? Can we love more than one person at a time? And can we make ourselves fall out of love? Berit Brogaard here attempts to get to the bottom of love's many contradictions. This short book, informed by both historical and cutting edge philosophy, psychology, and neuroscience, combines a new theory of romantic love with entertaining anecdotes from real life and accessible explanations of the neuroscience underlying our wildest passions. Against the grain, Brogaard argues that love is an emotion that it can be at turns both rational and irrational and that it can be manifested in degrees. We can love one person more than another and we can love a person a little or a lot or not at all. And love isn't even always something we consciously feel. However, love like other emotions, both conscious and not, is subject to rational control and falling in or out of it can be a deliberate choice. This engaging and innovative look at a universal topic featuring original line drawings by illustrator Gareth Southwell illuminates the processes behind heartbreak, obsession, jealousy, attachment, and more.

The Art of Looking at Art Gene Wisniewski, 2020-10-04 A readable guide to the art of looking at art. There's an art to viewing art. A sizable portion of the population regards art with varying degrees of reverence, bewilderment, suspicion, contempt, and intimidation. This book will help remedy that situation and answer many of the most frequently asked questions pertaining to the matter of art in general. When was the first art made? Who decides which art is for the ages? What is art's purpose? How do paintings get to be worth tens of millions of dollars? Where do artists get their ideas? And perhaps the most pressing question of all: have human cadavers ever been used as art materials? Yup. *The Art of Looking at Art* addresses these and countless more of the

issues surrounding this frequently misunderstood microcosm in a highly informative yet conversational tone History fascinating and altogether human backstories and information pertaining to every conceivable aspect of visual art are interwoven in twelve concise chapters providing all the information the average person needs to comfortably approach analyze and appreciate art Readers with a background in art will learn a few new things as well This beautiful full color book includes 45 full page reproductions

Elkind,Alexander Mugar Klein,2024-02-20 This book examines Bertrand Russell s complicated relationships to the women around him and to feminism more generally The essays in this volume offer scholarly reassessments of these relationships and their import for the history of feminism and of analytic philosophy Russell is a founder of analytic philosophy He has also been called a feminist due to his public decades long advocacy for women s rights and equality of the sexes But his private behavior towards wives and sexual partners and his apparently dismissive occasionally public responses to some women philosophers raises the question of what sort of feminist or chauvinist Russell actually was Focusing on women in Russell s circle of acquaintance including feminist activists and his philosophical interlocutors this book casts new light on a timeless thinker s feminism and the women who played critical roles in the making of analytic philosophy

Miller,2018 We like to think of ourselves and our friends and families as pretty good people The more we put our characters to the test however the more we see that we are decidedly a mixed bag Fortunately there are some promising strategies both secular and religious for developing better characters

When Doing the Right Thing Is Impossible Lisa Tessman,2017-06-01 In this accessible yet thought provoking work Lisa Tessman takes us through gripping examples of the impossible demands of morality some epic and others quotidian whose central predicament is How do we make decisions when morality demands we do something that we cannot

A Meaning to Life Michael Ruse,2019-03-21 Does human life have any meaning Does the question even make sense today For centuries the question of the meaning or purpose of human life was assumed by scholars and theologians to have a religious answer life has meaning because humans were made in the image of a good god In the 19th century however Charles Darwin s theory of evolution changed everything and the human organism was seen to be more machine than spirit

Ever since with the rise of science and decline of religious belief there has been growing interest and growing doubt about whether human life really does have meaning. If it does, where might we find it? The historian and philosopher of science Michael Ruse investigates this question and wonders whether we can find a new meaning to life within Darwinian views of human nature. If God no longer exists or if God no longer cares, rather than promoting a bleak nihilism, many Darwinians think we can convert Darwin into a form of secular humanism. Ruse explains that in a tradition going back to the time of Darwin himself and represented today by the evolutionist E. O. Wilson, evolution is seen as progress from monad to man and that positive meaning is found in continuing and supporting this upwards path of life. In *A Meaning to Life*, Michael Ruse argues that this is a false turn and there is no real progress in the evolutionary process. Rather, meaning in the Darwinian age can be found if we turn to a kind of Darwinian existentialism, seeing our evolved human nature as the source of all meaning both in the intellectual and social worlds. Ruse argues that it is only by accepting our true nature, evolved over millennia, that humankind can truly find what is meaningful. *Hold on* Peter Toohey, 2020. What do you do when you're not asleep and not eating? You're most likely waiting to finish work to get home to finish your duties. This book aims to describe how many people experience waiting and how important this is in popular and highbrow culture and in real life and how we cope with it.

The Routledge Handbook of Evolution and Philosophy Richard Joyce, 2017-08-16. In recent years, the relation between contemporary academic philosophy and evolutionary theory has become ever more active, multifaceted, and productive. The connection is a bustling two-way street. In one direction, philosophers of biology make significant contributions to theoretical discussions about the nature of evolution, such as: What is a species? What is reproductive fitness? Does selection operate primarily on genes? and What is an evolutionary function? In the other direction, a broader group of philosophers appeal to Darwinian selection in an attempt to illuminate traditional philosophical puzzles, such as: How could a brain state have representational content? Are moral judgments justified? Why do we enjoy fiction? and Are humans invariably selfish? In grappling with these questions, this interdisciplinary collection includes cutting-edge examples from both directions of traffic. The thirty contributions, written exclusively for this volume, are divided into six sections: The Nature of Selection; Evolution and Information; Human Nature; Evolution and Mind; Evolution and Ethics; and Evolution, Aesthetics, and Art. Many of the contributing philosophers and psychologists are international leaders in their fields. **The Theology of Early French Protestantism** Martin I. Klauber, 2023-08-15. In the newest volume of the Reformed Historical Theological Studies series, twelve historians survey the history and doctrine of the French Reformation. **Love Troubles** Federica

Gregoratto, 2025-01-21. What does it mean to love? Does love complete us, giving us purpose and meaning? Or does it tie us down and even harm us? Is erotic desire complicit in oppression, or could it deliver liberation? Are our desires extricable from the wrongs of our societies? And in today's world, is love still worth the trouble? This book develops a critical theory of sexual love and friendship, offering profound new ways to understand the troublesome nature of eros. Federica Gregoratto explores

the ambivalence of erotic love which is at once intimately interwoven with heterosexism racism and neoliberal capitalism yet entices us with the tantalizing possibility of transformation Drawing on a rich array of sources from Frankfurt School critical theory to feminist thought and contemporary philosophies of emotions and affects as well as poetry novels films and music she argues that love provides unexpected resources for political agency resistance and emancipation Gregoratto makes a passionate defense of erotic freedom as an adventurous process through which we understand together with others who we are and who we want to become both in our individual existences and in our social lives Wide ranging and daring Love Troubles invites us to reflect on our fraught amorous experiences showing why we should cherish and learn from them

Love's Enlightenment Ryan Patrick Hanley, 2017-03-30 A number of prominent moral philosophers and political theorists have recently called for a recovery of love But what do we mean when we speak of love today Love's Enlightenment examines four key conceptions of other directedness that transformed the meaning of love and helped to shape the way we understand love today Hume's theory of humanity Rousseau's theory of pity Smith's theory of sympathy and Kant's theory of love It argues that these four Enlightenment theories are united by a shared effort to develop a moral psychology that can provide both justificatory and motivational grounds for concern for others in the absence of recourse to theological or transcendental categories In this sense each theory represents an effort to redefine the love of others that used to be known as caritas or agape a redefinition that came with benefits and costs that have yet to be fully appreciated **Transmitting Gender**

across Generations Elizabeth Summerfield, 2022-02-02 The book interrogates the particular and generalisable qualities of the lived experience of gender in the twentieth century across three generations of a family It penetrates the surface appearance of change to uncover the invisible layers beneath that perpetuate the transmission of gender for both women and men Each sex is seen as enabled or disabled often in binary ways in reaching their full human potential Life stories offer a vehicle to explore not only the hidden depths of individual lives but also the unexamined assumptions of the patriarchal system The book argues that there are alternative forms of personal and collective power that challenge the crude popular concept associated with patriarchy a dynamic of domination and submission It supports the re conceptualisation of power as a cultural focus on the development of the full human potential rational physical and emotional of the collective and the individual It argues that the development of this type of power is the appropriate precedent for entry into the traditional conventions of private and public life that have acted for so long as proxies for the genuine maturation of both sexes and societies more generally **New Philosophical Essays on Love and Loving**

Simon Cushing, 2021-09-20 New philosophical essays on love by a diverse group of international scholars Topics include contributions to the ongoing debate on whether love is arational or if there are reasons for love and if so what kind the kinds of love there may be between humans and artificial intelligences between non human animals and humans whether love can explain the difference between nationalism and patriotism whether love is an necessary component of truly seeing others and the world whether love like free will is

fragile and may not survive in a deterministic world and whether or not love is actually a good thing or may instead be a force opposed to morality Key philosophers discussed include Immanuel Kant Iris Murdoch Bernard Williams Harry Frankfurt J David Velleman Niko Kolodny Thomas Hurka Bennett Helm Alfred Mele and Derk Pereboom Essays also touch on the treatment of love in literature and popular culture from Graham Greene s *The End of the Affair* to Spike Jonze s movie *Her*

A Short Philosophical Guide to the Fallacies of Love José A. Díez, Andrea Iacona, 2020-12-10 What can epistemology tell us about love Here two philosophers use their training in arguments and reasoning to uncover the role of ungrounded beliefs when we fall in love This not a self help book it is a philosophy book Free of advice methods and strategies for being successful in love it does not offer solutions for problems What it gives us instead is a reading of love as it actually is The authors illustrate the fallacies of love by drawing on personal experiences literary characters and imaginary individuals They provide examples of ungrounded beliefs in Aesop s Fables Cinderella and Don Giovanni amongst others and illustrate love as an inexhaustible source of misperceptions misunderstandings and misconceptions By tackling those characteristic and all too familiar ways in which ungrounded love beliefs arise the book forces us to question why baseless beliefs are maintained and reinforced showing us that many love beliefs are built on anything but logic

Romantic Love in Cultural Contexts

Victor Karandashev, 2016-12-24 This volume presents a conceptual historical anthropological and sociological review of how culture affects our experience and expression of romantic love What is romantic love and how is it different from and similar to other kinds of love How is romantic love related to sex and marriage in human history and across contemporary cultures What cultural factors mediate attraction in love These are some of the questions the volume explores through its interdisciplinary yet focused lens Much of the current research evidence suggests that love is a universal emotion experienced by a majority of people in various historical eras and in all the world s cultures Yet love displays in different ways because culture has an impact on people s conceptions of love and the ways they feel think and behave in romantic relationships This volume summarizes classical knowledge on love and culture while at the same time focusing sharply on recent studies and cutting edge research that has advanced the field Divided into three parts the volume begins by defining and analyzing the concept of romantic love and interdisciplinary approach to its study in cultural context Part II traces the origin and evolution of romantic love both in various places throughout the world and various time periods throughout history Part III presents the revolutionary expansion of romantic love ideas and practices in the late 20th and early 21st centuries in various parts of the world focusing particularly on the development of romantic love as a cultural ideal of the modern cultures Finally the book concludes by summarizing the major achievements in this field of study and predicts future development A timely and thoughtful addition to the literature *Romantic Love in Cultural Contexts* delivers thought provoking insights to researchers in relationship scholarship sociology anthropology and cultural studies and all those interested in the universal human concept of love Overall I find Dr Victor Karandashev is an excellent and fine scholar who

has a firm grasp of both the fundamental principles of cross cultural research and of anthropology In our increasingly connected world Romantic Love in Cultural Contexts updates and adds to the descriptions and explanations of similarities and differences in romantic love across generations and cultures Romantic love encompasses the life span rather than being a phenomenon largely confined to youthful years The topic of this project concerns the deepest of our sentiments and pervades life from birth to death This book contributes to better knowledge of this phenomenon across generations F l i x N e t o
