Handbook of Global Media Ethics Stephen J.A. Ward,2021-09-02 This handbook is one of the first comprehensive research and teaching tools for the developing area of global media ethics The advent of new media that is global in reach and impact has created the need for a journalism ethics that is global in principles and aims For many scholars teachers and journalists the existing journalism ethics e g existing codes of ethics is too parochial and national It fails to provide adequate normative guidance for a media that is digital global and practiced by professional and citizen A global media ethics is being constructed to define what responsible public journalism means for a new global media era Currently scholars write texts and codes for global media teach global media ethics analyse how global issues should be covered and gather together at conferences round tables and meetings However the field lacks an authoritative handbook that presents the views of leading thinkers on the most important issues for global media ethics This handbook is a milestone in the field and a major contribution to media ethics Becoming the Story Lindsay Palmer,2018-01-31 The September 11 attacks produced great

changes in journalism and the lives of the people who practiced it Foreign reporters felt surrounded by the hate of American colleagues for the enemy Americans in combat areas became literal targets of anti U S sentiment Behind the lines editors and bureau chiefs scrambled to reorient priorities while feeling the pressure of sending others into danger Becoming the Story examines the transformation of war reporting in the decade after 9 11 Lindsay Palmer delves into times when print or television correspondents themselves received intense public scrutiny because of an incident associated with the work of war reporting Such instances include Daniel Pearl s kidnapping and murder Bob Woodruff s near fatal injury in Iraq the expulsions of Maziar Bahari and Nazila Fathi from Iran in 2009 the sexual assault of Lara Logan and Marie Colvin s 2012 death in Syria Merging analysis with in depth interviews of Woodruff and others Palmer shows what these events say about

how post 9 11 conflicts transformed the day to day labor of reporting But they also illuminate how journalists work became entangled with issues ranging from digitization processes to unprecedented hostility from all sides to the political logic of the War on Terror     **Reporting Dangerously** Simon Cottle,Richard Sambrook,Nick Mosdell,2016-05-16 More journalists are

being killed attacked and intimidated than at any time in history Reporting Dangerously Journalist Killings Intimidation and Security examines the statistics and looks at the trends in journalist killings and intimidation around the world It identifies what factors have led to this rise and positions these in historical and global contexts This important study also provides case studies and first hand accounts from journalists working in some of the most dangerous places in the world today and seeks to understand the different pressures they must confront It also examines industry and political responses to these trends and pressures as well as the latest international initiatives aimed at challenging cultures of impunity and keeping journalists safe Throughout the authors argue that journalism contributes a vital if often neglected role in the formation and conduct of civil societies This is why reporting from uncivil places matters and this is why journalists are often positioned in harm s way The responsibility to report in a globalizing world of crises and human insecurity and the responsibility to try and keep journalists safe while they do so it is argued belongs to us all     **The War Correspondent** Greg McLaughlin,2016-02-20

What is the role of the war reporter today Through interviews with prominent war and foreign correspondents such as John Pilger Robert Fisk Mary Dejevsky and Alex Thomson The War Correspondent delves into the most dangerous form of journalism From Crimea to Vietnam the Falklands to the Gulf and Afghanistan Iraq and the War on Terror the books examines the attractions and risks of war reporting the challenge of objectivity and impartiality in the war zone the danger that journalistic independence is compromised by military control censorship and public relations as well as the commercial and technological pressures of an intensely concentrated competitive news media environment As history and ideology return to the reporting of international conflict Greg McLaughlin asks what will that mean for a new generation of war

correspondents attuned not to history or ideology but to the politics of the next conflict     **Dying for the Truth** Paul Moorcraft,2016-11-30 The role of war correspondents is crucial to democracy and the publics discovery of the truth Without them the temptation to manipulate events with propaganda would be irresistible to politicians of all hues It starts by examining how journalists have plied their trade over the years most particularly from the Crimean War onwards Their impact on the conduct of war has been profound and the author an experienced journalist explains in his frank and readable manner how this influence has shaped the actions of politicians and military commanders By the same token the media is a potentially valuable tool to those in authority and this two way relationship is examined Technical developments and 24 hour news have inevitably changed the nature of war reporting and their political masters ignore this at their peril and the author examines the key milestones on this road Using his own and others experiences in recent conflicts be they Korea Falklands Balkans Iraq or Afghanistan the author opens the readers eyes to an aspect of warfare that is all too often overlooked but can

be crucial to the outcome The public's attitude to the day to day conduct of war is becoming ever more significant and this fascinating book examines why

**Profile Pieces** Sue Joseph, Richard Lance Keeble, 2015-10-14 This book examines the history theory and journalistic practice of profile writing Profiles and the practice of writing them are of increasing interest to scholars of journalism because conflicts between the interviewer and the subject

exemplify the changing nature of journalism itself While the subject often through the medium of their press representative struggles to retain control of the interview space the journalist seeks to subvert it This interesting and multi layered interaction however has rarely been subject to critical scrutiny partly because profiles have traditionally been regarded as public relations exercises or as soft journalism However chapters in this volume reveal not only that profiling has historically taken many different forms but that the idea of the interview as a contested space has applications beyond the subject of celebrated individuals The volume looks at the profile s historical beginnings at the contemporary manufacture of celebrity versus the ordinary at profiling communities countries and movements at profiling the destitute at sporting personalities and finally at profiling and trauma

*Conflict Propaganda in Syria* Oliver Boyd-Barrett, 2021-12-28 This book investigates rival narratives about the conflict in Syria from 2011 onwards It examines the starkly different narratives about the Syrian conflict told by mainly Western mainstream and alternative media and contrasts these narratives with the equally polarized but more nuanced narratives of mainly Western scholars and long form journalists Differences of narrative concerning the conflict include what is deemed relevant context in trying to explain the war whether the war is best seen as a civil conflict or as a proxy war fought among external powers the degree of emphasis given to the alleged crimes of the Syrian regime as opposed to the alleged violence of Salafist militia the accuracy of the origin story of the conflict in Daraa the extent to which the initial protestors were secular campaigners calling for democracy or whether they were Muslim extremists seeking a sectarian society governed by sharia law Several case studies of propaganda institutions are examined here including the journalism of Marie Colvin the role of government funded NGOs the controversies surrounding each of three major instances of alleged regime use of chemical weapons and the politicization of the Organization for the Prohibition of Chemical Weapons OPCW This book will be of much interest to students of media and communication studies propaganda studies Middle Eastern politics and International Relations in general

Kriegsberichterstattung und Konfliktsensitivität Mathias Alexander Wolff, 2018-05-08 Mathias Alexander Wolff untersucht wie konfliktstheoretisch die deutsche Qualitätspresse über Kriege berichtet Die empirische Antwort auf diese Frage ist für die

mediale Glaubwürdigkeit elementar und sie fällt ernstlich aus. In zentralen Qualitätsdimensionen ist die Kriegsberichterstattung defizitär was vor allem bedeutet tendenziell exemplarisch deutlich wird dies an der journalistischen Wortwahl einem bislang vernachlässigten Qualitätsindikator für den ein spezifischer Analyseansatz entwickelt wurde. Die Ergebnisse der Inhaltsanalyse verstehen sich als Argumente einer konstruktiven Medienkritik und bieten darüber hinaus konkrete Ansatzpunkte für Qualitätsverbesserungen und Profoutinen in der redaktionellen Praxis.

Dende o conflito María Reimóndez, 2014-09-21 Sa nza Combarro unha xornalista galega que cobre conflitos blicos para a BBC vive en carne propia o dilema de optar polo cinismo e a resignación hora de relatar o que ve cos seus propios ollos ou optar por defender a verdade ntima de quen testemu a dos feitos máis arrepiantes. A través dela a novela fala da importancia do exercicio xornalístico nas situacións de conflito pero sobre todo da importancia de buscar unha posición tica de relación con todas aquelas persoas esquecidas e que fican silentes do outro lado das noticias. Incluso por paradoxal que semelle as propias xornalistas. As dificultades e os atrancos máis tamén a reformulación da vida propia desde o extremo van alén do evidente e buscan transmitir desde a emoción próxima da carne e o so desde unha posición rebelde cos papeis dados a procura da propia voz para que as outras tamén a teñan. Probablemente por iso porque a personaxe vive situacións límite. Dende o conflito unha novela sobre a evolución e a construción dunha persoa que loita por ser exactamente o que ela quere ser. Dende o conflito rende homenaxe ás mulleres xornalistas que souberon poñer a verdade dos conflitos blicos por enriba de todo. Da man da protagonista viaxamos desde o Congo a Irak desde Etiopía a Afganistán desde Sri Lanka a Haití pero tamén a Berlín Barcelona Compostela e Vilalba que son os lugares onde Sa nza se protexe da violencia buscando o agarimo e o refuxio dos afectos como unha necesidade vital para non renderse nunca. E que Dende o conflito unha novela sobre o xornalismo sobre a guerra sobre o abismo entre o norte e o sur sobre a pobreza sobre a fame a miseria e a marxinalización pero moi especialmente unha novela sobre o valor da amizade e do amor sobre a diversidade e a contradición dos sentimentos e en definitiva sobre a esencia das cousas que son as realmente importantes na vida.
