and John the house man another and Pincher one of the loggers was making for the hills with Uncle Billy in one direction and Old Uncle and Will and Charlie had gone up in another and Aunt Rose and Aunt Susan were hunting through the house and Janet and Essie were running this way and that and it was noon and still they hadn't found her Will was sure Ally would be found in the strawberry patch on the farther edge of the interval across the river and as the boat was on the other side he had offered to swim over and fetch it Charlie had been equally sure that she was looking for bear cubs again in the hollow half way up Blue Top Aunt Susan was convinced that she had fallen asleep somewhere under a bush when she could not be found in the house

Newton and His Apple Murat Ugray, 2024-12-04 Isaac Newton was a shy quiet boy growing up on a farm in England 300 years ago He was not a very good student and nobody paid much attention to him Nobody that is except the school bully One day the bully punched Isaac in the stomach That hurt and that got Isaac very mad He pulled himself up straight and fought back Isaac pushed the bully onto the ground and rubbed his face in the mud All the other kids hated the bully and came and cheered for Isaac So Isaac taught the bully a lesson but he wasn't satisfied with that Now that he knew he could fight better than the bully he wanted to prove that he could do anything better than the bully So he started paying attention to school and studying hard He was soon the top of his class proving he was smarter than the bully too Isaac Newton kept on studying and when he grew up he became a math professor at Cambridge University He discovered lots of important things and is one of the most famous scientists who ever lived But One day Isaac was reading a book under an apple tree on the farm An apple fell out of the tree bonk Ow Now for most people that would be the end of the story but not for Isaac Not for somebody who just couldn't stop asking why all the time Why did the apple fall out of the tree Does everything fall What makes things fall Can anything stop things from falling Are the sun moon and stars falling Why don't they ever hit the ground So many questions Newton spent many years answering these questions by thinking and doing experiments He made up the law of gravity According to this law everything pulled everything else to itself by a force called gravity How strong that force is depends on how heavy the things are and how close together This book telling this excellent biographic story very simple teaching and amazingly
