Neco Civic Education Essay:

Civic Education and the Future of American Citizenship Elizabeth Kaufer Busch, Jonathan W. White, 2012-11-02 The Founders of this nation believed that the government they were creating required a civically educated populace. Such an education aimed to cultivate enlightened, informed, and vigilant citizens who could perpetuate and improve the nation. Unfortunately, America's contemporary youth seem to lack adequate opportunities, if not also the ability or will to critically examine the foundations of this nation. An even larger problem is an increasing ambivalence toward education in general. Stepping into this void is a diverse group of educators, intellectuals, and businesspeople brought together in *Civic Education and the Future of American Citizenship* to grapple with the issue of civic illiteracy and its consequences. The essays, edited by Elizabeth Kaufer Busch and Jonathan W. White, force us to not only reexamine the goals of civic education in America but also those of liberal education more broadly.

Civic Education in Polarized Times Elizabeth Beaumont, Eric Beerbohm, 2024-07-23 Reveals the possibilities and challenges of civic education in circumstances of extreme polarization and how civic learning and political divisiveness can interact and influence each other. As fears about polarization and its contribution to democratic crisis and corrosion rise, many people have posited civic education as a possible remedy. In a time of increasing political polarization, what should the goals of civic education be and how should they be implemented? In the latest installment of the NOMOS series, Eric Beerbohm and Elizabeth Beaumont bring together a distinguished group of interdisciplinary scholars across philosophy, politics, and law, inviting us to think deeply about the complex promises and pitfalls of civic education. Contributors raise a variety of crucial considerations, not only about how to educate citizens in a polarized era but also for a polarized era. What types of civic learning hold promise for preparing students to navigate their way through a political landscape of escalating hostile factions, distrust, truth decay, and disagreement about basic facts? Could or should civic education attempt to reduce or counteract polarization, or should it focus on other aims? Beaumont and Beerbohm show us that the dynamics and circumstances of polarization do not stop at the schoolhouse gates but bring new urgency together with added pressures and constraints to all civic education. As political polarization continues to intensify across the globe, this riveting volume illuminates the significance, the possibilities, and the challenges of civic education in the contemporary era.

The Morality of Democratic Citizenship Robert Freeman Butts, 1988 In recent years, a number of political and educational leaders and groups have urged the nation's public schools to place a greater emphasis on teaching civic values and on educating students to become citizens. This book puts forth the civic values and ideas that schools should be teaching. The volume is not a handbook or curriculum guide but is designed to broaden the perspective of curriculum

specialists textbook authors teachers and educational policymakers In the first three chapters of this four chapter book the study of and learning about history the study and learning about constitutional principles and the study and learning about conceptions of citizenship are examined The final chapter offers a set of 12 ideas and civic values that should suffuse teaching and learning in the schools These 12 values are justice equality authority participation truth patriotism freedom diversity privacy due process property and human rights DB National Standards for Civics and Government Center for Civic Education (Calabasas, Calif.),1994 **Civic Education in a Time of Democratic Crisis** Gregory White,Dian Dong,David E. MATTHEW D. NELSEN,2023-08-04 Generations of Americans dating back to the nation's founding have regarded schools as essential for developing the knowledge and civic values necessary for sustaining democracy Yet as Matthew D Nelsen argues in *The Color of Civics* traditional approaches to civic education are not living up to their promise for many students particularly students of color from disadvantaged communities How do we prepare an increasingly diverse generation of Americans for full participation in public life Drawing on lessons from students and teachers in Chicago *The Color of Civics* reimagines the democratic purpose of civic education Nelsen's findings challenge some of the most widely cited civic education research arguing that the content of traditional civic education courses privileges the political experiences of white political actors and in turn contributes to divergent political behaviors and participatory outcomes across racial and ethnic groups He presents a new approach to civic education that aims to foster political empowerment by centering historically grounded conversations about current events as well as critical categories of knowledge those that highlight the agency and grassroots political action of marginalized groups This approach increases rates of intended political participation among young people of color and heightens political empathy among white youth Nelsen also highlights the agency of teachers in processes of socialization exploring how their attitudes and lived experiences drive the implementation of more empowering civic learning environments By taking the histories and lived experiences of marginalized communities seriously *The Color of Civics* asserts that civics courses can become spaces where young people begin to recognize their own agency develop empathy and define the terms of their own political participation Including novel empirical research and an evidence based analysis Nelsen provides practical and useful advice for policymakers that cuts through the noise to focus on what works
