"The Netherlandish Image after Iconoclasm, 1566-1672" Mia M. Mochizuki, 2017-07-05

Debunking the myth of the stark white Protestant church interior this study explores the very objects and architectural additions that were in fact added to Netherlandish church interiors in the first century after iconoclasm. In charting these additions Mia Mochizuki helps explain the impact of iconoclasm on the cultural topography of the Dutch Golden Age and by extension permits careful scrutiny of a decisive moment in the history of the image. Focusing on the Great or St Bavo Church in Haarlem this interdisciplinary book draws on art history, history and theology to look at the impact of iconoclasm and reformation on the process of image making in the early modern Netherlands. The new objects that began to appear in the early Dutch Reformed Church signaled a dramatic change in the form, function and patronage of church art and testified to new roles for church government, guild and resident. Each chapter in the book introduces a major theme of the nascent Protestant church interior: the Word made material, the Word made memorial and the Word made manifest, which is then explored through the painting, sculpture and architecture of the early Dutch Reformed Church. The text is heavily illustrated with images of the objects under discussion, many of them never before published. A large number of these images are from the camera of prize-winning photographer Tjeerd Frederikse, with additional photography courtesy of E. A. van Voorden. This book unveils, defines and reproduces a host of images previously unaddressed by scholarship and links them to more familiar and long-studied Dutch paintings. It provides a religious art companion to general studies of Dutch Golden Age art and lends greater depth to our understanding of iconoclasm as well as the way in which cultural artifacts and religious material culture reflect and help to shape the values of a community. Taking up the challenge of an unusual category of objects for visual analysis, this

What was the cultural impact of early meetings between Chinese and Europeans? This book explores visual, literary and scholarly representations of the Celestial Empire and Western countries against the backdrop of actual encounters. Based on rare Chinese and correspondingly European, especially Dutch, sources and archival documents, the volume covers a range of cultural expressions from the applied arts to philosophy. Special attention goes to the ideals and realities of trade and diplomacy of the Dutch East India Company in China. *Foreign Devils and Philosophers* approaches global history from a cultural perspective and illuminates the reciprocal dynamic of aversion and admiration Chinese and Westerners could appear as sages or savages in each other's eyes.

Exploration, trade and conquest expanded and upset traditional worldviews of early modern Europeans. Christians saw themselves confronted with a largely heathen world. In the wake of Iberian colonization, Jesuits successfully Christianized heathen populations overseas. In his *De conversione Indorum et gentilium* Johannes Hoornbeeck presents a systematic overview of every aspect of the

missionary imperative from a Reformed Protestant perspective The most attractive part of his book may be the global survey it offers of the various types of heathens an early example of comparative religion Of equal interest however is his critical approach to mission Hoornbeeck rejects ecclesiastical hierarchy and top down imposition of Christianity In this he is perfectly orthodox and at the same time startlingly original and a harbinger of modern missions His practical recommendations offer a flexible framework for missionaries to fit a wide variety of circumstances *The Netherlandish Image After Iconoclasm, 1566-1672* Mia M. Mochizuki, 2008 Debunking the myth of the stark white Protestant church interior this innovative book draws on art history reformation history and theology to explain the impact of iconoclasm on the cultural topography of the Dutch Golden Age Lavishly illustrated with color photographs of many objects never before published this study identifies a previously overlooked aspect of iconoclasm while acknowledging its destructive force Mochizuki also discloses its generative power and the remarkable creativity it unleashed *Boundaries and their Meanings in the History of the Netherlands*, 2009-06-17 Traditionally the term boundary applies to the demarcation between a physical place and another physical place most commonly associated with lines on a map As the essays in this volume demonstrate however a boundary can also function in a more broadly conceptual manner A boundary becomes not an imaginary line but a tool for thinking about how to separate any two elements whether ideas events etc into categories by which they become comprehensible and distinct The scholar contributors seek not simply to discern the boundaries but and perhaps more importantly to understand the process of delination and its consequences With its maverick history and grass root political traditions the Netherlands provides an auspicious setting to examine the historical function of boundaries both real and imagined Paper Landscapes P. Boomgaard, David E.F.
