Negativity And Politics Dionysus And Dialectics From Kant To Poststructuralism:

Negativity and Politics Diana Coole, 2002-01-04 First published in 2000 Although frequently invoked by philosophers and political theorists the theory of negativity has received remarkably little sustained attention Negativity and Politics Dionysus and dialectics from Kant to poststructuralism is the first full length study of this crucial problematic within philosophy and political theory Diana Coole clearly and skilfully shows how the problem of negativity lies at the heart of philosophical and political debate First she explores the meaning of negativity as it appears in modern and postmodern thinking Second she sets out the significance of negativity for politics and our understanding of what constitutes the political A key theme of Negativity and Politics is the recurring hostility between the dialectical use of negativity found in Hegel and running through Marxism and critical theory and the Dionysian use of negativity as developed by Nietzsche and found in important strands of French thought Diana Coole shows how the appropriation of negativity in both cases threatens but also informs our understanding of politics and the political A fascinating and bold intervention in political theory and philosophy Negativity and Politics will be of interest to all those in politics philosophy and contemporary social theory

Configurations of the Real in Chinese Literary and Aesthetic Modernity Peter Button, 2009-03-25 The emergence of the Chinese socialist realist novel can best be understood in light of the half century long formation of the modern concept of literature in China Globalized in the wake of modern capitalism literary modernity configures the literary text in a relationship to both modern philosophy and literary theory This book traces China's unique complex and creative articulation of literary modernity beginning with Lu Xun's *The True Story of Ah Q* Cai Yi's aesthetic theory of the type *dianxing* and the image *xingxiang* is then explored in relation to global currents in literary thought and philosophy making possible a fundamental rethinking of Chinese socialist realist novels like Yang Mo's *Song of Youth* and Luo Guangbin and Yan Yiyang's *Red Crag*

Open Marxism 4 Ana Cecilia Dinerstein, Alfonso García Vela, Edith González, John Holloway, 2019-11-20 The publication of the first three volumes of *Open Marxism* in the 1990s has had a transformative impact on how we think about Marxism in the twenty first century *Open Marxism* aims to think of Marxism as a theory of struggle not as an objective analysis of capitalist domination arguing that money capital and the state are forms of struggle from above and therefore open to resistance and rebellion As critical thought is squeezed out of universities and geographical shifts shape the terrain of theoretical discussion the editors argue now is the time for a new volume that reflects the work that has been carried out during the past decade Emphasising the contemporary relevance of open Marxism in our moment of political and economic uncertainty the collection shines a light on its significance for activists and academics today

also their works that deal with political questions around liberalism capitalism and democracy This book offers the first substantial critical assessment of Derrida and Foucault's political work and also situates these crucial thinkers in contemporary debates in political theory

political economy to questions of community and the politics of the avant garde to the cultural contexts where it is produced and intervenes Each serves as a kind of thought experiment that theorizes and assesses the consequences of Language writing in expanded fields of meaning that include history political theory art history and narrative theory While all are grounded in a series of baseline questions of poetics they also polemically address the currently turbulent debates on the politics of the avant garde especially Language writing among emerging communities of poets In manifold ways Watten masterfully demonstrates the aesthetic and political aims of Language writing its influence on emerging literary schools and its present aesthetic critical and political horizons Questions of Poetics will be a major point of reference in continuing debates on poetry and literary history a critical reexamination for already familiar readers and a clearly presented introduction for new ones

In the Spirit of Critique Andrew J. Douglas, 2013-12-02 Focusing on the critical postures of Hegel Marx and a series of twentieth century intellectuals including Sartre Adorno and C L R James this book explores what dialectical thinking entails and how such thinking might speak to the lived realities of the contemporary political moment What is revealed is not a formal method or a grand philosophical system but rather a reflective energy or disposition a dialectical spirit of critique that draws normative sustenance from an emancipatory moral vision but that remains attuned principally to conflict and tension and to the tragic uncertainties of political life In light of the unique challenges of the late modern age as theorists and citizens struggle to sustain an active and coherent critical agenda In the Spirit of Critique invites serious reconsideration of a rich and elusive intellectual tradition

Instituting Thought Roberto Esposito, 2021-08-20 This new book by the Italian philosopher Roberto Esposito addresses the profound crisis of contemporary politics and examines some of the philosophical approaches that have been used to try to understand and go beyond this crisis Two approaches have been particularly influential one indebted to the thought of Martin Heidegger the other indebted to Gilles Deleuze While opposed in their political thrust and orientation both approaches remain trapped within the political ontology that has framed our conceptual language for some time In order to move beyond this political ontology Esposito turns to a third approach that he characterizes as instituting thought Indebted to the work of the French political philosopher Claude Lefort this third approach recognizes that the road to reconstructing a productive relation between ontology and politics one that is both realistic and innovative lies in instituting praxis Building on this insight Esposito conceptualizes social being as neither univocal nor plurivocal but as cross cut by the dual semantics of political conflict This new book by one of the most original European philosophers writing today will be of great interest to students and scholars in philosophy social and political theory and the humanities generally

Modernism and Phenomenology Ariane Mildenberg, 2017-04-06 Braiding together strands of literary phenomenological and art historical reflection Modernism and Phenomenology explores the ways in which modernist writers and artists return us to wonder before the world Taking such wonder as the motive for phenomenology itself and challenging extant views of modernism that uphold a

mind world opposition rooted in Cartesian thought the book considers the work of modernists who far from presenting perfect finished models for life and the self embrace raw and semi chaotic experience Close readings of works by Paul C zanne Gertrude Stein Franz Kafka Gerard Manley Hopkins Wallace Stevens Paul Klee and Virginia Woolf explore how modernist texts and artworks display a deep rooted openness to the world that turns us into perpetual beginners Pushing back against ideas of modernism as fragmentation or groundlessness Mildenberg argues that this openness is less a sign of powerlessness and deferred meaning than of the very provisionality of experience Judith Butler Moya Lloyd,2013-05-03

With the publication of her highly acclaimed and much cited book *Gender Trouble* Judith Butler became one of the most influential feminist theorists of her generation Her theory of gender performativity and her writings on corporeality on the injurious capacity of language on the vulnerability of human life to violence and on the impact of mourning on politics have taken together comprised a substantial and highly original body of work that has a wide and truly cross disciplinary appeal In this lively book Moya Lloyd provides both a clear exposition and an original critique of Butler s work She examines Butlers core ideas traces the development of her thought from her first book to her most recent work and assesses Butlers engagements with the philosophies of Hegel Foucault Derrida Irigaray and de Beauvoir as well as addressing the nature and impact of Butler s writing on feminist theory Throughout Lloyd is particularly concerned to examine Butler s political theory including her critical interventions in such contemporary political controversies as those surrounding gay marriage hate speech human rights and September 11 and its aftermath Judith Butler offers an accessible and original contribution to existing debates that will be an invaluable resource for students and scholars alike **Understanding Hegelianism** Robert Sinnerbrink,2014-12-05

Understanding Hegelianism explores the ways in which Hegelian and anti Hegelian currents of thought have shaped some of the most significant movements in twentieth century European philosophy particularly the traditions of critical theory existentialism Marxism and poststructuralism The first part of the book examines Kierkegaard s existentialism and Marx s materialism which present two defining poles of subsequent Hegelian and anti Hegelian movements The second part looks at the contrasting critiques of Hegel by Lukacs and Heidegger which set the stage for the appropriation of Hegelian themes in German critical theory and the anti Hegelian turn in French poststructuralism The role of Hegelian themes in the work of Adorno Habermas and Honneth are explored In the third part the rich tradition of Hegelianism in modern French philosophy is considered the work of Wahl Kojève Hyppolite Lefebvre Sartre de Beauvoir as well as the radical critique of Hegelianism articulated by Derrida and Deleuze Although the focus is primarily on German and French appropriations of Hegelian thought the author also explores some of the recent developments in Anglophone Hegelianism *Merleau-Ponty and Modern Politics After Anti-Humanism* Diana Coole,2007-08-28

In this important new book Diana Coole shows how existential phenomenology illuminates and enlivens our understanding of politics Merleau PontyOs focus on embodied experience allows us to approach political life in a manner that is both critical and engaged With

breadth of vision and penetrating insight Coole demonstrates that political questions were always central to Merleau Ponty's philosophical project Her examination of his complete body of work presents us with a rigorous philosophy that maintains our capacities for agency despite moving beyond a philosophy of the subject Merleau Ponty and Modern Politics after Anti humanism is the first major work on Merleau Ponty's political philosophy in over two decades Coole presents his later philosophy of flesh as the outline for a new understanding of the political which forms the basis for reconsidering humanism after but also through anti humanism She also shows how Merleau Ponty's concern with contingency anticipated arguments by thinkers such as Derrida Foucault and Deleuze while sustaining a robust sense of politics as the domain of collective life The result is a philosophical analysis that speaks to our contemporary concerns in which we seek a coherent account of our actions our environment and ourselves such that we might become exemplary political actors within a complex and uncertain world

Taking Ideology Seriously Gayil Talshir, Mathew Humphrey, Michael Freeden, 2018-10-24 Recent years have

witnessed a resurgence of the end of ideology thesis not as a theoretical stance but as a reaction to what appears to have been the decline of major ideological families such as socialism in a changing world order Globalization as well as internal national fragmentation of belief systems have made it difficult to identify ideology in its conventional formats Previously published as a special issue of The Critical Review of International Social and Political Philosophy this volume challenges the notion that we are living in a post ideological age It offers a theoretical framework for exploring some of the new manifestations of ideologies and combines this with a series of case studies relating to recent ideational phenomena such as populism environmentalism and Islamic fundamentalism The contributors reassess some typologies such as the left right axis as an explanatory device and use ideology research to bring together different scholarly perspectives including party political analysis the history of ideas post Marxism and movement politics

Landscapes of Devils Gastón Gordillo, 2004-12-06
