Neither Beast Nor God The Dignity Of The Human Person:

Neither Beast Nor God Gilbert Meilaender, 2010-06-29 Appeals to human dignity are at the core of many of the most contentious social and political issues of our time But these appeals suggest different and at times even contradictory ways of understanding the term Is dignity something we all share equally therefore the reason we all ought to be treated as equals Or is dignity what distinguishes some greater and more admirable human beings from the rest What notion of human dignity should inform our private judgments and our public life In *Neither Beast Nor God* Gilbert Meilaender elaborates the philosophical social theological and political implications of the question of dignity and suggests a path through the thicket A noted theologian and a prominent voice in America's bioethics debates Meilaender traces the ways in which notions of dignity shape societies families and individual lives He incisively cuts through some of the common confusions that cloud our thinking on key moral and ethical questions The dignity of humanity and the dignity of the person he argues are distinct but deeply connected and only by grasping them both can we find our way to a meaningful understanding of the human condition

The Future of Interreligious Dialogue Cohen, Charles L., Knitter, Paul F., Rosenhagen, Ulrich, 2017-09-14 **Icons - Imaging the Unseen** Daniël J. Louw, 2014-11-01 The experience of the divine has been referred to by many artists over the centuries whether their subject was the human figure landscape still life or indeed religious or biblical themes Art therefore requires a kind of openness a willingness to mediate rather than to control This sensitivity can best be described as humility an obeisance to something we are part of Therefore to see the unseen in visual arts brings about awe and requires iconic viewing The spiritual realm as portrayed by icons has a healing quality in a world where the news and the arts are so full of tragedy and where the church's message so often sounds escapist or naïve Should We Live Forever? Gilbert

Meilaender, 2013-01-14 In *Should We Live Forever* Christian ethicist Gilbert Meilaender puzzles over the implications of the medical advances that have lengthened the human life span wrestling with what this quest for living longer means for our conception of living well and completely As he points out in his introduction That we often desire even greedily desire longer life is clear whether what we desire is truly desirable is harder to say The six chapters of this book take multiple perspectives on issues surrounding aging and invite readers to consider whether indefinitely more life is something worth pursuing and if humans are created for life with God whether longer life will truly satisfy our underlying hunger **Making Human**

Matthew S. Weinert, 2015-02-20 Differences between human beings have long been used to justify a range of degrading exclusionary and murderous practices that strip people of their humanity and dignity While considerable scholarship has been devoted to such dehumanization Matthew S Weinert asks how we might conceive its reverse humanization or what it means to make human Weinert proposes an account of making human centered on five mechanisms reflection recognition resistance replication of dominant mores and responsibility Examining cases such as the UN Security Council's engagements with crises and the International Court of Justice's grappling with Kosovo's unilateral declaration of independence he

illustrates the distinct and contingent ways these mechanisms have been deployed Theoretically the cases evince a complex evolving relationship between state centric and human centric views of society ultimately revealing the normative potentialities of both Though the case studies concern specific human relations issues on an international level Weinert argues in favor of starting from the shared problem of being human and of living in a world in which the humanity of countless groups has been demeaned or denied Working outward from that point he proposes we obtain a more pragmatically grounded understanding of the social construction of the human being Journal of Moral Theology, Volume 3, Number 1 David M. how solitary confinement damages our spiritual lives He focuses particularly on how it destroys one's relationship to time and undermines our creativity and proposes institutional changes in order to mitigate profound damage to prisoners

A *Culture of Engagement* Cathleen Kaveny, 2016-03-01 Religious traditions in the United States are characterized by ongoing tension between assimilation to the broader culture as typified by mainline Protestant churches and defiant rejection of cultural incursions as witnessed by more sectarian movements such as Mormonism and Hassidism However legal theorist and Catholic theologian Cathleen Kaveny contends there is a third possibility a culture of engagement that accommodates and respects tradition It also recognizes the need to interact with culture to remain relevant and to offer critiques of social political legal and economic practices Kaveny suggests that rather than avoid the crisscross of the religious and secular spheres of life we should use this conflict as an opportunity to come together and to encounter challenge contribute to and correct one another Focusing on five broad areas of interest Law as a Teacher Religious Liberty and Its Limits Conversations about Culture Conversations about Belief and Cases and Controversies Kaveny demonstrates how thoughtful and purposeful engagement can contribute to rich constructive and difficult discussions between moral and cultural traditions This provocative collection of Kaveny's articles from *Commonweal* magazine substantially revised and updated from their initial publication provides astonishing insight into a range of hot button issues like abortion assisted suicide government sponsored torture contraception the Ashley Treatment capital punishment and the role of religious faith in a pluralistic society At turns masterful and inspirational *A Culture of Engagement* is a welcome reminder of what can be gained when a diversity of experiences and beliefs is brought to bear on American public life

Honor: A Phenomenology Robert L. Oprisko, 2012-07-26 Honor is misunderstood in the social sciences The literature lacks both accuracy and precision in its conceptual development such that we no longer say what we mean because we have no idea what we're saying We use many terms to mean honor and mean many different ideas when we refer to honor *Honor: A Phenomenology* is designed to fix all of these problems A ground breaking examination of honor as a metaphenomenon this book incorporates various structures of social control including prestige face shame and affiliated honor and the rejection of said structures by dignified individuals and groups It shows honor to be a concept that encompasses a number of processes that operate together in order to structure society Honor is how we are inscribed with social value by others and the means by which we inscribe others with social honor Because it is the means by which individuals fit in and function with society the main divisions internal within the psyche of the individual and external within the norms and institutions of society Honor is the glue that holds groups together and the wedge that forces them apart it defines who is us and who them It accounts for the continuity and change in socio political systems

institutionalize them in many ways The question of the connection between religion and human rights is a crucial point here The genealogy of the Human Rights is still a point of controversies in the academic discussion Nevertheless there is consensus that the Christian tradition especially the doctrine that each human being is an image of God played an important role within the emergence of the codification of the Human Rights in the period of enlightenment It is also obvious that the struggle against the politics of apartheid in South Africa was strongly supported by initiatives of churchy and other religious groups referring to the Human Rights Christian churches and other religious groups do still play an important role in the post apartheid South Africa They have a public voice concerning all the challenges with which the multiethnic and economically still deeply divided South African society is faced with The reflections on these questions in the collected lectures and essays of this volume derive from an academic discourse between German and South African scholars that took place within the German South African Year of Science 2012 13 Searching for a Universal Ethic William C. Prophets of the Posthuman Christina Bieber Lake, 2013-09-30 Prophets of the Posthuman provides a fresh and original reading of fictional narratives that raise the question of what it means to be human in the face of rapidly developing bioenhancement technologies Christina Bieber Lake argues that works by Nathaniel Hawthorne Walker Percy Flannery O Connor Toni Morrison George Saunders Marilynne Robinson Raymond Carver James Tiptree Jr and Margaret Atwood must be reevaluated in light of their contributions to larger ethical questions Drawing on a wide range of sources in philosophical and theological ethics Lake claims that these writers share a commitment to maintaining a category of personhood more meaningful than that allowed by utilitarian ethics Prophets of the Posthuman insists that because technology can never ask whether we should do something that we have the power to do literature must step into that role Each of the chapters of this interdisciplinary study sets up a typical ethical scenario regarding human enhancement technology and then illustrates how a work of fiction uniquely speaks to that scenario exposing a realm of human motivations that might otherwise be overlooked or simplified Through the vision of the writers she discusses Lake uncovers a deep critique of the ascendancy of personal autonomy as America's most cherished value This ascendancy coupled with technology's glamorous promises of happiness helps to shape a utilitarian view of persons that makes responsible ethical behavior toward one another almost impossible Prophets of the Posthuman charts the essential role that literature must play in the continuing conversation of what it means to be human in a posthuman world
