

NETGEAR

Cable/DSL Wireless Router WBR131 v2

Installation Guide

Follow these quick steps to install your router.

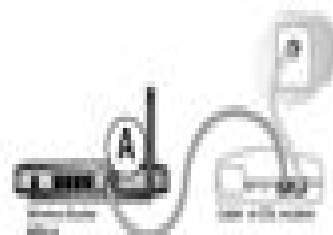

Before you begin, locate the broadband Internet configuration settings from your cable company. You can also consult the Install Assistant on the *GetNet*™ CD for Wireless Routers.

1 Connect the Router

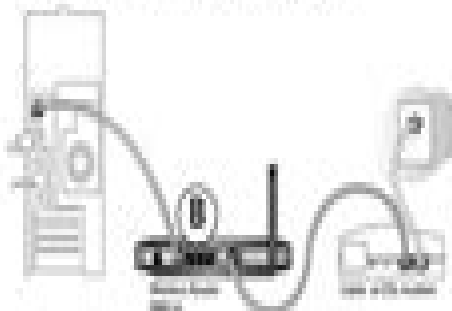

- Turn off your computer and cable or DSL modem.
- Disconnect the Ethernet cable from your computer (A) which connects to your cable or DSL modem.

- Connect the Ethernet cable from your cable or DSL modem to the Internet port (A) on the WBR131.

- Connect the Ethernet cable which came with the router from a Local port on the router (B) to your computer.

- Turn on the cable or DSL modem and wait about 30 seconds for the lights to stop blinking.
- Now, turn on your computer. If software usually logs you in to your Internet connection, do not run that software or cancel it if it starts automatically.

- Verify the following:

- When you turn the router on, the power light goes on.
- The local lights are lit for any connected computers.
- The Internet light is lit, indicating a link has been established to the cable or DSL modem.

Note: For wireless placement and range guidelines, and wireless configuration instructions, please see the *Reference Manual* on the *GetNet* CD for Wireless Routers.

2 Log in to the Router

Note: To connect to the router, your computer needs to be configured to obtain an IP address automatically via DHCP. For instructions on how to do this, please see Appendix C in the *Reference Manual* on the *GetNet* CD for Wireless Routers.

- Connect to the router by typing `http://192.168.1.1` in the address field of Internet Explorer or Netscape® Navigator.

- For security reasons, the router has its own user name and password. When prompted, enter **admin** for the router user name and **password** for the router password, both in lower case letters.

Note: The user name and password are not the same as any user name or password you may use to log in to the Internet.

3 Connect to the Internet

Internet Wizard

The Internet Wizard will guide you through the steps to connect your computer to the Internet.

Do you want to use the Internet Wizard to help you connect to the Internet?

☐ Yes

☐ No, I want to configure the router myself.

- You are now connected to the router. If you do not see the router shown, click the **Setup Wizard** link on the upper left of the main screen.
- Click **Next** to follow the steps in the Setup Wizard to input the router configuration settings. See the *Quick ISP Guide* for help with identifying your ISP settings.
- At the end of the Setup Wizard, click the **Test** button to verify your Internet connection and register your product.

Note: If you were unable to connect to the router, please refer to "Basic Functioning" in the "Troubleshooting" chapter of the *Reference Manual* on the *GetNet* CD for Wireless Routers.

Netgear Mr814v2 Manual

L Cohen

Netgear Mr814v2 Manual:

Right here, we have countless book **Netgear Mr814v2 Manual** and collections to check out. We additionally come up with the money for variant types and after that type of the books to browse. The within acceptable limits book, fiction, history, novel, scientific research, as with ease as various further sorts of books are readily reachable here.
