Poultry farming has been in practice for over 150 million years. The origin of poultry farming can be traced to South East Asia. Charles Darwins believed that present day hens came from the Gallus Bankiva which originated in a broad area of Asia extending from India to the Philippines. Now birds such as geese, ducks, pigeons, turkey, guinea fowl and chickens are included under the general term poultry. Poultry are a great source of food and fiber to humans. These foods come in the form of meat and eggs. Fiber comes in the form of feathers. You see there's an increase in the number of people participating in poultry fairs. Many people love them as pets or for egg production. The thing is there's a large commercial chicken industry that provides us with lots of meat and eggs. According to a 2017 publication by Antonio Gilberto Bertechini over 67 million metric tonnes of eggs were produced globally in 2013. Roughly 6.9 billion hens took charge of egg production. The combined efforts of these hens resulted in the production of 1250 billion eggs for a global population of 7.137 billion people which calculates to almost one hen per person. In 1991 the American hens produced over 57 billion dozen eggs. The poultry industry comprises of turkey and broilers. About 6.1 billion broilers were produced in the United States in 1991. This represents roughly 19.7 billion pounds of ready to cook broiler meat. The fact is the poultry industry is a very big business. It all begins with poultry breeding. Selected males and females of special breeds are mated and the eggs are harvested and incubated. Usually they're incubated for 21 days. The chicks are then brooded in rooms whose temperatures are strictly controlled. Upon maturing the birds are sent off as roasters or broilers for consumption as meat or further grown as breeders or laying hens. In the United States poultry farming is supervised by the Food and Drug Administration FDA. In the United Kingdom it is supervised by the Department for Environmental Food and Rural Affairs. As
