Viral Critique Hannah Richter, 2023-09-25 This book brings together papers that employ postfoundational theory to critically investigate the social political economic and ecological dynamics and power structures that shaped Western democracies non Western societies and international politics during the COVID 19 pandemic The COVID 19 pandemic disrupted not only social relations and personal lives across the globe but also the landscape of postfoundational theory Giorgio Agamben one of its most prominent figures attracted harsh criticism for his suggestion that the pandemic was nothing but an invented tool of state power In the face of a collectively experienced emergency it seemed tempting to forgo critical questioning in favour of taking action on a manifestly real viral threat

Resisting this temptation this volume makes the case that COVID 19 has rendered postfoundational critique urgently necessary The chapters collected here use postfoundational theory to unpack the pandemic s global social event beyond dominant narratives of unprecedentedness exception and necessity The authors explore where the pandemic has actually altered political social and economic dynamics But they also highlight where divisions inequalities and expropriation continued unchanged or even reinforced throughout and after the COVID 19 event The chapters apply scrutinise and re work the writings of postfoundational thinkers from Jacques Derrida Roberto Esposito and Gilles Deleuze to Jasbir Puar to both offer a better understanding of the pandemic s social reality and to draw from it visions for a different post pandemic future *Viral Critique* will be a key resource for academics researchers and advanced students of Philosophy Political Science Sociology Economics and Cultural Studies The chapters included in this book were originally published as a special issue of *Distinktion Journal of Social Theory* *Affective Relations* C. Sex, Gender, and Science M. Hird,2004-11-05 In *Sex Gender and Science* Myra Hird outlines the social study of science and nature specifically in relation to sex sex differences and sexuality She examines how Western understandings of sex are based less upon understanding material sex differences than on a discourse that emphasizes sex dichotomy over sex diversity and argues for a feminist engagement with scientific debate that embraces the diversity and complexity of nature
